OVERVIEW

The F44 Flybridge from Tiara pairs expansive open air entertaining with simplified owner operation in a thoughtfully designed package. Classified as a motor yacht in the motor yachts category, it rides on a fiberglass and plastic hull topped with a fiberglass deck for confidence in handling and straightforward upkeep. Shestakov Yacht Sales offers personalized assistance for specifications, procurement, and acquisition through broker Andrey Shestakov.

Selecting a F44 Flybridge

Selecting the F44 Flybridge focuses on gaining maximum usable space, superior sightlines, and ease of ownership within a compact overall length. As a Tiara design, it delivers an elevated flybridge combined with practical dimensions and twin propulsion for nimble control.

- Twin Volvo engines for balanced performance and maneuverability
- Flybridge layout for elevated views and socializing
- Broad 21 ft (6.48 m) beam for stability and comfort

Features of the Model

The F44 Flybridge is designed to prioritize alfresco living and simple ownership. The raised flybridge broadens sightlines and gathering space, while the generous beam improves onboard comfort and motion. Twin Volvo powerplants assist with precise docking and harbor handling. Construction marries a fiberglass and plastic hull with a fiberglass deck to help keep long term maintenance predictable.

Technical Specifications

- Builder: Tiara
- Model: F44 Flybridge
- Category: motor yachts
- Subcategory: motor yacht
- Hull: fiberglass and plastic
- Deck: Fiberglass
- LOA: 45 ft (13.84 m)
- Beam: 21 ft (6.48 m)
- Engines: 2 x Volvo

Pricing and Ordering

For up to date pricing, availability, and options for building or purchasing the F44 Flybridge, contact Andrey Shestakov at Shestakov Yacht Sales. Our brokerage will coordinate inspections, review specifications, and manage delivery logistics to suit your cruising plans.

Questions and Answers

Q: What defines the F44 Flybridge within the market? A: It's a motor yacht in the broader motor yachts group that combines an elevated **flybridge** with a wide **21 ft beam** to deliver spaciousness and stability.

Q: Who builds the model and what is the construction approach? A: The F44 Flybridge is produced by Tiara, employing a fiberglass and plastic hull and fiberglass deck to emphasize durable **materials** and consistent **build quality** .

Q: What are the key dimensions and power details? A: Principal specifications include **LOA 45 ft (13.84 m)** , **beam 21 ft (6.48 m)** , and twin **2 x Volvo** engines

providing reliable twin screw propulsion.

Q: How can Shestakov Yacht Sales support my purchase? A: We offer professional **consultation**, arrange for **surveys** and **sea trials**, coordinate **logistics**, and guide you through closing the sale with broker Andrey Shestakov for a seamless transaction.

Q: How do I discuss pricing and availability? A: Contact Andrey Shestakov at Shestakov Yacht Sales to explore availability and pricing for this motor yacht within our motor yachts inventory and to plan next steps.

Owner Experience Review

Owners and brokers frequently describe the F44 Flybridge by Tiara as an excellent family weekender and capable coastal cruiser. The two stateroom, two head arrangement supports overnight stays comfortably, while the salon's expansive windows create an open, light interior complemented by fine joinery and contemporary finishes. Several owners praise the aft galley layout and easy flow through the salon, and the flybridge is often cited as the primary social space—seating for roughly 8–9, an upper helm, an L shaped lounge, and an aft dinette; many listings include a wet bar, refrigerator, and even flybridge HVAC as options.

On the water, owner feedback highlights that the boat “handles EXCELLENT in close quarters,” and the IPS joystick is particularly appealing to owner operators. Published sea trial numbers for IPS equipped examples typically show cruising speeds in the 28–29 mph range, with the F44 Flybridge frequently recording about 28.2 mph at cruise compared to the coupe's approximately 29.3 mph, and a top speed in the low to mid 30s mph. For improved comfort at anchor, many boats are sold or optioned with a Seakeeper (commonly the SK6), which both owners and brokers recommend to reduce rolling.

Maintenance commentary tends to be pragmatic rather than effusive. Some prospective buyers express concern over engine room hatch dimensions, though many owners respond that “the 44 hatch access is ok for most work.” The majority of boats are fitted with Volvo Penta IPS pods and require routine IPS servicing; a smaller number were built with Cummins shaft drives, which has prompted some owner discussion about relative power. Forum threads also reference occasional bilge or mid bilge water and minor shaft/seal leaks, so regular inspection of raw water cooling systems, shaft seals, and bilge plumbing is advisable.

Pros and Cons

- Excellent close-quarters handling with IPS joystick makes docking and tight marinas low-stress.
- Open, airy salon and a two-stateroom, two-head layout suit family cruising and weekends.
- Spacious flybridge with seating for 8–9, plus commonly optioned wet bar/fridge/HVAC, is ideal for entertaining.
- Engine-room hatch access can feel tight in places, even if owners report it is acceptable for most work.
- IPS pods and optional Seakeeper add routine service and maintenance planning, including electrical/generator considerations.
- Some owners note bilge water and minor shaft/seal leak issues that require periodic vigilance.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
F44 Flybridge	45' 0" (13.84 m)	21' 0" (6.48 m)
