OVERVIEW

A striking 100' planing motor yacht from 2012, currently lying in Mexico, marries Italian design heritage with lively performance to offer the presence of a superyacht alongside the responsiveness of a genuine performance cruiser. Conceived by the Ferretti Engineering Department and styled within by Studio Zuccon International Project, she presents clean, contemporary lines outside and warm, sophisticated interiors that invite both extended voyages and glittering weekends at sea.

Her generous 23-foot beam creates an airy salon where a panoramic-lounge flows effortlessly into a sociable dining area, bathing the interior in natural light and uninterrupted sea vistas. The finish palette reflects Studio Zuccon's restrained luxury—tactile woods, refined textiles and a timeless color scheme that feels simultaneously modern and comfortably familiar. Accommodations are arranged to sleep up to 10 guests with five beautifully appointed bathrooms, while a professional crew of up to four is accommodated in two dedicated cabins to provide discreet, attentive service.

Built in GRP/fiberglass, the yacht's planing hull is engineered for strength and efficiency, delivering lively, assured handling in a range of conditions. Twin MTU diesel engines provide an effortless 16 knot cruising speed and exhilarating bursts to 26 knots when the mood for speed takes hold, making her equally adept at island-hopping or stretching toward the horizon. With fuel capacity of 3,434 gallons and fresh water capacity of 1,321 gallons, she is prepared for long coastal passages or peaceful stays at anchor in secluded bays.

Outdoor living is a defining element of her character: an expansive aft deck invites alfresco dining, broad side decks allow easy movement and connection with the sea, and a generous foredeck lounge offers a sun-drenched sanctuary forward. Practical, well-considered detailing—ample storage, well-placed

handholds and efficient service areas—reveals a vessel crafted by engineers and stylists who understand the realities of life aboard.

This 2012 luxury motor yacht in Mexico is a rare synthesis of speed, comfort and enduring style. Whether envisioned as a private family yacht or an elegant platform for entertaining, she exemplifies Italian craftsmanship and contemporary yachting: a swift, seaworthy superyacht experience with the soul and range of a refined cruiser.
