OVERVIEW

Crafted by TRUMPY, the Houseboat measures 72 ft (21.95 m) and sits within the motor yachts category as a distinguished motor yacht built with a wooden construction hull. Shestakov Yacht Sales represents this model globally; for inquiries and viewings, contact broker Andrey Shestakov.

Selecting a Houseboat

If your goal is a spacious and comfortable motor yacht within the broader motor yachts market, the Houseboat from TRUMPY provides a pleasing balance of volume and seakeeping. Rated for a 12 kn (13.81 mph) cruise and a 14 kn (16.11 mph) top end, it's ideal for leisurely coastal runs and extended time aboard in comfort.

Features of the Model

- Hull: wooden construction; Deck: Wood
- Power: Twin Cummins inboard diesel engines
- Performance: 12-kn cruising and 14-kn maximum speed (13.81 / 16.11 mph)
- Dimensions: 72 ft (21.95 m) LOA; 18 ft (5.49 m) beam
- Capacity: 1,500 gal fuel; 570 gal fresh water
- Amenities: 5 heads (bathrooms)
- Classification: motor yacht within motor yachts

Technical Specifications

- LOA: 72 ft (21.95 m)
- Beam: 18 ft (5.49 m)

- Engines: 2 × Cummins, Inboard, Diesel
- Cruising Speed: 12 kn (13.81 mph)
- Maximum Speed: 14 kn (16.11 mph)
- Hull: wooden construction
- Deck Material: Wood
- Heads: 5
- Fuel Capacity: 1,500 gal
- Water Capacity: 570 gal

Pricing and Ordering

To obtain current pricing, confirm availability, or schedule a private inspection of the Houseboat by TRUMPY, please reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage team will assist you through specification review, survey coordination, and the transactional steps required to acquire this motor yacht within the motor yachts segment.

Questions and Answers

- What is the category of the model and who is the builder? The Houseboat is listed as a motor yacht in the motor yachts class and is constructed by TRUMPY. **Category** and **builder** information are provided exclusively through Shestakov Yacht Sales.
- How fast does it cruise and what is the top speed? **Cruising speed** is 12 kn (13.81 mph) and **maximum speed** is 14 kn (16.11 mph).
- What engines power the yacht? It is fitted with **twin Cummins inboard diesel** engines for dependable propulsion.
- What are the key dimensions and capacities? **LOA** : 72 ft (21.95 m); **Beam** : 18 ft (5.49 m); **Fuel** : 1,500 gal; **Water** : 570 gal; **Heads** : 5.
- What is the hull and deck construction? The **hull** is wooden construction, and

the **deck** is Wood. For inspection arrangements or purchasing assistance, contact Andrey Shestakov at Shestakov Yacht Sales.

Owner Experience Review

Owners of classic TRUMPY Houseboat models frequently describe them as timeless coastal cruisers and comfortable live-aboard platforms. Documented owner logs show seasonal itineraries along the U.S. East Coast—from Maine down through the Bahamas—and many examples serve as weekend retreats or full-time residences. Several well-restored boats appear at maritime exhibitions, and a number are used for charters or formal cruise operations.

Underway, the Houseboat's displacement hull encourages steady, unhurried passages. Owners note that the yacht performs best at displacement speeds, with modest acceleration and cruise performance on original-era diesel installations; some vessels have been repowered with modern diesels to improve responsiveness. Handling in strong wind or following seas can be exacting, particularly during docking or maneuvering in tight channels, and benefits from cautious helmsmanship.

Life aboard is a standout quality of the TRUMPY Houseboat: traditional arrangements—saloon, galley up, owner and guest cabins, and sweeping teak decks—deliver a home-like atmosphere, with original joinery often cited as a highlight. Later-era layouts typically include multiple heads and large fuel and water tanks, supporting extended cruising or show/charter duties when systems are properly maintained or upgraded. The counterpoint is the maintenance load that comes with a wooden yacht: routine brightwork, occasional refastening and timber repairs, and for some owners major restorations that can exceed a half million dollars, with higher-end projects sometimes costing twice that to reach concours condition.

Pros and Cons

- Proven for coastal and inshore cruising on the U.S. East Coast, including runs from Maine to the Bahamas.
- Roomy, traditional liveboard-friendly layout with preserved joinery often praised by owners.
- Later specs show multiple heads and generous tankage supporting long stays and show/charter use.
- Displacement speeds and modest acceleration mean unhurried passages rather than fast cruising.
- Handling in wind and wake can be challenging, requiring care when docking or in confined waters.
- Wooden hull upkeep is intensive, and full restorations can exceed half a million dollars, with some spending double.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
Houseboat	72' 0" (21.95 m)	18' 0" (5.49 m)		12 kn / 14 kn
