DETAILED DESCRIPTION

Machinery

This yacht is powered by a robust machinery setup, featuring two MTU engines, each delivering an impressive 2000 horsepower (1472 kW at 2450 RPM). These engines are the 12V 2000 M96X model, known for their reliability and performance. As of July 2024, the engines have approximately 400 hours of operation, indicating they are relatively new and have been lightly used. The power from these engines is efficiently transferred through a V-shaft transmission system, complemented by a ZF gearbox. The reduction gear ratio is set at 2.467:1, optimizing the balance between speed and fuel efficiency. This configuration allows the yacht to achieve a range of approximately 1050 miles at an economical speed of 10 knots, making it ideal for long-distance cruising.

Generators & auxiliary equipment

The yacht is equipped with a robust power generation and auxiliary system to ensure seamless operation and comfort on board. It features two Kohler generators, each with a capacity of 40 kW, providing reliable power with a voltage of 380V in a three-phase configuration at 50Hz. This setup is complemented by a comprehensive electrical system that includes power transformers rated at 40 KVA, capable of handling both 380V and 220V at 50Hz. The yacht's electrical circuits are designed to accommodate 380V three-phase power, 220V single-phase power, and 24V DC power for navigation systems and emergency lighting. Additionally, the system is supported by Mastervolt battery chargers, ensuring that all power needs are efficiently met, whether at sea or docked.

Ancillary equipment

The yacht is equipped with a comprehensive array of ancillary equipment designed to enhance comfort, safety, and performance. The WC system is provided by Tecma, ensuring reliable and efficient sanitation. For climate control, the yacht features a Condaria air conditioning system with a capacity of 180,000 BTU/h, maintaining a comfortable environment in all conditions. Maneuverability is enhanced by SidePower bow and stern thrusters, while CMC stabilizers with Zero Speed technology ensure a smooth and stable ride, even when the yacht is at rest. The engine room is equipped with a robust ventilation system to maintain optimal operating conditions. Safety is prioritized with Gianneschi fire pumps and bilge pumps, specifically the ACB 431 model, providing effective water management and fire suppression capabilities. Fresh water needs are met by Gianneschi pumps with a maximum capacity of 2 x 50 liters per minute, and hot water is supplied by Gianneschi boilers, specifically the Type model with an 80-liter capacity. This comprehensive suite of equipment ensures that the yacht is well-prepared for any voyage, offering both luxury and peace of mind.

Safety & security equipment

The yacht is meticulously equipped with a comprehensive range of safety and security equipment to ensure the utmost protection for all on board. It features inflatable life rafts, providing essential emergency flotation in the event of an evacuation. Additionally, there are two lifebuoys strategically placed for quick access, enhancing safety during any overboard situations. Lifejackets are readily available for all passengers, ensuring personal safety at all times. The vessel is also equipped with an advanced inert gas fire system, offering superior fire suppression capabilities. Furthermore, each area of the yacht is outfitted with fire extinguishers, ensuring that any fire-related

emergencies can be swiftly and effectively managed. This extensive suite of safety and security equipment underscores the yacht's commitment to providing a secure and worry-free experience for its passengers.

Communication equipment

The yacht is outfitted with a state-of-the-art communication system to ensure seamless connectivity and coordination both on board and with the outside world. It features a Furuno VHF DSC Class D radio, providing reliable maritime communication and safety through digital selective calling. Complementing this is the remote handset HS-4800-A, which offers convenient access and control over communication functions from various locations on the yacht. For internal communication, the yacht is equipped with a Panasonic system, facilitating clear and efficient communication among crew and passengers. Additionally, the yacht boasts a PepLink router with a Gigabit network switch, ensuring robust and high-speed WiFi connectivity throughout the vessel. This comprehensive communication suite ensures that all communication needs are met with efficiency and reliability, enhancing both safety and convenience for everyone on board.

Navigation equipment

The yacht is equipped with an advanced navigation system designed to ensure precise and reliable guidance on the open seas. At the main helm, the centerpiece is the Hatteland touch screen monitor, which interfaces seamlessly with the Furuno NavNet TZT2 Black Box system, providing comprehensive navigation data and control. The system is supported by a Furuno GPS sensor with NMEA 2000 connectivity, ensuring accurate positioning. For enhanced situational awareness, the yacht features a Furuno UHD radar sensor and a Furuno ecosounder BBDS1 with a transducer, offering detailed underwater

and surface data. The Airmar DST 800 NMEA 2000 sensor provides log-speed and temperature readings, while the Airmar wind-weather sensor delivers crucial meteorological information. Navigation is further enhanced by the Furuno Autopilot NavPilot 711C, allowing for precise course management, and the Furuno AIS Class B system, which ensures safe vessel tracking and identification. The Kahlenberg horn adds an essential safety feature for sound signaling.

