OVERVIEW

Experience the poise and capability of the 82 Motoryacht—an ocean going platform that blends generous volume with confident performance. Represented by Andrey Shestakov and Shestakov Yacht Sales, this yacht from TARRAB stands out as a refined motor yacht with a robust fiberglass construction pedigree.

Selecting a 82 Motoryacht

Choosing the 82 Motoryacht means opting for range, space, and balanced speed. With a 24.99 m LOA and a beam of 6.55 m, she offers exceptional interior volume for extended cruising. Twin Caterpillar diesel inboards provide a practical 12 knot cruise and up to 24 knots at the top end—ideal for both efficient passages and timely arrivals. Consult Andrey Shestakov at Shestakov Yacht Sales to align build details and market availability with your plans.

Features of the Model

• Layout designed for comfort: accommodation for 8 guests, 5 heads, plus 2 crew berths to support private operations
• Hull and deck integrity: fiberglass hull with a fiberglass deck for durability and ease of maintenance
• Practical propulsion: twin Caterpillar diesel inboards for reliable power delivery
• Capable cruising envelope: 12 kn cruise, 24 kn max, supported by substantial fuel capacity for longer legs
• Generous beam for stability and space optimization underway and at anchor

Technical Specifications

- Builder: TARRAB
- Model: 82 Motoryacht
- Type: motor yacht
- Hull: fiberglass construction
- LOA: 82 ft (24.99 m)
- Beam: 21 ft (6.55 m)
- Max Draft: 19.685 ft (6 m)
- Gross Tonnage: 97 GT
- Engines: 2 x Caterpillar, Inboard, Diesel
- Cruise Speed: 12 kn (13.81 mph)
- Max Speed: 24 kn (27.62 mph)
- Accommodation: 8 berths; Heads: 5; Crew beds: 2
- Fuel Capacity: 2,080 gal
- Fresh Water Capacity: 260 gal
- Deck Material: Fiberglass

Pricing and Ordering

For current pricing, availability, and tailored acquisition strategies for the 82 Motoryacht, speak with Andrey Shestakov at Shestakov Yacht Sales. Our team will advise on survey, logistics, and closing timelines to match your operational calendar, and coordinate viewings of comparable motor yacht listings with fiberglass construction hulls.

Questions and Answers

Q: What cruising profile does the 82 Motoryacht suit best? A: With a 12 knot **cruise speed** and efficient Caterpillar diesels, it’s ideal for multi day passages

where comfort and fuel planning matter, while retaining 24 kno**top end** flexibility.

Q: How many guests can the yacht accommodate? A: There are **8 guest berths** supported by **5 heads** , plus **2 crew beds** for professional or hybrid owner operator use.

Q: What is the hull and deck construction? A: The yacht features a fiberglass hull and a **fiberglass deck** , balancing durability with ease of upkeep.

Q: What are the fuel and water capacities? A: Expect **2,080 gallons** of fuel capacity and **260 gallons** of fresh water, supporting longer itineraries with prudent provisioning.

Q: Who can assist with purchase and logistics? A: Andrey Shestakov and the team at **Shestakov Yacht Sales** provide end to en**brokerage services** , including inspections, negotiation, and delivery coordination for the 82 Motoryacht.

Owner Experience Review

Owners of the 82 Motoryacht by TARRAB typically use the boat for extended family cruising, citing four ensuite staterooms with a midships master and a large salon as the backbone of liveaboard comfort. Day-to-day life revolves around the covered aft deck and expansive flybridge, which are repeatedly described as primary entertaining areas with good visibility from the upper helm. The interior is presented with traditional wood and marble finishes, and practical touches like a main-deck day head and a spacious galley support longer itineraries.

Underway, examples fitted with Naiad fin stabilizers are reported to run steadily in head or semi-beating seas, favoring a cruise-speed comfort profile over sportiness. Documented boats commonly cruise in the low teens and

some listings report top speeds in the mid-20-knot range, while the overall feel is heavy and seakindly with conventional hydraulic steering and Hynautic engine controls. The layout supports owner-operation or a small crew thanks to an aft crew cabin with head and swim-platform access, though servicing the twin Caterpillar 3412 DITAs and related hydraulics requires planning and experienced technicians.

Pros and Cons

• Pro: Four ensuite staterooms including a midships master provide strong family-cruising accommodations.
• Pro: Covered aft deck and large flybridge are well-suited for weekend leisure and guest entertaining.
• Pro: Heavy-displacement build, large fuel capacity around 2,080 gallons, and 3412 powerplants support serious cruising.
• Con: Routine overhauls on Caterpillar 3412s are substantial in cost and complexity for this vintage.
• Con: Naiad stabilizer hydraulics and fin systems require periodic service and potential rebuilds.
• Con: Aging hydraulic steering/controls and thruster components can demand recurring maintenance attention.
