OVERVIEW

The 34 m Yacht from Sunseeker is a polished motor yacht built on a fiberglass and plastic foundation, offering assured performance and luxurious long-range livability. Listed by Andrey Shestakov and the team at Shestakov Yacht Sales, this 111 ft (34 m) model artfully balances speed, internal volume, and refined styling.

Selecting a 34 m Yacht

Opting for the 34 m Yacht places emphasis on generous interior volume, strong cruising pace, and onboard comfort. Configured to accommodate up to 10 guests with dedicated crew quarters, it is well suited to family passages and entertaining afloat. Its motor yacht lineage and fiberglass and plastic build deliver a capable, low maintenance platform that typically cruises at 18 knots and can push to 26 knots when required.

Features of the Model

Conceived by Sunseeker with interiors by Sunseeker NJ, the 34 m Yacht combines a monohull arrangement with GRP deck construction for structural integrity and weight efficiency. Twin inboard MTU diesel engines supply dependable propulsion and agile control. The vessel's internal volume (approximately 225 gross tons) is arranged to host 10 guests with 6 heads, while the crew live in 3 cabins with 6 berths to support extended passages. A 24 ft (7.4 m) beam improves stability and allows for versatile interior planning.

Technical Specifications

- Yacht type: motor yacht
- Hull material: fiberglass and plastic
- Hull configuration: Monohull
- Deck material: GRP
- Builder: Sunseeker
- Model: 34 m Yacht
- LOA: 111 ft (34 m)
- Beam: 24 ft (7.4 m)
- Max draft: 7.251 ft (2.21 m)
- Gross tonnage: 225
- Engines: 2 x MTU, Inboard, Diesel
- Cruising speed: 18 kn (20.71 mph)
- Max speed: 26 kn (29.92 mph)
- Accommodation: 10 guests
- Heads: 6
- Crew: 3 cabins, 6 berths
- Fuel capacity: 5,151.35 gal
- Fresh water capacity: 1,056.69 gal
- Hull designer: Sunseeker

Questions and Answers

Q: What is the cruising and top speed of the yacht? A: The 34 m Yacht maintains a cruising speed of **18 knots** (approximately **20.71 mph**) and is capable of a maximum speed of **26 knots** (approximately **29.92 mph**).

Q: How many guests and crew can be accommodated? A: The arrangement supports **10 guests** served by **6 heads** , plus **3 crew cabins** providing **6 berths** to ensure professional service and privacy.

Q: Who built and designed the yacht? A: The yacht was built by Sunseeker with the **hull design by Sunseeker** and **interior design by Sunseeker NJ** , producing a unified aesthetic and practical layout.

Q: What is the hull and deck construction? A: This motor yacht features a fiberglass and plastic hull in a **monohull** configuration with a **GRP** deck for lasting durability and favorable weight characteristics.

Q: How can I purchase this model through a broker? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** to schedule **viewings** , examine **documentation** , and coordinate **offer and closing** steps for the 34 m Yacht.

Owner Experience Review

Owners choose the 34 m Yacht from Sunseeker for its adaptability: many yachts are used for private long range cruising—either owner operated or with a full crew—and the model is frequently employed as a reliable charter platform. It excels for weekend gatherings thanks to a capacious flybridge equipped with a bar, sunpads and a jacuzzi, while the tender garage and generous toy storage expand family and charter possibilities. A number of owners retain these yachts for many years, which speaks to the platform's capability and resale strength.

On passage, owners report typical cruising in the 20–22 knot range and peak speeds in the mid 20s, subject to engine choice and load. A large share of examples are fitted with fin stabilizers, and both owners and brokers often highlight the noticeably reduced roll underway and at anchor. Interior layouts commonly range from 4 to 5 cabins accommodating up to around 10 guests, complemented by a roomy main saloon and formal dining area; aft crew quarters allow for either owner/operator use or a full crew arrangement. Interior finishes vary significantly by original owner specification, a factor that can divide opinions.

Ownership requires commitment and budget: the high output MTU powerplants and sophisticated onboard systems mean routine, sometimes intensive maintenance, and scheduled refits are common—electronics, AV systems and deck/teak work are items frequently refreshed. Operating expenses and fuel consumption are considerable for a yacht in this size and power bracket. Feedback from forums also notes that distributor and dealer support can be inconsistent in some regions, so prospective buyers should assess local after sales service early in the purchase process.

Pros and Cons

- Versatile for private cruising, weekend entertaining and proven charter operations.
- Real world 20–22 knot cruise with mid 20s top speed, and many boats have fin stabilizers to cut roll.
- Flexible layouts, a large flybridge with bar and jacuzzi, and a tender garage support varied guest programs.
- High operating costs and notable fuel burn are inherent to the twin high power diesel setup.
- Complex systems and MTU V series engines require regular heavy maintenance and periodic refits.

- Interior style is owner specified and may not align with every buyer's taste.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
