OVERVIEW

Discover the 27 Carolina by SHEARWATER — a capable, adaptable motor yacht configured as a center console layout and built on a rugged fiberglass and plastic hull. This listing is offered through Shestakov Yacht Sales with broker Andrey Shestakov.

Selecting a 27 Carolina

If a 27-foot center-console platform is on your shortlist, the 27 Carolina presents a sensible option among motor yachts in the center console format. Measuring 27 ft (8.23 m) LOA and fitted with twin Mercury outboards running on Gas/Petrol, it strikes a balance between manageable size and uncomplicated operation suited to daytime boating. Constructed by SHEARWATER, the craft features a fiberglass and plastic hull with a Fiberglass deck that keeps maintenance straightforward.

Features of the Model

- 27 ft (8.23 m) overall length delivering compact, capable handling
- Twin Mercury outboard engines; Gas/Petrol propulsion
- Center console design for an open and highly functional deck layout
- Classified as a motor yacht offering versatile day-use capability
- Hull constructed of fiberglass and plastic; deck finished in Fiberglass
- Produced by SHEARWATER with an emphasis on dependable build quality

Technical Specifications

- Builder: SHEARWATER

- Model: 27 Carolina
- Category: motor yacht
- Subcategory: center console
- Hull category: fiberglass and plastic
- LOA: 27 ft (8.23 m)
- Engines: 2 x Mercury, Outboard, Gas/Petrol
- Deck material: Fiberglass

Pricing and Ordering

Questions and Answers

Q: What type of yacht is the 27 Carolina? A: It is a motor yacht laid out as a center console with a fiberglass and plastic hull. Manufactured by SHEARWATER, the model highlights **practical design** and **easy operation** .

Q: What are the engine details on this model? A: Power comes from **2** Mercury **outboard** engines running on **Gas/Petrol** . The twin-outboard arrangement supports confident performance and simplifies service access.

Q: What is the LOA of the boat? A: The **LOA** measures **27 ft (8.23 m)** , offering a balanced footprint for marina berthing, trailering considerations, and day-cruising comfort.

Q: What materials are used for the hull and deck? A: The hull is built of fiberglass and plastic, and the **deck** is **Fiberglass** , chosen for durability and low-maintenance upkeep.

Q: How do I proceed with pricing and purchase? A: For details on **pricing** , **inspections** , and next steps in the purchase process, contact Shestakov Yacht Sales and broker Andrey Shestakov. We will explain timelines, inspections, and documentation to ensure a smooth acquisition of the 27 Carolina.

Owner Experience Review

Owners typically employ the 27 Carolina from SHEARWATER as a true bay/center-console platform: frequenting inshore bays and flats for weekday fishing, then venturing to light offshore or coastal sportfishing when conditions permit. Market listings often present it as family-friendly, featuring a center-console arrangement with a console lounger, leaning post, bow cushions and a single head, plus an uncluttered, open deck that eases movement for casting or transporting guests.

On the water, reports from dealers and owners consistently praise a “confident ride” and the “lively twin engine performance,” and one for sale ad even notes it “Runs and rides excellent no matter the sea conditions.” Published Yamaha testing on a 270 Carolina Open recorded 36.5 mph at 3500 rpm, 45.2 mph at 4000 rpm, and about 69.1 mph top speed in the test configuration, illustrating the model’s performance potential as fitted in that evaluation.

Maintenance summaries drawn from used listings and forum/dealer searches skew toward routine outboard service and normal twin outboard access work, with individual boats occasionally reporting newer lower units or recent engine repairs. Conversations and listings more commonly reference engine/prop/lower unit servicing and electronics upgrades rather than recurring, model wide structural concerns.

Pros and Cons

• Versatile setup suitable for inshore/bay and flats fishing with the ability to handle light offshore/coastal sportfishing.
• Confident ride and energetic twin engine performance; Yamaha testing recorded 36.5 mph at 3500 rpm, 45.2 mph at 4000 rpm, and ~69.1 mph top speed in the test configuration.
• Open, uncluttered center console deck with console lounger, bow cushions, leaning post and a single head supports both fishing activities and family outings.
• Performance and ride descriptions reflect a particular test configuration and dealer/owner impressions, so individual results will vary by equipment and setup.
• As with any twin outboard center console, ownership typically includes routine servicing and occasional lower unit or engine work on specific boats.
• Equipment and electronics packages differ across listings, so prospective buyers should confirm cushions, seating arrangements and any upgrades.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/ Max)	Gross Tonnage
250 Carolina Bay	25' 0" (7.62 m)	8' 0" (2.44 m)			
260 Carolina Flare	26' 0" (7.92 m)	8' 0" (2.59 m)	4' 1" (1.25 m)	37 kn / 60 kn	
23LTZ	23' 0" (7.01 m)	8' 0" (2.46 m)	3' 3" (1 m) – 5' 6" (1.67 m)	42 kn / 52 kn	
26 Carolina	26' 0" (7.92 m)	8' 0" (2.59 m)	4' 1" (1.25 m)		
N/A	33' 0" (10.06 m)	12' 0" (3.66 m)	9' 10" (3 m)	25 kn / 30 kn	
27 Carolina	27' 0" (8.23 m)
