OVERVIEW

The L5 CLZ DH from SYLVAN pairs the welcoming, social arrangement of a pontoon layout with the ease of single engine ownership on an aluminum construction platform. Marketed through Shestakov Yacht Sales with broker Andrey Shestakov, it's positioned as a no nonsense option for relaxed outings and family days on the water.

Selecting a L5 CLZ DH

When you want uncomplicated day boating with expansive deck room and minimal maintenance, the L5 CLZ DH is worth considering. As a motor yacht built around a stable pontoon layout, it is tailored to gentle cruising, casual entertaining, and family use. Its aluminum construction hull and outboard propulsion make ownership straightforward across a wide variety of waterways.

Features of the Model

• Purposeful dimensions: With a 26 ft (7.92 m) LOA and an 8 ft (2.59 m) beam, the design creates generous open deck space for socializing.
• Power simplicity: A single **MERCURY** outboard running on Unleaded fuel keeps systems simple and maintenance straightforward.
• Durable build: Classified as an aluminum hull with an Aluminum deck, the construction emphasizes longevity and low maintenance.
• Fuel capacity: A 60 gallon tank supports longer, easygoing days afloat.
Shestakov Yacht Sales, represented by broker Andrey Shestakov, stands ready to assist with selection, inspection, and acquisition of the L5 CLZ DH by SYLVAN.

Technical Specifications

• Beam: 8 ft (2.59 m)
• Engines: 1 × **MERCURY** ; type: **Outboard** ; fuel: **Unleaded**
• Fuel capacity: 60 gal

Pricing and Ordering

To obtain up to date pricing, check availability, or discuss which specification suits your boating needs, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will arrange showings, advise through inspections, and support you throughout the purchase process for the L5 CLZ DH by SYLVAN.

Questions and Answers

Q1: What is the boat's classification? A1: The L5 CLZ DH is listed as a motor yacht configured with a pontoon layout built on an aluminum construction platform. Its **type** and **layout** are aimed at relaxed, sociable cruising.

Q2: What powers the boat? A2: Propulsion comes from a single **MERCURY Outboard** designed to run on **Unleaded** fuel, offering simple performance and easy upkeep.

Q3: What are the key dimensions? A3: The boat's **dimensions** measure 26 ft (7.92 m) LOA with an 8 ft (2.59 m) beam, providing the generous deck footprint typical of a pontoon format.

Q4: How much fuel does it carry? A4: The L5 CLZ DH has a **fuel capacity** of 60 gallons, suitable for relaxed day cruising when paired with an efficient single outboard.

Q5: How do I buy through your brokerage? A5: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** to begin. We'll assist in evaluating the L5 CLZ DH by SYLVAN, set up viewings, and handle the transaction from offer through closing.

Owner Experience Review

Owners tend to choose the L5 CLZ DH from SYLVAN for family-oriented cruising, day trips, and casual entertaining. The dual helm setup and several lounge areas create a convivial deck that suits long days aboard, and many advertisements note the availability of an optional wet bar or small galley.

Factory extras such as woven Sea Weave flooring, in floor or console storage, a power canopy, and mood lighting are frequently selected to elevate onboard comfort. One owner summed up their feelings plainly: "We like our Sylvan a lot. It is our second one."

Feedback from the water frequently highlights a steady, comfortable ride under way and when anchored, aided by what owners refer to as the broad 8.5' beam. Fitting the SPX PR25 third tube package and SeaStar hydraulic steering is reported to enhance planing, stability, and handling at higher horsepower. Several buyers choose larger outboards for improved performance and watersports capability; an owner notes achieving "45–48" mph from a 25' L5 when equipped with a 250 V8.

Routine maintenance notes mirror typical pontoon care: attention to upholstery and bimini condition, periodic checks of hardware like trim and cleats, and regular outboard servicing per the engine manufacturer. Listings

commonly show Mercury and Yamaha powerplants. According to SYLVAN guidance, hydraulic steering is required for installations above 150 hp. While older forum threads include some dealer or fit and finish gripes, the sampled discussions don’t indicate a pervasive, model specific defect; a pre purchase survey and warranty review with the dealer are still prudent.

Pros and Cons

• Stable ride and comfortable at rest behavior attributed to the broad 8.5' beam.
• Versatile, social deck layout featuring dual helm and lounge seating, with options such as a wet bar for entertaining.
• Strong performance potential when equipped with the SPX PR25 third tube and higher hp outboards; one owner reports 45–48 mph with a 250 V8 on a 25' L5.
• Top end handling and high speed manners rely on the PR25 package and hydraulic steering, which should be considered in the budget.
• Hydraulic steering is mandatory on 150+ hp builds, increasing cost and maintenance for higher power configurations.
• Some older forum threads reference dealer or fit and finish issues, so a detailed inspection and confirmation of warranty coverage are recommended.
