OVERVIEW

Crafted by SIRENA YACHTS, FINLAND, the 68 is a flexible motor yacht in the motor yacht category, built on a fiberglass and plastic hull with a fiberglass deck. Presented by Andrey Shestakov and the Shestakov Yacht Sales team, it merges assured seakeeping with generous interior volume, suitable for short breaks or extended bluewater cruising.

Selecting a 68

Opting for the 68 signals a preference for an even blend of performance and onboard comfort. With a cruising pace of 16 knots (18.41 mph) and a maximum of 26 knots (29.92 mph), it's aimed at owners who want efficient passagemaking while retaining speed when required. A 19 ft (5.89 m) beam creates roomy living and social zones, and the maximum draft of 13.944 ft (4.25 m) underscores its bluewater-capable proportions. For bespoke advice on layouts, build options, or current availability, consult Andrey Shestakov at Shestakov Yacht Sales.

Features of the Model

- Performance you can plan around: 16 kn cruise and up to 26 kn max (18.41 / 29.92 mph)
- Twin Volvo inboard diesel propulsion (2 engines) for reliable power delivery
- Broad 19 ft beam for comfortable onboard living and social spaces
- Robust fiberglass and plastic hull and fiberglass deck construction
- Practical amenities for time aboard: 3 heads, 370 gal water, and 1,387 gal fuel capacity

- Builder: SIRENA YACHTS, FINLAND
- Model: 68
- Category: motor yacht; Sub-Category: motor yacht; Hull Category: fiberglass and plastic
- Length Overall (LOA): 68 ft (20.73 m)
- Beam: 19 ft (5.89 m)
- Draft (max): 13.944 ft (4.25 m)
- Engines: 2 x Volvo, Inboard, Diesel
- Cruising Speed: 16 kn (18.41 mph)
- Maximum Speed: 26 kn (29.92 mph)
- Hull Material: fiberglass and plastic
- Deck Material: Fiberglass
- Heads: 3
- Fuel Capacity: 1,387 gal
- Water Capacity: 370 gal

Pricing and Ordering

To obtain up-to-date pricing, inventory status, or details on build and delivery timelines for the 68 from SIRENA YACHTS, FINLAND, get in touch with Andrey Shestakov at Shestakov Yacht Sales. Our brokerage will present available options, explain lead times, and coordinate inspections tailored to your schedule.

Questions and Answers

Q1: What type of yacht is the 68? A1: The 68 is a motor yacht in the motor yacht category crafted by SIRENA YACHTS, FINLAND. **Type** and **class** highlight

its role as a capable cruising platform.

Q2: What are the speeds of the 68? A2: The vessel's **cruising speed** is 16 knots (18.41 mph) and the **maximum speed** is 26 knots (29.92 mph), offering economical long-distance runs with performance in reserve.

Q3: What is the hull and deck construction? A3: The hull is built in the fiberglass and plastic category while the **deck** is constructed from fiberglass, a combination chosen for durability and straightforward upkeep.

Q4: What engines power the 68? A4: Propulsion comes from **2 x Volvo inboard diesel** engines, a layout that balances dependable performance with fuel-efficient operation.

Q5: How can I order or view the 68? A5: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** to review availability, obtain pricing information, and schedule a personalized viewing.

Owner Experience Review

Owners frequently choose the 68 from SIRENA YACHTS, FINLAND for family cruising and even full-time liveaboard use. The galley accepts domestic-sized appliances — including a full-height fridge/freezer, dishwasher, and oven — and there's plentiful storage. With roughly 6 ft 9 in of headroom in the salon, extended stays feel comfortable. Owners often report the master cabin has the presence of a larger yacht, and the interior fit and finish is noted for being solid and free of squeaks. For entertaining, the roomy cockpit, large flybridge, and a hydraulic swim platform for the tender make socializing easy.

When underway, reviewers praise the semi-displacement hull as "an absolute peach," describing a steady, well-planted straight-line cruise and handling that exceeds expectations; several say it "feels 10ft longer" than its LOA. Its suitability for long passages is reinforced by a fuel capacity reported at more

than 5,000 liters. Reported downsides include instances of heavy spray reaching the bow and flybridge in some sea states, attributed to the fine plumb bow and limited flare, and documented shortfalls in achieving yard-stated top speed when the yacht is heavily loaded or operating in hot conditions. Ownership records show a warranty/support log that lists recurring problems with air conditioning, electrical power distribution, bilge/sump pumping, navigation equipment, engine cooling, and autopilot/heading sources, with owners describing resolution times as slow due to dealer/factory coordination. On the positive side, engine-room layout and ergonomics receive praise — access to routine service points on the Volvo Penta D13s is described as “couldn’t be easier.” The hull is constructed as a resin-infused sandwich, and SIRENA YACHTS, FINLAND has provided a 5-year osmosis warranty.

Pros and Cons

- Liveaboard comfort is strong: a spacious owner’s cabin, about 6 ft 9 in salon headroom, and domestic-sized appliances support extended stays.
- Semi-displacement hull delivers planted straight-line cruising with keener-than-expected handling and a “feels 10ft longer” presence.
- Practical engineering includes easy daily-service access on Volvo Penta D13s and resin-infused construction with a 5-year osmosis warranty.
- Some owners documented recurring AC, electrical distribution, bilge/sump, nav, and engine-cooling issues with slow dealer/factory resolution.
- Sea trials noted heavy spray over the bow and flybridge in certain conditions due to the fine, plumb bow and lack of flare.
- Top speed can fall short of the yard’s quote when heavily loaded or in hot conditions.
