OVERVIEW

Discover the 230 JP CC from TWIN VEE — a compact motor yacht built on a robust fiberglass and plastic hull, powered by twin Suzuki outboards and configured with sensible onboard capacities. Offered through Shestakov Yacht Sales with broker Andrey Shestakov, this 23-foot model focuses on straightforward capability and easy ownership.

Selecting a 230 JP CC

Opt for the 230 JP CC if you prioritize outboard propulsion, low-maintenance surfaces, and dayboat-oriented capacities. With a 23 ft LOA and an 8 ft beam, the layout and size remain easy to handle, while the twin Suzuki outboards running on **Gas/Petrol** deliver the redundancy and flexibility many operators want. As a compact motor yacht, it provides practical powerboating without the space demands of larger yachts.

Features of the Model

- Built by TWIN VEE
- Twin Suzuki outboards (Gas/Petrol)
- fiberglass and plastic hull with a fiberglass deck
- Balanced dimensions: 23 ft LOA (7.01 m) and 8 ft beam (2.64 m)
- Sensible capacities for day boating: 90 gal fuel and 5 gal water

Technical Specifications

- LOA: 23 ft (7.01 m)
- Beam: 8 ft (2.64 m)

- Engines: 2 x Suzuki
- Engine type: Outboard
- Fuel type: Gas/Petrol
- Fuel capacity: 90 gal
- Water capacity: 5 gal
- Hull: fiberglass and plastic
- Deck: Fiberglass
- Category: motor yacht

Questions and Answers

Q: What are the overall dimensions of the 230 JP CC? A: The **LOA** measures 23 ft (7.01 m) and the **beam** is 8 ft (2.64 m).

Q: What engines power this model? A: It is equipped with **2 x Suzuki outboards** fueled by **Gas/Petrol** .

Q: What are the onboard capacities? A: **Fuel capacity** is 90 gal and **water capacity** is 5 gal.

Q: What is the hull and deck construction, and how is it categorized? A: The **hull** uses fiberglass and plastic construction and the **deck** is fiberglass; the vessel is listed as a motor yacht.

Q: How do I order through Shestakov Yacht Sales? A: **Contact** Andrey

Shestakov at Shestakov Yacht Sales to begin an inquiry and proceed with the next steps for the 230 JP CC from TWIN VEE.

Owner Experience Review

Owners and reviewers typically describe the 230 JP CC by TWIN VEE as a trailerable, 23-foot center-console tailored for family day cruises and inshore to nearshore sportfishing. The boat features an open plan with a T-top, a leaning post, in-deck storage lockers, and a livewell—configurations aimed at daytime use rather than overnight accommodations. Broker listings often note owner-upgrade touches such as a Garmin 12" MFD, Fusion stereo, LED lighting, refreshed cushions, and optional additions like a trolling motor, while deck layout is praised for angler-friendly ergonomics, abundant storage, and family-friendly seating.

On the water, the catamaran hull earns consistent praise for delivering a stable, composed ride in light chop with a notably low impact, predictable feel. A Suzuki Marine performance note dated 10/23/2018 recorded a top speed of 40.2 mph, with the most economical cruise speeds reported near 3500 rpm. Real-world performance depends heavily on the chosen engine package—single 115 test figures will differ from broker listings rigged with twin 150s—so expectations for cruise and top-end speeds should match the actual installation.

Ownership follows the standard pattern for outboard-powered dayboats. Pre-owned examples frequently show several hundred engine hours—one 2020 listing cited about 435 hours—so verifying maintenance records is advisable. Older owner-forum discussions reference issues such as fine gelcoat crazing, occasional water-intrusion reports, and disputes over warranty resolution; TWIN VEE provides published hull and parts warranty terms, but prospective buyers should confirm the exact scope and whether coverage

transfers to a new owner.

Pros and Cons

- Stable, smooth catamaran ride in light chop that many owners and reviewers report.
- Angler-friendly center-console layout with livewell, in-deck storage, and usable family seating for day trips.
- Documented efficiency around 3500 rpm in testing with a recorded 40.2 mph top speed.
- Performance varies significantly by engine installation, from single-115 test setups to twin-150 listings.
- Open dayboat configuration with no enclosed cabin limits overnight capability.
- Historic reports note gelcoat hairline cracking, some water intrusion, and warranty disputes, so coverage should be verified.
