OVERVIEW

Represented by Andrey Shestakov and the team at Shestakov Yacht Sales, the SLX 260 Surf from SEA RAY is a modern motor yacht built on a durable fiberglass-and-plastic hull. Measuring 25 ft (7.62 m) overall with an 8 ft (2.59 m) beam, it combines nimble handling with enough room for comfortable day trips with family and friends.

Selecting a SLX 260 Surf

Opting for the SLX 260 Surf means choosing a practical motor yacht by SEA RAY designed for straightforward ownership. A single MERCRUISER Inboard/Outboard running on unleaded fuel keeps operation and servicing simple, while the single enclosed head and sensible tank capacities support relaxed day cruising. The fiberglass-and-plastic hull paired with a fiberglass deck delivers longevity and low-maintenance care.

Features of the Model

- Dimensions tailored for versatility: 25 ft (7.62 m) LOA and 8 ft (2.59 m) beam
- Draft range for varied conditions: 12.566 ft (3.83 m) to 13.123 ft (4.00 m)
- Propulsion: 1 x MERCRUISER, Inboard/Outboard, unleaded fuel
- Construction: fiberglass-and-plastic hull with fiberglass deck
- Layout essentials: 1 head; water capacity 14 gal; fuel capacity 75 gal
- Classification: a modern motor yacht from SEA RAY
- Hull configuration: Other

Technical Specifications

- Builder: SEA RAY
- Model: SLX 260 Surf
- Category: motor yacht
- Hull material: fiberglass-and-plastic
- Deck material: Fiberglass
- Hull configuration: Other
- LOA: 25 ft (7.62 m)
- Beam: 8 ft (2.59 m)
- Draft (min–max): 12.566–13.123 ft (3.83–4.00 m)
- Engines: 1 x MERCRUISER
- Engine type: Inboard/Outboard
- Fuel type: Unleaded
- Heads: 1
- Water capacity: 14 gal
- Fuel capacity: 75 gal

Pricing and Ordering

To obtain current pricing, verify availability, or schedule a showing of the SLX 260 Surf by SEA RAY, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will assist you with detailed specifications, the necessary paperwork, and the steps to secure the right vessel under favorable terms.

Questions and Answers

Q: What type of yacht is the SLX 260 Surf? A: It is a motor yacht built on a fiberglass-and-plastic hull, offering a robust construction suited to a range of dayboat uses.

Q: What are the overall dimensions? A: The **Length Overall (LOA)** measures 25 ft (7.62 m), and the **beam** is 8 ft (2.59 m), giving a compact footprint with stable on-water behavior.

Q: What propulsion does it use? A: It is equipped with **1 MERCRUISER Inboard/Outboard** engine that runs on **unleaded** fuel, delivering straightforward maintenance and familiar service routines.

Q: What are the draft figures? A: The **draft** spans from 12.566 ft (3.83 m) up to 13.123 ft (4.00 m), information useful for planning routes in depth-sensitive areas and selecting slips.

Q: What onboard utilities are included? A: The vessel includes **1 head** , **fresh water capacity** of 14 gal, and **fuel capacity** of 75 gal. For further information or to arrange an inspection, contact **Andrey Shestakov** at **Shestakov Yacht Sales** regarding the SLX 260 Surf by SEA RAY.

Owner Experience Review

Owners are drawn to the SLX 260 Surf by SEA RAY for relaxed family outings and social days afloat, yet the boat readily converts to wakesurfing, tubing, or wakeboarding when energy levels rise. Test runs commonly praise the Deep V hull for slicing through typical lake and nearshore chop with confidence, settling into an everyday cruise of about 28–32 mph and hitting an estimated 44–46 mph at full throttle. Owners consistently rate its day-to-day usability highly—many simply say it's a joy to own—and one owner of an SLX 260 with outboard power highlighted the convenience of trimming the engine fully clear of the water.

The cockpit is configured to welcome up to 12 guests, with abundant under seat storage, while the helm's neat arrangement and dual Simrad displays keep navigation and systems control accessible for crews of mixed

experience. Families often praise the expansive swim platform, the retractable ladder, and the manual submersible step for making re boarding and water activities straightforward. For surfing, the factory integrated ballast combined with electric trim tabs produces a tidy, rideable wave suited to weekend surfers rather than riders seeking a competition level surf wake.

Feedback on ownership splits along propulsion lines and service expectations. Owners with outboards call out simpler DIY tasks like oil changes thanks to being able to tilt the engine out of the water, whereas sterndrive users frequently emphasize attention to seawater side components such as impellers, bellows, zincs, and fuel filters—checks that are especially critical on pre-owned examples. Brokers and listings also advise budgeting for dealer labor and annual maintenance reserves, though one owner comments that basic upkeep is manageable even for those who aren't mechanically inclined.

Pros and Cons

• Versatile day boat that suits family cruising and entertaining, yet can readily switch to wakesurfing, tubing, and wakeboarding.
• Deep V hull delivers a composed ride in chop with a practical cruise of 28–32 mph and an approximate top speed of 44–46 mph.
• Socially arranged cockpit for up to 12 people, user friendly dual display helm, and generous swim platform for easy water access.
• Surf system creates a fun, family oriented wave but falls short of the powerful push provided by a dedicated surf boat.
• Sterndrive seawater components—impellers, bellows, zincs, and filters—require routine attention, particularly on used vessels.
• Plan for dealer/service expenses and maintenance reserves as part of ongoing ownership costs.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
SLX 260 Surf	25' 0" (7.62 m)	8' 0" (2.59 m)	12' 7" (3.83 m) – 13' 1" (4 m)
