OVERVIEW

The VIPER collection from ISA Yachts reimagines the sport motor yacht with a next-generation approach, blending athletic performance, sculptural exterior lines, and an elevated onboard lifestyle into a single, cohesive platform. Its architecture and engineering are conceived to deliver dynamic handling without compromising the refined comforts expected at the highest level of yachting.

A striking aft terrace becomes the social heart of the yacht, where fold-out sea balconies, an integrated pool, and generous lounging areas flow together to create a seamless indoor-outdoor experience. Al fresco dining is a defining element on both the main deck and the upper sundeck, offering sweeping vistas and flexible entertaining spaces designed for both intimate meals and lively gatherings.

The VIPER 100 accommodates eight guests across four thoughtfully arranged cabins, anchored by a dramatic full-beam owner's suite complete with ensuite, accompanied by a roomy VIP and two additional guest staterooms. Practicality meets playfulness with a dedicated tender garage that enhances onboard versatility and provides abundant storage for water toys.

VIPER — tomorrow's yachting, available today.

DETAILED DESCRIPTION

Walkthrough & broker comments

The VIPER line from ISA introduces a new era of sport yachts, marrying high performance, refined aesthetics and an elevated lifestyle on a distinctly modern platform. The aft deck serves as the focal point, where fold-down balconies, an integrated pool and expansive lounging areas combine to form a seamless, resort-like environment. Al fresco dining is woven throughout the layout, with inviting dining spots on both the main deck and the sun-drenched upper sundeck.

Designed with performance at its core, the VIPER 100 is driven by twin MJP water jets plus an MJP booster, capable of reaching top speeds around 44 knots when specified with the full propulsion option of three MAN V12-200 series 2,000 hp engines. This bold propulsion package delivers a combined 6,000 hp, positioning the VIPER 100 among the fastest production yachts available today.

The exterior plan is an exercise in purposeful design and graceful proportions. The upper sundeck is appointed with a fully serviced bar and dining area, generous lounge pads and an extended hard top that frames panoramic views with effortless poise. Aft on the main deck, the space unfolds into three interconnected but distinct zones: an elevated dining platform ideal for al fresco meals, a mid-level lounge appointed with integrated settees and chairs for convivial gatherings, and a rear pool that commands attention as the social nucleus of the vessel. Envision a swift hop from Miami to the Bahamas, dropping anchor in a secluded cove and lowering the two fold-down balconies to enlarge the pool deck into a private haven for family and friends.

Guest accommodation for eight is arranged across four cabins, anchored by a dramatic full-beam master en-suite, complemented by a generous VIP and two

further guest cabins, each articulated with the assured sensuality of Italian design. The main salon is expansive and inviting, featuring an aft-facing lounge and a formal dining area, while sliding doors open onto a large balcony, erasing the line between interior and exterior in keeping with the vessel's progressive design intent.

A dedicated tender garage completes the offering, providing generous storage for toys and ensuring the deck areas remain uncluttered and ready for action. VIPER — the next generation of yachting, brought to life.

Technical details

The Isa Viper 100 is conceived as a flying bridge yacht featuring a planing hull refined with spray rails and built to meet the requirements of directive 2013/53EU, accompanied by an EU declaration of conformity to Category B - Module B. Naval architecture is by Isa Yachts, while both the exterior and interior environments are the work of Fulvio de Simoni. The hull and superstructure are constructed in GRP with carbon fiber reinforcements, and her overall dimensions read 30.4 m/100 ft LOA with a hull length of 23.9 m/78.41 ft, a beam of 7.3 m/23.95 ft, and a full-load draft of 1.3 m/4.26 ft; at full load she displaces 100 t.

Tankage includes 10,350 liters/2,734 gallons of fuel oil, 2,200 liters/581 gallons of fresh water, 580 liters/153 gallons of black water and 600 liters/158 gallons of grey water. Propulsion is provided by three MAN V12-2000 main engines, each rated at 2000 hp, their output routed via a ZF gearbox to two MJP water jets plus an additional MJP booster, while onboard electrical support is ensured by two Kohler generators rated at 35 kW each. Maneuvering aids include an ABT Trac Electric 50 hp thruster and an available Seakeeper 40 stabilizer for enhanced onboard comfort. Performance figures are emphatic, with a maximum speed of 44 knots at 100% MCR and a cruising speed of 38 knots. Accommodation is arranged for eight guests across four cabins, with

crew quarters for four accommodated in three cabins.

Isa yachts

With a steadfast commitment to producing forward-thinking superyachts built from only superior-quality materials, ISA Yachts has become a leading international builder of both superyachts and megayachts. Each vessel is conceived as a bespoke response to her owner's brief and realized through cutting-edge technology, the highest-grade materials and the most exquisite furnishings and finishes. Renowned as a benchmark of elegant design and exceptional construction, the shipyard continually extends the boundaries of yacht building. Its largest project to date, the striking 66-meter superyacht OKTO, has graced the seas since her delivery in 2014 as the epitome of luxury and poise within her class. ISA Yachts forms part of the Palumbo Superyachts network, alongside Columbus Yachts, Mondomarine and Extra Yachts.
