OVERVIEW

The FSH Sport E by YAMAHA is a compact center-console motor yacht built on a robust fiberglass and plastic hull. Offered through Shestakov Yacht Sales with broker Andrey Shestakov, this model pairs a conveniently sized platform with twin outboard power for a wide variety of on water activities.

Selecting a FSH Sport E

When you want a no frills, easy-to-manage boat, the FSH Sport E makes a compelling case. At 24 ft overall and an 8 ft beam, its proportions suit tight marina slips and day boat duties, while twin YAMAHA engines provide the confidence of redundancy. The open center console layout maximizes usable deck space, and the fiberglass and plastic hull with a fiberglass deck emphasizes longevity and simple upkeep. For a detailed assessment of whether this configuration matches your boating plans, contact Andrey Shestakov at Shestakov Yacht Sales.

Features of the Model

- 24 ft LOA (7.32 m) with an 8 ft beam (2.59 m)
- Twin engines from YAMAHA; engine type: Other; fuel: Unleaded
- fiberglass and plastic hull complemented by a fiberglass deck
- 111 gallon fuel capacity and 10 gallon water capacity
- Hull configuration noted as Other
- Open center console arrangement that supports easy walk around access

Technical Specifications

- Builder: YAMAHA
- Model: FSH Sport E
- Classification: motor yacht; layout: center console
- Hull material: fiberglass and plastic
- Deck material: Fiberglass
- Hull configuration: Other
- LOA: 24 ft (7.32 m)
- Beam: 8 ft (2.59 m)
- Engines: 2 x YAMAHA
- Engine type: Other
- Fuel type: Unleaded
- Fuel capacity: 111 gal
- Water capacity: 10 gal

Pricing and Ordering

Current pricing, delivery timelines, and availability for the FSH Sport E are provided on request. Shestakov Yacht Sales will assist with reviewing options and next steps through broker Andrey Shestakov. Contact us to review configurations, confirm delivery windows, and place an order.

Questions and Answers

Q: What type of yacht is the FSH Sport E? A: It is a motor yacht configured as a center console and constructed on a fiberglass and plastic hull by YAMAHA.

Q: What are the key dimensions of the model? A: The **LOA** measures 24 ft (7.32 m) and the **beam** is 8 ft (2.59 m), giving a compact footprint suitable for varied

use.

Q: What powers the boat and what fuel does it use? A: The boat is driven by **twin engines** from YAMAHA with the **engine type** listed as Other and operating on **Unleaded** fuel.

Q: What are the fuel and water capacities? A: The vessel carries **111 gallons** of fuel and **10 gallons** of water, per the published specification.

Q: How can I purchase or enquire about this model? A: Contact **Andrey Shestakov** at **Shestakov Yacht Sales** for information on **pricing** , **availability** , and the **ordering** process for the FSH Sport E.

Owner Experience Review

Owners of the FSH Sport E from YAMAHA typically split use between dedicated sportfishing and family day trips. The center console FSH configuration, livewell, and dedicated fishing platforms lend themselves to practical offshore day runs, while the same open deck easily converts for relaxed family cruising and weekend escapes. For longer passages, many owners appreciate the twin outboards for redundancy and peace of mind. Nearshore and bay fishermen often make modest additions—like extra rod holders and rod holder drains—to better suit everyday angling and casual outings.

On the water, sea trials and owner reports describe a steady ride through chop with documented cruise figures. Some owners report a slight port side lean, a light imbalance that is frequently corrected by filling the starboard livewell or adding weight to the starboard side. The E Series drive by wire controls attract mixed opinions: several owners describe the electric throttle/shift sensation as “funky,” and there are occasional reports of communication or shifting faults. Comfort evaluations often highlight the utility of the stern and bow platforms, with many users installing adhesive mats for added grip and

comfort; some note the helm bench sits a touch further from the controls than preferred. The livewell and overall storage layout continue to be praised for supporting efficient fishing operations.

Maintenance feedback often focuses on an anchor locker drain placement issue, where the drain fitting can be located above the locker floor; owners report water ingress and commonly reroute or replace the drain assembly. A few owners advise carrying vice grips following incidents where water was pushed into an engine or inlet hose. E Series electronics also receive extra scrutiny: reported problems include communication errors, gear sticking events, or intermittent start failures, prompting many owners to seek dealer assistance and consider extended coverage.

Pros and Cons

• Stable ride in chopped conditions with reliable cruise performance validated by professional testing.
• Fishing focused FSH layout with an effective livewell and ample storage for serious anglers.
• Adaptable for offshore day trips, nearshore bay use with simple aftermarket tweaks, and family recreational outings.
• A tendency to favor the port side, often corrected by added ballast or filling the starboard livewell.
• Drive by wire E Series throttle/shift can feel awkward and may show occasional communication or shift faults.
• Ownership items reported include anchor locker drain routing issues, possible water forced into an engine/inlet hose, and E Series electronics that sometimes require dealer intervention.

Comparison with Other Models

Model	LOA	Beam	Draft	Speed (Cruising/Max)	Gross Tonnage
FSH Sport E	24' 0" (7.32 m)	8' 0" (2.59 m)
