OVERVIEW

The C49 Coupe from Tiara combines modern onboard comforts with intelligent performance in a polished motor yacht tailored for discerning cruising owners. Built on a substantial fiberglass and plastic hull, it delivers a balanced mix of speed, capacity, and liveaboard amenities for extended passages. Worldwide representation is handled by Andrey Shestakov and Shestakov Yacht Sales, who can assist with matching this model to your cruising ambitions.

Selecting a C49 Coupe

Opting for the C49 Coupe gives you a versatile yacht platform that marries practical exterior proportions with confident propulsion and comfortable interior spaces. Measuring 50 ft (15.32 m) LOA with a 15 ft (4.67 m) beam, this model offers roomy volume for a motor yacht in the cruiser class. Its hull is constructed from resilient fiberglass and plastic and is engineered to work efficiently with diesel power while remaining straightforward to handle. For sales, customization, and match-to-mission advice, contact Andrey Shestakov at Shestakov Yacht Sales.

Features of the Model

- Performance balance: cruise at 21 kn (24.17 mph) and reach up to 28 kn (32.22 mph)
- Power package: 2 x Volvo outboard diesel engines for efficient, reliable propulsion
- Livability: accommodations for 4 and 2 heads for comfortable overnights
- Capacities tuned for trips: 500 gal fuel and 135 gal fresh water
- Construction: fiberglass and plastic hull with a fiberglass deck
- Dimensions that deliver space: 50 ft LOA and 15 ft beam

Technical Specifications

- Builder: Tiara
- Model: C49 Coupe
- Type: motor yacht / cruiser
- Hull: fiberglass and plastic; Deck: Fiberglass
- LOA: 50 ft (15.32 m)
- Beam: 15 ft (4.67 m)
- Max Draft: 164.042 ft (50 m)
- Engines: 2 x Volvo, Outboard, Diesel
- Speed (Cruise/Max): 21 kn (24.17 mph) / 28 kn (32.22 mph)
- Accommodation: 4
- Heads: 2
- Fuel Capacity: 500 gal
- Water Capacity: 135 gal

Pricing and Ordering

For up-to-date pricing, current availability, and to reserve a build or purchase slot for the C49 Coupe, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our specialists will walk you through specification choices, optional equipment, production timelines, and delivery logistics tailored to how you plan to use the yacht.

Questions and Answers

- What powers the C49 Coupe? The vessel is driven by 2 x Volvo outboard engines that run on **diesel** ; this **engine configuration** is chosen for fuel efficiency and simpler maintenance routines.
- What are the **cruising** and **top speeds** ? Typical operation sees the C49

Coupe cruising at **21 knots (24.17 mph)** with a maximum recorded speed of **28 knots (32.22 mph)** under normal conditions.

- How is the hull constructed, and what is the deck made of? The hull features a fiberglass and plastic structure, while the **deck material** is fiberglass.
- How many people can sleep aboard, and how many **heads** are there? The interior layout provides **accommodations for 4** guests and includes **2 heads** , suitable for couples, small families, or close friends cruising together.
- Who can help me purchase and configure this motor yacht in the cruiser segment? Andrey Shestakov and the team at Shestakov Yacht Sales will manage the **ordering process** , coordinate paperwork, and oversee delivery of your C49 Coupe by Tiara.

Owner Experience Review

Owners and industry reviewers generally describe the C49 Coupe by Tiara as a versatile family cruiser, apt for short weekend trips as well as extended coastal passages. The design emphasizes entertaining, with flow between cockpit and salon that creates comfortable social zones, while owner-operators appreciate joystick/IPS systems that make tight-marina maneuvering much more manageable. Fuel and water tanks are sized generously for a yacht of this class, allowing for longer times afloat.

On trials, the yacht is frequently noted for a flat, substantial feel underway that stays composed in wind and chop, avoiding the sharp impacts some boats exhibit. Published performance shows an economical cruise near 20–21 knots (roughly 1,700–1,800 rpm), and one sea trial reported an approximate 430 nautical mile range at about 20 knots. Several owners have said that adding a Seakeeper brings a clear improvement in comfort when beam seas are present; forum discussions also include practical maintenance realities, such as replacing leaking cylinders, with one owner deeming the Seakeeper investment a “no brainer” even at an approximate \$40k cost.

The interior layout that gets frequent praise includes a primary forward cabin plus guest cabins in a three-cabin arrangement, a spacious galley adjacent to a port lounge, and a convertible lower lounge/atrium berth that adds flexibility and storage. Listings often point out owner-selected extras like a washer/dryer, icemaker, cockpit TV, and an engine-room camera. Routine service access is commonly via a large cockpit-sole hatch, and owners emphasize good lighting and camera systems for easier checks. The owner community advises budgeting for periodic IPS pod maintenance, ongoing Seakeeper servicing, and occasional dealer or technician support for electronics and joystick systems.

Pros and Cons

- Flat, solid ride in wind and chop with a stable, flat-running offshore feel.
- Real-world cruise around 20–21 knots with documented fuel-burn and a quoted ~430 nm range at ~20 knots.
- Three cabins plus a convertible lower lounge, good sightlines, and ample storage suit family cruising and entertaining.
- Seakeeper improves comfort in beam seas but owners report maintenance like cylinder replacements and notable cost/noise.
- Volvo Penta IPS pods require annual service, and occasional seal/drive failures can be expensive.
- Reliance on joystick and onboard electronics means budgeting for periodic dealer/tech support.
