OVERVIEW

Blending Italian performance DNA with avant garde styling, the TECNOMAR LMB63 is a high performance motor yacht engineered on a fiberglass and plastic platform. The hull architecture comes from The Italian Sea Group while the interior concept is by Centro Stile Lamborghini, producing extraordinary performance: a peak of 63 kn (72.5 mph) and an efficient cruise near 40 kn (46.03 mph), with sleeping arrangements for four guests.

Selecting a LMB63

For buyers who prioritize exhilarating speed, modern Italian aesthetics, and a layout tuned for weekend escapes, the LMB63 belongs on your consideration list. Measuring 65 ft LOA with a 17 ft beam and a modest 1.3 m draft, this fast motor yacht strikes a balance between nimble handling and onboard comfort. Shestakov Yacht Sales — led by broker Andrey Shestakov — can assist with customization choices, condition inspections, and comparisons to help you find the ideal open style motor yacht for your cruising profile.

Features of the Model

- Speed and control: a 63 knot maximum and a 40 knot cruise capability enable quick hops aboard a lightweight composite hull.
- Italian pedigree: hull penned by The Italian Sea Group, interior curated by Centro Stile Lamborghini.
- Powertrain confidence: twin MAN engines deliver reliable, efficient diesel propulsion.
- Smart footprint: 65 ft LOA, 17 ft beam, and a shallow draft provide flexible marina and anchorage access.
- Onboard living: sleeping for 4; GRP deck surfaces engineered for longevity

and reduced upkeep.

Technical Specifications

- Builder: TECNOMAR
- Model: LMB63
- Type: performance motor yacht; high speed motor yacht
- Hull category/material: fiberglass and plastic; deck: GRP
- LOA: 65 ft (19.98 m)
- Beam: 17 ft (5.42 m)
- Max draft: 4.265 ft (1.3 m)
- Gross tonnage: 24 GT
- Engines: 2 × MAN; fuel: Diesel
- Speed: cruise 40 kn (46.03 mph); max 63 kn (72.5 mph)
- Accommodations: 4
- Fuel capacity: 1003.85 gal
- Fresh water capacity: 158.5 gal
- Hull designer: The Italian Sea Group
- Interior designer: Centro Stile Lamborghini

Pricing and Ordering

To obtain up to date pricing, availability, or to schedule a private inspection of the LMB63, contact Shestakov Yacht Sales. Broker Andrey Shestakov will deliver market analysis, advise on factory options, and handle the transaction process to align with your goals.

Questions and Answers

Q: What defines the performance of the LMB63? A: Its twin MAN **diesel**

powerplants combined with a lightweight composite construction and refined Italian naval engineering produce a top speed of **63 knots** and a brisk **40 knot** cruise.

Q: Who designed the hull and interior? A: The hull originates from **The Italian Sea Group**, while the interior styling is the work of **Centro Stile Lamborghini**, giving this luxury motor yacht a strongly Italian design signature.

Q: How many people can stay aboard comfortably? A: The LMB63 accommodates **4** guests, making it well suited to high speed weekend escapes on a modern motor yacht.

Q: What are the key dimensions and draft? A: LOA **65 ft (19.98 m)**, beam **17 ft (5.42 m)**, and a shallow **1.3 m** maximum draft, which improves access to marinas and sheltered anchorages for this swift planing yacht.

Q: How do I inspect and purchase through a broker? A: Contact Shestakov Yacht Sales. **Andrey Shestakov** will coordinate viewings, produce condition reports, and oversee offers and negotiations for your selected fiberglass performance yacht.

Owner Experience Review

Owners of the LMB63 from TECNOMAR most often deploy the boat for high speed day runs, weekend show appearances, and short family cruises with the option to overnight. Some owners also use it sporadically for private charters or special events, though the interior layout and overall ergonomics clearly favor performance oriented day use rather than extended blue water passagemaking.

On the water, owners and reviewers repeatedly compare the experience to piloting a “supercar on water”: extremely responsive handling that rewards precise inputs but can feel demanding at speed. Reported figures frequently

reference roughly 4,000 hp and a top end near 63 knots; forum commentary highlights strong throttle sensitivity and pronounced wake behavior in traffic, and conversations around a Miami capsize tend to point toward operator choices rather than fundamental design flaws.

Inside, the fit and out is compact and focused on luxury touches—an owner cabin, guest berths, and signature Lamborghini detailing—while the galley and social areas are arranged for entertaining and spirited driving rather than long-term liveaboard comfort. Owners note that maintenance is a premium concern: the twin V12s and bespoke carbon fiber elements require specialist technicians, more labor for tight technical access, and rising insurance and repair costs in the event of damage.

Pros and Cons

- Thrilling performance, with owners commonly citing roughly 4,000 hp and around 63 knots.
- Razor sharp, "supercar on water" handling that rewards experienced helms.
- High-end finishes with branded details and sufficient accommodation for short overnights.
- Limited interior volume and ergonomics favor day use over extended liveaboard cruising.
- Operational sensitivity at speed demands skilled crew and prudent conditions, as forums highlight.
- High running and service costs due to twin V12s, carbon fiber structure, and tight technical access.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
