OVERVIEW

As Astondoa celebrated its 100th anniversary, the 100' Century was unveiled as a fitting homage, artfully merging the storied legacy of the Spanish shipyard with the expectations of today's sophisticated yacht lovers. This breathtaking yacht features expansive outdoor spaces perfect for hosting family and friends, complemented by opulent interiors that prioritize comfort, effortless living, and refined Italian design. Measuring 100', the Century embodies the majesty of a megayacht while retaining the nimbleness of a powerboat.

Astondoa has embraced the forefront of hull design innovation, enabling the family-run shipyard to continually advance. By employing cutting-edge 3D printing, five-axis machining, and pioneering infusion and vacuum construction methods, the shipyard integrates the latest materials like carbon, Kevlar, and titanium into its fiberglass hulls. This dedication to modern engineering elevates the yacht's design, maximizing space, adaptability, strength, and weight, which in turn enhances speed and fuel efficiency.

DETAILED DESCRIPTION

Vessel walk through

The expansive flybridge serves as the centerpiece of the Century, optimizing outdoor living space while providing a sheltered setting. Its louvered retractable sunroof invites an abundance of natural light and fresh air, ideal for those who cherish tranquil or romantic nights under the stars. The newest 100 Century model boasts an open-air, fully equipped kitchen with a wet bar and grill, complemented by extra bar seating, making it perfect for outdoor dining and entertaining. This kitchen flows effortlessly to a spacious teak deck and Jacuzzi, surrounded by sun pads, ideal for sunbathing, soaking, or enjoying a leisurely nap. Ahead of the pilothouse, a vast sun pad offers stunning sea views, and just a step away, another bow lounge area with tables is ready, covered by a Bimini top for shaded relaxation, socializing, or dining when needed.

The upper helm station grants the captain a panoramic view, comfort, and all the essential technology to navigate from the flybridge. Alternatively, the interior pilot house provides shelter from the elements, featuring a flat dashboard and a multi-screen navigation system equipped with a comprehensive range of premium instruments. The upper deck of the Astondoa 100 Century is crafted as a single level from bow to stern, making it a "walk-around" yacht that is accessible and comfortable for guests of all ages, with numerous lounges and sun pads to enjoy. Stairs lead down to the main deck, where an electric door on the starboard side invites you into the spacious salon, also accessible from the aft deck. A few more steps down, the large teak-lined garage door opens to the waterline, granting guests access to a tender, water toys, and a variety of aquatic activities.

Accommodations and interior

The expansive master suite spanning the full beam of the main deck is a sanctuary of opulence, complete with a walk-in closet, generous storage, a vanity, and plush seating areas. The en suite bathroom matches this luxury, featuring dual sinks for added ease. A gracefully curved wooden staircase leads down to the lower deck, where four sophisticated guest suites await, each with its own en suite bathroom, allowing up to 12 guests to enjoy their stay in comfort and elegance. The crew quarters are thoughtfully designed to house three, ensuring every guest is indulged throughout their voyage.

This yacht's standard interior layout includes five cabins and five bathrooms, along with a day head and the option for a third crew cabin. The atmosphere is elevated by an LED lighting system with dimmers, offering adjustable lighting to match any mood. An automatic electric door allows effortless entry from the port side to the main cabin, while safes in both the owner's and captain's cabins provide security. The interior is adorned with blinds in either wood or aluminum, adding a refined touch, and the electric head offers modern convenience.

Galley

The kitchen on this yacht is outfitted with premium Miele appliances, or their equivalents, guaranteeing an effortless cooking experience. It includes a refrigerator, oven, extractor fan, and hobs, all crafted to uphold the highest standards of style and functionality. Wine lovers will appreciate the wine cellar, which can hold up to 34 bottles, perfect for storing and savoring a selection of exquisite wines at your leisure. Furthermore, a deep freezer offers generous storage for provisions, while a microwave oven provides quick and easy meal preparation. This meticulously designed galley ensures that all culinary requirements are fulfilled with sophistication and efficiency.