On the flybridge, the yacht is equipped with a Furuno NavNet TZT2 multifunction display, featuring a 16-inch screen for easy viewing and control. This is complemented by a dedicated Furuno autopilot station, ensuring that navigation remains intuitive and efficient from multiple vantage points on the yacht. This comprehensive suite of navigation equipment ensures that the yacht is well-prepared for any journey, offering both safety and ease of operation.

Deck equipment

The yacht is equipped with a range of high-quality deck equipment designed to enhance functionality and ease of use. At the heart of the anchoring system is the Lofrans windlass, known for its reliability and strength, ensuring smooth and efficient anchor handling. Complementing this are the Lofrans warping winches, which provide additional support for mooring operations. The gangway, crafted by Mor Saverio, features a robust stainless-steel structure with a teak grill platform, offering both durability and elegance. This attention to detail extends to the swimming platform, also designed by Mor Saverio, providing a seamless transition to the water. The yacht is equipped with aft lockers, offering ample storage space for equipment and gear. For enhanced visibility and safety during nighttime operations, a Sanshin searchlight is installed, ensuring that the yacht is well-prepared for any conditions. This comprehensive suite of deck equipment underscores the yacht's commitment

to quality and functionality, ensuring a superior experience for all on board.

Audio & visual equipment

The yacht is equipped with an impressive array of audio and visual equipment, ensuring entertainment of the highest quality throughout the vessel. In the main salon, guests can enjoy a cinematic experience with a Samsung LED Smart TV UHD 4K 65", complemented by B&W speakers with a subwoofer for immersive sound. The entertainment system is further enhanced by a satellite HD decoder, a sintoamplifier AV receiver, and a Sony BDP-S6700 DVD/Blu-ray player.

In the master cabin, a Samsung LED Smart TV UHD 4K 49" provides stunning visuals, supported by a satellite HD decoder and a Sony BDP-S6700 DVD/Blu-ray player. The audio experience is enriched by B&W speakers, ensuring high-quality sound.

The VIP cabin features a Samsung LED Smart TV 32", along with a satellite HD decoder and a Sony BDP-S6700 DVD/Blu-ray player, all paired with B&W speakers for an exceptional audio-visual experience.

Guest cabins are similarly equipped with Samsung LED Smart TVs 32", satellite HD decoders, and Sony BDP-S6700 DVD/Blu-ray players, accompanied by B&W speakers to ensure guests enjoy the same level of entertainment.

In the crew cabins, a Pioneer car stereo with Sony speakers provides reliable audio entertainment, while the flybridge offers a Samsung 40" SMART TV, B&W speakers, a sintoamplifier AV receiver, a satellite HD decoder, and a Sony BDP-S6700 DVD/Blu-ray player for outdoor enjoyment.

Finally, the wheelhouse is equipped with a Pioneer car stereo and Sony speakers, ensuring that even the crew can enjoy quality sound while navigating. This comprehensive suite of audio and visual equipment guarantees that every area of the yacht is equipped for entertainment,

providing a luxurious and enjoyable experience for all on board.

Galley and domestic equipment

The yacht's galley is equipped with top-of-the-line appliances to ensure a seamless culinary experience on board. It features a Miele cooking top and fan extractor, providing efficient and precise cooking capabilities. The multifunction oven by Miele adds versatility to meal preparation, while the IBERNA freezer and G.E. refrigerator offer ample storage for fresh and frozen goods. For wine enthusiasts, a Liebherr wine cellar is included, ensuring that your collection is stored at the perfect temperature. The galley is further enhanced by a Miele dishwasher, making cleanup effortless.

In the crew mess, the yacht is equipped with a Miele washer and dryer, ensuring that laundry needs are met efficiently. A Miele fridge is also available, providing additional storage for the crew's provisions.

The domestic equipment extends to the outdoor areas, with Frigomar stainless steel fridges located in both the aft cockpit and the flybridge. These fridges ensure that refreshments are always within easy reach, enhancing the onboard experience. This comprehensive suite of galley and domestic equipment ensures that all culinary and domestic needs are met with the highest standards of quality and convenience.

Tenders

The yacht is equipped with a Williams 505 Jet Tender, a versatile and high-performance vessel that complements the main yacht perfectly. Known for its agility and speed, the Williams 505 Jet Tender is ideal for quick trips to shore, exploring secluded coves, or enjoying water sports. Its design ensures a smooth and comfortable ride, while the jet propulsion system provides excellent maneuverability and safety in shallow waters. This tender enhances

the overall yachting experience, offering both convenience and excitement for all on board.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
