OVERVIEW

A rare opportunity presents itself to take ownership of an almost-new Sanlorenzo SX100 without the customary 18-month wait. Delivered in December 2024, this immaculate superyacht has completed her shakedown and stands turnkey, ready for immediate cruising by her next owner. Commissioned by a seasoned yachtsman and constructed under meticulous personal supervision, she was finished to an elevated specification that marries refined aesthetics with robust nautical engineering. The interior, inspired by Lissoni, is furnished with curated pieces from Poltrona Frau, Flexform, Minotti, and Roda, while premium hardware, fluted oak joinery and polished marble surfaces are layered throughout to create an atmosphere of restrained luxury. Her main deck owner's suite is thoughtfully arranged and is complemented by three guest cabins below, an arrangement ideal for those who prize both privacy and conviviality at sea. A vast beach club, equipped with an integrated crane, will accommodate a Highfield SP520 RIB with additional room for a full-size jet ski; deploy the tender and water toys, extend the side terraces and the stern becomes an expansive lounge and watersports platform. The SX100 is a contemporary crossover motor yacht that fuses classic poise with modern design, offering the volume and comfort of a long-range cruiser alongside the agility and performance of a sport yacht—an ideal blend for Motor Yacht, Superyacht, Crossover Yacht, Beach Club Yacht, and Explorer style cruising.

DETAILED DESCRIPTION

Details

Tastefully specified for effortless cruising, this yacht pairs robust engineering with refined design, presenting an assemblage of electrical and mechanical equipment that prioritizes reliability and autonomy: a dedicated battery charger rated at 12V 25A for the generators' batteries, an additional 27.5m chain length to ensure confident anchoring, and an extra 220V waterproof socket for resilient shore and on board power access. Ambience is finely tuned through comprehensive dimmer packages that cover all cabins, bathrooms, the galley and the exterior decks, while power management is elevated by an upgraded second generator delivering 55kW, a Watermaker Idromar producing 250 l/h and an Alva Laval fuel cleaning system to safeguard engine health. Practical service conveniences include an electric pump for engine and generator oil changes with flexible rubber hoses and a tender fuel filling system with a manual pump for seamless days on the water. Electronics and navigation are equally considered, with a Volvo joystick integrated with the engines' IPS transmissions for intuitive low speed control, a second helm control station in the cockpit for enhanced flexibility, and a Raymarine Gold navigation package anchoring the helm, complemented by Raymarine IP CCTV with two fixed cameras in the cockpit and two fixed cameras in the engine room, all monitored via a color Panasonic display. Entertainment at sea mirrors life ashore through an upgraded Gold Audio/Video package. Interior features and equipment are curated for contemporary elegance and practical comfort: a bed with a lifting system provides discreet additional storage, a 5G Internet Wi-Fi System with a Harbour Hot Spot Antenna keeps guests constantly connected, and additional waterproof sockets are thoughtfully positioned throughout. The beach area is finished with a teak floor and the

beach lounge is laid in teak with black caulking to match the exterior styling, while culinary appointments include a Gaggenau wine cooler for thirty four bottles, a professional extraction hood and separated fridge and freezer in lieu of a side by side unit, together with a small fridge in the pantry in lieu of a twenty bottle wine cooler. The aft flybridge door features a rotation system allowing the doors to open fully to invite the seascape inside. Ceilings in the Beach lounge are clad in planked natural oak, and the Main Deck salon and Owner's cabin enjoy ceilings finished with a metallic varnish for a subtle sheen. Tactile details and hardware are premium: Olivari door handles, PALAGI light switches and a Lissoni main deck staircase descending to the beach lounge in curved metal with metallic varnish. The Owner's cabin is appointed with a metal frame for the bedhead, fluted glass with metallic varnish frames across wardrobe walls, a feature wall and the bathroom door, and on the lower deck fluted glass with metallic varnish frames elevate all wardrobe doors; the Main Deck salon is accented with fluted oak and interior flooring combines teak with a grey insert in the MD salon, Owner's cabin and UD salon. Furnishings read like a connoisseur's collection, thoughtfully composed with pieces such as an armchair by Poltrona Frau, a coffee table by Flexform Tindari with chromed structure and woven fabric cord, a linear sofa by Minotti, a linear sofa by Poltrona Frau Let it be, a lounge chair and ottoman with pouf by Vitra Eames in white walnut, a pouf by Poltrona Frau Let it be, a round table by Minotti Bellagio, a rug by Jacaranda Arani Canvas, a side table by Flexform, a stool with tray by Paola Lenti and a transformable table by Ozzio. Technology and accessories are comprehensive, including two Empty Radome KVH TV6, two Fatboy Floatzac col., two free standing nightstands by Poliform, two pouf for exteriors by Roda, two rechargeable lamps by Roda plus an additional two rechargeable lamps by Roda, two shower walls in marble with one niche in the Owner's bathroom and two solar rechargeable teak lamps. Alfresco dining is arranged for conviviality with six director's chairs by Dedon, bathing comfort is enhanced by three Rainshower units for lower deck cabins as an option, and

media discretion is delivered by three Stopsol mirror screens in front of the TV for all cabins. Lounge flexibility continues with four armchairs by Minotti Patio Small in ecru woven fabric and an ecru color base. The beach club is refreshed by a dedicated shower column, while a sun awning with two sails shades the beach area. Exterior features underscore open air living: a lifting system services the swimming platform, six underwater LED lights dramatize the waterline, and between the two bow sunbeds an additional removable center sunbed kit creates a flexible lounging island. The aft Main Deck saloon opens via an electric door for seamless indoor outdoor flow; the flybridge is finished with a teak deck and the Hard Top features an electric blades opening roof to temper sun and breeze. Additional exterior appointments include an external inox shower column, a grill BBQ and sun awnings for both the bow area and the stern area of the fly behind the Hard Top, while the bow table with an electric hi/low system transforms into a sunbed. Comfortable alfresco seating is provided with two exterior armchairs by Roda, two chaise longues by Paola Lenti and two chaise longues for exteriors by Roda. Watersport and safety provisions are comprehensive: the Highfield SP520 tender is powered by a Mercury 115 hp outboard and fitted with custom Raymarine navigation and an upgraded audio system, a Bauer Oceanus E breathing air compressor supports diving pursuits, and safety equipment includes two ten person life rafts, eighteen life jackets, two life rings, flares, an EPIRB and a comprehensive first aid kit.
