OVERVIEW

Meet the 45 T Top from VANQUISH YACHTS—an elegant motor yacht in the cruiser segment built atop a robust aluminum platform. Its well-proportioned hull, brisk performance, and economical diesel propulsion appeal to owners seeking spirited handling and minimal upkeep, backed by the expertise of Shestakov Yacht Sales.

Selecting a 45 T Top

When your priority is a compact performance yacht that combines speed with fuel efficiency, the 45 T Top is a compelling option. It cruises comfortably at 32 knots (36.83 mph) and can push to a 40-knot (46.03 mph) maximum for fast passages and tight schedules. Twin Volvo inboard diesels deliver dependable thrust, while a 45 ft LOA and 13 ft beam produce a stable, confidence-inspiring platform. For personalized advice about configurations, availability, and how this model fits your cruising plans, contact Andrey Shestakov and the team at Shestakov Yacht Sales.

Features of the Model

- Construction advantage: a rigid, lightweight aluminum hull and aluminum deck combine to deliver longevity and straightforward maintenance.
- Power and efficiency: twin Volvo inboard diesel engines supply steady, efficient propulsion and good range between refuels.
- Pace with composure: a 32-knot cruise and 40-knot top speed provide spirited performance for quick runs.
- Well-proportioned platform: a 45 ft LOA and 13 ft beam yield a stable and roomy deck footprint.
- Practical capacities: 211 gallons of fuel and 53 gallons of fresh water support

extended day trips and weekend runs.

Technical Specifications

- Builder: VANQUISH YACHTS
- Model: 45 T Top
- Class: motor yacht / cruiser
- Hull material: aluminum hull
- Deck material: Aluminum
- LOA: 45 ft (13.72 m)
- Beam: 13 ft (4.12 m)
- Cruising speed: 32 kn (36.83 mph)
- Maximum speed: 40 kn (46.03 mph)
- Engines: 2 x Volvo, Inboard, Diesel
- Fuel capacity: 211 gal
- Fresh water capacity: 53 gal

Questions and Answers

Q: What type of yacht is the 45 T Top? A: It's a **motor yacht** intended for the **cruiser segment**, constructed on a **aluminum hull** to maximize strength and efficiency.

Q: What are the speeds of the 45 T Top? A: **Cruising speed** is 32 kn (36.83 mph) and **maximum speed** is 40 kn (46.03 mph), allowing for rapid transfers when required.

Q: What engines power the 45 T Top? A: It's propelled by **two Volvo inboard diesel** engines, offering dependable torque and fuel economy.

Q: What are the dimensions of the 45 T Top? A: **Dimensions** are LOA 45 ft (13.72 m) with a **beam** of 13 ft (4.12 m), providing a stable on-deck arrangement.

Q: How can I purchase through Shestakov Yacht Sales? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** for **pricing**, **availability**, and the steps to secure a 45 T Top by VANQUISH YACHTS.

Owner Experience Review

Owners most often deploy the 45 T Top by VANQUISH YACHTS as a high-performance dayboat for island-hopping and social cruising, and it's frequently chosen for day-charter operations. Many owners also use it as a tender or chase boat alongside larger yachts for cruising in South Florida and the Bahamas. The compact below-deck arrangement—one cabin and one head—works well for weekend overnights but is less suited to full-time liveaboard usage. Owners often note that the below decks offer ample headroom, particularly in the galley and shower areas.

On the water, the vessel is commonly described as having sports car dynamics, with extremely responsive steering and a nimbleness that distinguishes it from other 45 footers. Boats fitted with Volvo Penta IPS systems are typically recorded by owners and brokers running a 30–32 knot cruise and hitting roughly 39–42 knots at top end during sea trials, which reviewers say deliver an exhilarating and notably dry ride even when meeting

wakes. Seakeeper stabilization is available on some builds and enhances comfort at anchor—though at least one owner reports minimal use while underway; similarly, Zipwake trim systems are credited with helping the bow settle sooner and reducing the speed required to plane. Customization is a strong suit for this model: the builder has produced bespoke hardtop editions as well as radical quad outboard Veloce conversions—one owner summed up those conversions with, “This boat will fly.”

Maintenance commentary is pragmatic: routine servicing of IPS pods is expected, and several brokerage listings document heavier maintenance events such as full drive removal for inspection and service. Access for upkeep is improved by an electric engine room hatch and a large removable storage bin highlighted in sales literature. Typical service notes on boats for sale include prop balancing and tuning, generator-hour logging, and scheduled battery replacement; some more recent examples carry transferable extended engine warranties that can be attractive to subsequent owners.

Pros and Cons

- Sports car like handling and very responsive steering make the boat highly engaging to pilot.
- The day boat layout is ideal for entertaining, featuring ample cockpit seating and sunpad-style lounging.
- Strong customization potential and varied roles, from charter work to chase boat duty, including custom hardtops and high performance Veloce outboard conversions.
- The compact interior with a single cabin and one head is geared toward weekend stays rather than long term liveaboard use.
- IPS pod drives require regular maintenance and can involve significant service events, such as complete drive removal and inspection noted in listings.

- The most extreme speed figures are associated with bespoke outboard conversions rather than the standard IPS-equipped configuration.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
45 T Top	45' 0" (13.72 m)	13' 0" (4.12 m)		32 kn / 40 kn
