OVERVIEW

A beguiling union of elegance, innovation, and seafaring capability, the Majesty 100 Terrace captures the essence of modern superyacht artistry. At 105' with a 23' beam, this luxury motor yacht offers the volume, presence, and refinement one expects from a leading builder, presenting an exterior that is both crisp and authoritative while concealing an unusually generous interior.

Her lines and layout cultivate a pervasive sense of openness and calm under way. Accommodation comprises five exquisitely appointed guest suites and three crew cabins, supported throughout by eight sumptuous heads, ensuring both privacy and convenience for owners and guests. Meticulously tuned for quiet, efficient passage-making and true bluewater cruising, the Majesty 100 Terrace progresses between ports with confident poise.

Social life is amplified by more than 20% additional entertainment area, unfolding a variety of alfresco venues for dining, convivial gatherings, or languid sunbathing. Inside, sweeping panoramic windows and overhead skylights suffuse the interior with natural light, forging an unbroken dialogue with the sea. The owner's suite, complete with a private terrace and sweeping 270-degree views, becomes a singular retreat whether at anchor or underway. Above, a refined sky lounge and the wheelhouse form an elegant operational and social nucleus, while the flybridge sundeck tempts with a jacuzzi, generous sun pads, and airy dining areas—equally apt for vibrant entertaining or quiet repose. More than a craft, the Majesty 100 Terrace is a lifestyle proclamation: versatile, impeccably finished, and charter-ready, a world-class superyacht and flybridge yacht that reimagines ocean living for the discerning yachtsman.

DETAILED DESCRIPTION

Factory installed options

Meticulously specified from the shipyard, this yacht arrives with a suite of factory installed options that elevate comfort, autonomy, and control, beginning with enhanced security thanks to additional safes—one piece each to the LD guest cabins and the captain cabin (five pieces). A refined tone is set by a white hull and an electric patio door at the main deck entrance to the saloon (variation), while generous shaded retreats are created by an awning on the foredeck seating area and a matching awning on the upper deck aft, complemented by shading blades on the hard top and six pop-up lights on the forward deck. Seamless movement and access are ensured by an electrohydraulic passarella, a side-mount ladder (eight steps), a tenderlift with a thirteen hundred kilogram net lifting capacity, and a swim platform portable shower. Precision maneuvering is assured with a stern thruster and wing stations on port and starboard, while a shore power converter 50 kW, a fuel purification system, and an Electrosea System—essential for Florida—keep operations reliable in every harbor. The bridge suite benefits from upgraded multi-function GPS displays to twenty-four inch (three pieces), an intercom system, and a smart automation system for lighting, shades and the AV system (variation); the skylight with smart glass film at the sky lounge adds drama and privacy at a touch. Entertaining flows effortlessly with loose furniture including an upper deck aft dining table with ten chairs and additional loose furniture on the upper deck such as an L-shaped sofa with a single coffee table, while the port-side twin guest cabin convertible to a double sliding bed adapts to your guest list. Propulsion is delivered by twin MAN 1900HP engines combined with SCR, and the entire build conforms to USA specification for complete peace of mind.
