OVERVIEW

The 23 Cape Fisher from YAMAHA offers a practical, no-nonsense option within the center-console market. As a compact center console motor yacht, it combines a manageable 23 ft (7.01 m) hull with a single outboard propulsion arrangement for straightforward ownership. Shestakov Yacht Sales is available to assist with selection, showing, and purchase guidance.

Selecting a 23 Cape Fisher

Opting for the 23 Cape Fisher is a good choice if you want a simple, effective center-console platform. The single Yamaha outboard and gasoline powertrain keep routine maintenance and operation uncomplicated, while the 23 ft (7.01 m) length delivers easy handling for day outings and casual fishing. Work with Andrey Shestakov and the professionals at Shestakov Yacht Sales to determine if this model fits your boating objectives.

Features of the Model

- Center-console layout typical of center console vessels
- Single Yamaha outboard configuration for straightforward use and servicing
- Compact motor yacht silhouette at 23 ft (7.01 m) ideal for flexible day-boat duties

Technical Specifications

- Model: 23 Cape Fisher
- Builder: YAMAHA
- Classification: motor yacht; center console

- LOA: 23 ft (7.01 m)
- Engines: 1 x Yamaha Outboard
- Fuel: Gas

Pricing and Ordering

For up-to-date availability, pricing specifics, or to schedule an inspection of the 23 Cape Fisher, reach out to Andrey Shestakov at Shestakov Yacht Sales. Our brokerage services span the entire transaction process—from the initial consultation and offer through contract negotiation and closing—to help you proceed confidently.

Questions and Answers

Q: What type of yacht is the 23 Cape Fisher? A: It is designated as a center console motor yacht. This **category** emphasizes an open working deck and uncomplicated handling characteristics.

Q: What is the size of the boat? A: The **LOA** measures 23 ft (7.01 m), providing a compact footprint that's straightforward to manage for daytime use.

Q: What propulsion does it use? A: It is powered by a **single** Yamaha **outboard** running on **Gas**, reflecting the model's emphasis on simplicity and dependability.

Q: Who builds the boat? A: The **builder** is YAMAHA, the manufacturer behind the 23 Cape Fisher.

Q: How can I purchase or list one with Shestakov Yacht Sales? A: Contact **Andrey Shestakov** and the team at **Shestakov Yacht Sales** for information on **pricing**, **availability**, and the next steps to arrange viewings and complete a purchase.

Owner Experience Review

Owners, charter operators, and reviewers frequently describe the 23 Cape Fisher as a task-oriented inshore/nearshore workboat. It is commonly used by guides and in charters, performs well for fly-fishing and Mid-Atlantic operations, and serves as a trailerable dayboat for estuary and shallow-water excursions; owners commonly report good trailering behavior. While some owners add a forward casting platform or extra seating for family outings, the standard deck plan favors anglers with a flush dash, under-gunwale rod lockers, and a cockpit depth that many find reassuring; a few users note a long, narrow feel to the layout.

On the water, owners report crisp, responsive handling—some compare the sensation to a sports car—and third-party tests often highlight a dry, composed, and quick ride even as conditions deteriorate. A pronounced bow entry and a moderate 12° transom deadrise help the hull cut through chop while maintaining a shallow footprint of about a 12-inch draft, though users warn that very rough harbor or afternoon chop can make passages wet and uncomfortable.

The hull is built as an all-composite structure with a PVC foam core and includes a one-piece glassed stringer grid to avoid typical wood-rot concerns, and side-console access simplifies electrical and electronics work. Ownership practices stress dealer pre-delivery checks, a recommended 20-hour inspection, and scheduled maintenance intervals; many owners choose 200–250 hp YAMAHA outboards, noting that engine selection influences fuel consumption and service needs.

Pros and Cons

- Proven with fishing guides and charter operations for inshore/nearshore

employment.

- Sharp, responsive handling with a ride many describe as dry, comfortable, and quick.
- Deep bow entry and a moderate 12° deadrise help punch through chop while a shallow draft (around 12 inches) allows access to skinny water.
- Can become wet and bouncy in very choppy harbor or late-afternoon conditions.
- Prioritizes fishing functionality and storage over beach-boat or lounge amenities.
- Dealer-prescribed maintenance schedule (including a 20-hour checkup) and the choice of engine require planning.