Engine room and mechanical equipment

Astondoa's renowned engine room exemplifies both precision and strength, shining with stainless steel and housing dual MTU 16V 2000 M86 engines, each offering a remarkable 2186 horsepower. For those desiring greater power, an upgrade to the 2000 M96 engines is available, delivering 2400 horsepower. The standard mechanical equipment is crafted to provide peak performance and comfort. The air conditioning system is adapted for the USA climate, including the crew quarters, with a capacity of 240,000 BTU. Reliable power is ensured by two generators, each supplying 40 kW at 277/480 V and 60 Hz.

Maneuverability is improved with a hydraulic bow thruster and two aft mooring winches. Safety is a top priority, with an approved automatic fire fighting system and an engine oil change system installed. The engines are safeguarded by double Racor filters, while the generator is equipped with its own Racor filters. The bilge system is comprehensive, featuring both manual and electric bilge pumps. Additional elements include a battery charger, an inverter, and an electrical circuit running at 220V, all contributing to a smooth and efficient yachting experience.

Deck equipment and exterior features

The deck equipment and exterior features of this yacht are crafted to elevate both practicality and elegance. At the stern, a garage offers generous storage, accessible through a transom door that also serves as a convertible swimming platform. Launching and retrieving a tender is made simple with a stainless steel trolley. The yacht is fitted with two aft mooring winches to ensure secure docking. An automatic electric door provides effortless entry from the port side to the main cabin, while a hidden gangway with an automatic handrail guarantees safe and easy boarding. Side access is made convenient with two standard doors, and the cockpit is tastefully finished with a teak floor,

complemented by a cockpit table and cushions for added comfort.

The main deck and bathing platform also boast teak flooring, adding a layer of sophistication. An electric sliding door seamlessly connects the aft cockpit to the saloon, enhancing spatial flow. Additional cleats on the aft deck and two on the lateral sides offer extra mooring options. The sundeck is equipped with eight chairs, available in teak or lacquered aluminum, providing an ideal spot for relaxation. A lighting system brightens the lateral corridors and sundeck floor, creating a welcoming atmosphere. The yacht is outfitted with a flag stem and dockside water inlets in the cockpit, bow, and sundeck for added convenience. Lastly, a hydraulic windlass ensures smooth and efficient anchor management.

Helm

The helm of this yacht is a center of cutting-edge technology and precise control, crafted to deliver an effortless navigation experience. It includes a third control station, offering the captain both flexibility and convenience. A powerful searchlight improves visibility during nighttime journeys, while the trim tab position indicator allows for precise adjustments to enhance performance. The navigation system is top-of-the-line, featuring four 26-inch displays that integrate radar and autopilot functions, ensuring the captain has all essential information readily available. The helm is also outfitted with GPS for precise positioning, a compass for traditional navigation, and VHF for dependable communication.

A touch screen monitoring and domotic system offers comprehensive control over the yacht's equipment, facilitating easy management of various systems. The AIS receiver boosts safety by providing real-time data on nearby vessels. Additionally, the flaps indicator gives precise feedback on the position of the flaps, further improving the yacht's performance and handling. This well-appointed helm ensures that every voyage is undertaken with confidence

and ease.

Av electronics

The AV electronics on this yacht are crafted to deliver an unparalleled entertainment experience, ensuring that every moment on board is both enjoyable and captivating. Outfitted with a DVD player, guests can indulge in their favorite films within the opulent interior. Strategically positioned cockpit speakers provide high-quality sound across the outdoor spaces, enhancing the atmosphere whether you're unwinding or hosting. A radio system is available for those who love tuning into their preferred stations, offering a diverse selection of music and news.

For visual enjoyment, the yacht is equipped with TV sets that provide a variety of viewing options, allowing guests to stay connected to the world or relax with a favorite show. Additionally, a CD player is included, catering to music lovers who appreciate the rich tones of their cherished albums. This extensive AV electronics setup ensures that all entertainment desires are fulfilled with elegance and sophistication, making each journey an unforgettable experience.
