OVERVIEW

The TRITON 16507 from TRITON is a compact member of the motor-yacht class, combining a fiberglass-and-plastic hull with an Advanced Composites deck and a lone Electric propulsion unit. Listed by Shestakov Yacht Sales with broker Andrey Shestakov, this model is configured for quiet, low-footprint cruising in sheltered waters.

Selecting a TRITON 16507

If your priority is uncomplicated, electric-driven boating for leisurely runs, the TRITON 16507 delivers easy operation and compact proportions that simplify handling. Its overall length of 15 ft (4.55 m) and a 12 ft (3.66 m) beam deliver a reassuringly stable platform for short excursions and exploring marinas.

Planned for slow, relaxed travel, expect a typical cruising pace of 2.5 kn (2.88 mph) and a maximum of 3 kn (3.45 mph). Contact Andrey Shestakov and the Shestakov Yacht Sales team to assess whether this motor-yacht platform suits your intended cruising grounds and boating habits.

Features of the Model

- Compact size: 15 ft LOA with a broad 12 ft beam for stability
- Construction: fiberglass-and-plastic construction hull; deck in Advanced Composites
- Propulsion: 1 x Electric engine for quiet operation
- Performance: 2.5 kn cruise (2.88 mph) and 3 kn max (3.45 mph)

Technical Specifications

- Class: motor-yacht class
- Hull: fiberglass and plastic construction
- Deck material: Advanced Composites
- LOA: 15 ft (4.55 m)
- Beam: 12 ft (3.66 m)
- Engines: 1 x Electric
- Cruising speed: 2.5 kn (2.88 mph)
- Max speed: 3 kn (3.45 mph)

Pricing and Ordering

For up-to-date pricing, lead times, and availability of the TRITON 16507, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage will advise you through model selection, the purchasing process, and delivery arrangements for this motor-yacht from TRITON.

Questions and Answers

Q1: What are the key dimensions of the TRITON 16507? A1: The **Length overall (LOA)** is 15 ft (4.55 m) and the **beam** is 12 ft (3.66 m), making it a compact, stable entry in the motor-yacht class.

Q2: What powers this model? A2: It uses a **single engine** by **Electric** , providing quiet, low-maintenance propulsion engineered by TRITON.

Q3: What speeds can I expect? A3: The **cruising speed** is 2.5 kn (2.88 mph) and the **top speed** is 3 kn (3.45 mph), ideal for relaxed passages.

Q4: What are the hull and deck materials? A4: The **hull** is a fiberglass-and-plastic build, and the **deck** is crafted from Advanced

Composites.

Q5: How do I order through Shestakov Yacht Sales? A5: Reach out to **Andrey Shestakov** at Shestakov Yacht Sales for **pricing** and **availability** . We will coordinate your purchase of this motor-yacht model from TRITON.

Owner Experience Review

Publicly available owner commentary specific to the TRITON 16507 is sparse; the observations below are drawn from owner reports across similar TRITON bay and center-console designs. Owners typically use these boats for inshore and bay angling, family day trips on local waterways, and—when stepping up to larger center-console models—occasional offshore fishing excursions. Feedback generally praises handling and a reassuring sense of stability for the size class, while noting that ride comfort in heavier seas is largely dependent on hull dimensions and form.

Smaller variants are oriented toward day-boat comfort with limited cabin provisions, whereas larger center-console configurations provide a functional fishing cockpit and the option for very basic overnighting. Maintenance conversations among owners emphasize routine engine servicing and thorough pre-purchase checks; some older examples show wear to decks or soles, prompting buyers to obtain a full survey, engine diagnostics, oil analysis, compression testing, and a sea trial. Those with aluminum-hulled models also refer to patching and hull repairs, underscoring the importance of detailed condition inspections for any configuration.

Pros and Cons

• Generally good handling and stability reported by owners across comparable models.

• Versatile usage from inshore and bay fishing to family day trips, with larger center-consoles capable of offshore runs.
• Practical fishing workflow and cockpit layouts on larger center-console variants.
• No direct owner data specific to TRITON 16507, so expectations should be set by a survey and sea trial.
• Ride comfort in bigger seas varies notably by hull and size within the lineup.
• Some older boats show deck or floor issues, making close inspection important.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
2895 CC	29' 0" (8.84 m)	9' 0" (2.87 m)	6' 10" (2.08 m)	26 kn / 52 kn
