## OVERVIEW

---

Sleek and assertive with unmistakable Italian character, this 2012, 100-foot planing motor yacht marries superyacht presence with spirited performance. Conceived and styled inside and out by the Ferretti Engineering Department, her sculpted lines and cleverly resolved volume speak of design intelligence, while a fiberglass/composite hull and superstructure deliver lasting strength and a remarkably quiet, composed ride. Lying in the United States, she presents itself as an immediately appealing option for owners who appreciate pedigree, refinement, and ready-to-cruise capability.

A generous 23-foot beam reveals itself the moment one steps aboard, where a grand, light-filled salon unfolds as an elegant entertaining space. Panoramic glazing frames the horizon and invites natural light, while refined Italian finishes and meticulous joinery reward close inspection. A formal dining area flows organically from the lounge, supported by a well-appointed galley laid out to sustain intimate dinners or livelier gatherings with equal ease.

Accommodations are arranged for extended cruising comfort, sleeping up to 10 guests across beautifully detailed staterooms, each enjoying the privacy of an en-suite and together served by a total of six sumptuous heads to simplify hosting. Crew amenities are thoughtfully separated to preserve guest privacy, with three crew cabins offering five berths and dedicated access that enables discreet, professional service and smooth operation.

Life aboard extends gracefully onto deck where multiple alfresco spaces encourage both socializing and repose. An expansive flybridge awaits sun-soaked afternoons and starlit evenings, the aft deck provides a shady setting for dining at anchor or while underway, and generous forward lounging invites tranquil retreats amid rolling seas. A broad swim platform converts the waterline into a private waterfront, making swimming, tender operations, and water access effortless.

Beneath the contours, twin MTU diesel engines animate the planing hull with athletic ease, producing an assured cruising speed of 18 knots and exhilarating bursts up to 24 knots. The hull form is engineered to balance speed with reassuring poise, translating into a dry, confident motion and precise handling, while modern helm instrumentation supports safe, intuitive navigation on passage. Substantial tanks—nearly 4,000 gallons of fuel and about 800 gallons of freshwater—underscore the yacht's self-sufficiency for longer passages and extended stays away from port.

Every detail reflects a vessel conceived for how owners live: smooth day-to-night transitions, generous storage, intelligent service circulation, and finishes that invite close appreciation. The result is a 100-foot motor yacht that feels larger than her length suggests—an elegant, performance-oriented platform equally at home cruising coastlines or anchoring off secluded coves, a compelling sanctuary on the water with unmistakable Italian pedigree.

## One and only

---

One and Only represents one of the strongest values in today's five-stateroom, master-on-deck yacht segment, offering a remarkable combination of volume, natural light and continual, meticulous upkeep. With a generous 23'8" beam this 100' yacht delivers interior space that outclasses many of her peers, while panoramic glazing on the main deck and large windows in each lower-deck stateroom flood the living areas with daylight to amplify the sense of openness. Her maintenance history is exemplary and recent upgrades have been implemented without compromise: in 2025 both fifty kW Kohler generators were fully rebuilt and returned to zero hours, new carpeting was fitted throughout as hardwood flooring was installed on the main deck, the swim platform received new teak, the hull was repainted in 2023, and exterior upholstery has been refreshed in recent years. Accommodations are arranged for up to 12 guests across five staterooms and are centered on a full-beam master suite on the main deck, while comfort underway and at anchor is assured by zero-speed Mitsubishi ARG gyro stabilizers working in concert with NAIAD fin stabilizers. Powerful twin MTU 16V 2000 M94 engines, each rated at 2,639 HP, provide confident performance and a 25-knot top speed, and the expansive flybridge with sunpads, dining and lounge areas creates an inviting outdoor living space complemented by a fold-out balcony off the main salon, teak decks, a hydraulic swim platform with tender garage and a retractable skyroof. Practicality is equally considered with crew accommodations for five to six including a private captain's cabin and separate galley access, a sophisticated navigation suite featuring Raymarine electronics, bow and stern thrusters and full yacht management systems. Built to RINA classification and maintained to impeccable standards, she is comprehensively equipped with

twin fifty kW Kohler generators (recently rebuilt), a 360 L/h Idromar watermaker and a 250,000 BTU tropical-grade air-conditioning system, and her award-winning design was recognized as Motor Boat of the Year 2012 in the Custom Yacht category and for Best Layout at the Cannes Boat Show in the Flybridge Yachts Over 24 m class. NOT FOR SALE TO US RESIDENTS IN US WATERS

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
