OVERVIEW

The Oceanic 100' Shadow is a striking 24-knot support yacht that marries adventurous capability with refined luxury. Its generous aft deck of 80 square meters offers an elegant stage for entertaining or relaxing, while the yacht carries a 7-meter tender plus an additional 5.4-meter tender on the standard tender lift, space for four Personal Watercrafts, an inviting open Beach Club and a dedicated diving room. Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that truly embodies elegance and performance.

DETAILED DESCRIPTION

2024 Oceanic 100' Shadow

The 2024 Oceanic 100' Shadow, offered at 8,400,000 Euro and scheduled for delivery in February 2024, redefines the escort yacht category with a generous eighty square meter aft deck and the distinction of being the first escort vessel capable of reaching speeds of twenty-four knots; designed to carry a seven meter tender on deck and a second five-point-four meter tender on its standard tender lift, she also accommodates four personal watercraft and an uncompromising amount of toys, all supported by an open beach club and a dedicated diving room that make her a water sports enthusiast's dream. Despite a Sport Utility Vessel concept, interiors by the acclaimed Cristiano Gatto studio introduce elegant, refined living spaces where the main deck saloon is thoughtfully separated from the full beam wheelhouse, the latter featuring a reversed windshield and direct access to crew quarters for four, while guest accommodation comprises a full beam master suite, a VIP cabin and an additional guest cabin to ensure privacy and comfort for all aboard. Under the skin she is equally impressive: twin Caterpillar C32 Acert engines, each delivering 1,925 hp, power the Canados specific DisPlanning hull to provide comfortable cruising between twelve and twenty two knots at full load, with a maximum speed at half load of twenty five knots and a cruising speed of twenty two knots that yields a range of 450 nautical miles at cruise. The composite hull construction, though costlier than aluminum or steel, brings decisive advantages — eliminating 100% of corrosion issues, reducing electrolysis related problems by 80%, and offering impact resistance two to three times greater than metal — while the hull and deck are molded in GRP and the superstructure is crafted from lightweight alloy to lower the center of gravity. Perfect as an escort for a superyacht owner with family or as a spirited

platform for a younger owner seeking maximum sports and toy capacity, the Oceanic 100' Shadow also benefits from being registered under twenty four meters, adding practical advantages to an already compelling package.

Technical specifications confirm her pedigree: length overall 30.48 meters (100 feet), maximum beam 23.98 meters (78 feet 8 inches), draft 7.00 meters (22 feet 11 inches), fuel capacity 9,000 liters (2,378 US gallons), fresh water capacity 1,500 liters (396 US gallons), lightship displacement 81 tons (178,600 lbs), twin Caterpillar C32 Acert engines, two Kohler generators each rated 28 kW at 50 Hz and 380 V, maximum speed at half load 25 knots, cruising speed 22 knots and a range of 450 nautical miles at cruise speed.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
