## OVERVIEW

---

An outstanding new-build Explorer Motor Yacht for 2027, crafted in the United States and offered with delivery approximately 24 months from contract, this 100-foot voyager marries expedition capability with bespoke luxury. Her advanced fiberglass-composite construction and displacement hull with a bulbous bow reflect a proven hull design engineered for seakindly passages and exceptional efficiency offshore. Driven by a single, commercial-grade Caterpillar inboard diesel, she settles into an effortless 10-knot cruising rhythm with the ability to surge to 14 knots when desired. Vast tankage—10,000 gallons of fuel complemented by 1,500 gallons of fresh water—delivers remarkable autonomy, while composite decks and systems-focused engineering underscore a philosophy of quiet reliability and low-maintenance ownership befitting serious bluewater exploration.

Inside, acclaimed Espinosa Inc. curates a bespoke ambience that's both contemporary and timeless, capitalizing on the generous 25-foot beam to create luminous gathering spaces that flow naturally between salon and open-air lounging. Accommodations are conceived to your brief and served by four well-appointed heads, while dedicated crew quarters—three cabins for up to four—are thoughtfully separated to ensure discreet, professional service on extended passages. Broad, secure walkarounds and expansive aft areas invite alfresco dining and the stowage of adventure gear, placing this vessel squarely among the most capable motor yachts in her class. For those seeking an ocean-ready explorer yacht with the elegance of a true Motor Yacht, this 2027 build offers a rare opportunity to personalize every detail and set an unhurried, confident course to the far horizon.

# DETAILED DESCRIPTION

---

## Introduction

---

The All Ocean Yachts Overing Explorer Yachts are founded on the proven, high efficiency full displacement hull form created by Overing Yacht Design, a recognized leader in this class of hull. This advanced form enables the All Ocean Yachts' Overing line to cruise on very small amounts of fuel while achieving increased speeds at a given RPM, dramatically reducing overall operating costs. Conceived for worldwide travel and for cruising in remote regions with little or no shore support for extended periods, the design's generous volume provides ample capacity to carry all the equipment and supplies required for true global voyaging.

That volume also delivers a distinctive advantage shared across the All Ocean Yachts' Overing design line: a full height deck forward beneath the normal lower accommodations deck, accessed via a dedicated door and stairs. This additional level houses a well equipped laundry area, extra refrigerators and freezers, and abundant dry goods storage. Forward of this storage lies a pump room with the fresh water pumps, two water makers, water heaters, and water filters, with a third water heater serving the crew area.

Above, the exceptional flybridge layout offers comfortable seating and all the amenities one would expect, while also carrying a larger than normal tender for a vessel of her size. Measured against others in her size range, the All Ocean Yachts Overing 100' stands out as a serious cruising yacht with exceptional features that few can match.

## General specifications

---

Measuring one hundred feet overall with a beam of twenty-five feet six inches

and a draft of seven feet six inches, this yacht employs a highly efficient round-bilge, bulbous-bow hull and displaces approximately one hundred ninety long tons. Endurance is assured by generous capacities, with fuel tankage of 10,000 gallons, fresh water of 1,500 gallons, grey water of 400 gallons, black water of 600 gallons, and dirty/lube oil of 100 gallons. Naval architecture and design are by Overing Yacht Designs, the interior is by Espinosa Inc. or at the owner's choice, and sound engineering is by Soundown Inc. or equivalent.

## **Construction**

---

Built on a foundation of strength and precision, the yacht features a solid laminate, vinylester-infused hull paired with a foam-cored, vinylester-infused superstructure, all finished in a high-quality Awlgrip coat that delivers enduring gloss and protection. Certified to RINA/MCA LY2 standards and subdivided into five watertight compartments, it embodies rigorous engineering for safety, resilience, and long-lasting performance at sea.

## **Engine room and major equipment**

---

The engine room showcases twin CAT C18 ACERT diesels, each delivering 715 HP at a max continuous "C" rating, mated to two Twin Disc MGX 5114 DC transmissions and governed by Twin Disc single-lever controls, with a custom water-drop exhaust system managing discharge. Electrical power comes from two 55 kW Northern Lights generators with InSep, supported by an Atlas transformer and dedicated battery chargers. Fuel management is comprehensive, featuring Racor fuel/water filters, an Alfa Laval fuel centrifuge, and a robust fuel transfer system. Safety and damage control are prioritized with integrated bilge and firefighting systems, an automatic fire extinguishing system, and Coast Guard-approved safety equipment, while waste

management is handled by a Headhunter MSD. Precision handling and comfort underway are ensured by a hydraulic bow thruster, TRAC STAR hydraulic stabilizers, and Kobelt hydraulic steering, with airflow and climate optimized by an engine-room blower system, an Aqua Air air-conditioning and heating system, and dedicated air conditioning for the engine room and machinery spaces. Utility systems include two air compressors, two freshwater pressure sets, two 1,200-gallon-per-day watermakers, and three hot water heaters. On deck, all hardware is crafted in 316L stainless steel and includes two Maxwell 6000 anchor windlasses, two Maxwell 4000 warping capstans, and a stainless anchor pocket housing two 185 kg SHHP anchors, each served by 300 feet of 5/8-inch stud-link chain to port and starboard, while a hydraulic passerelle provides effortless boarding.

## **Master stateroom & bath**

---

The master stateroom presents a full king-size bed flanked by built-in nightstands and a dresser, with cedar-lined closets illuminated from within for effortless organization. Natural light filters through fixed windows, complementing a built-in settee and a refined entertainment center featuring a 43-inch LCD TV. The en suite bath is appointed with his and hers custom vanities topped in marble with elegant lavatory bowls, Headhunter toilets, an oversized stall shower, an efficient exhaust fan system, custom mirrors, and recessed ceiling lighting. Comfort is assured by an AC/heat system with digital controls, while cohesive floor and wall coverings complete the space with a polished, luxurious finish.

## **Guest staterooms & bath**

---

The guest accommodations comprise one queen cabin and one twin cabin, each thoughtfully appointed with built-in nightstands and a dresser,

cedar-lined closets with lights, and generous drawer space integrated beneath the beds. Opening portlights invite sea breeze and natural light, while a built-in entertainment center with a 22" LCD TV provides effortless onboard leisure. Comfort is assured by an air-conditioning and heat system with digital controls, complemented by recessed ceiling lighting and refined floor and wall coverings.

The baths are finished with custom vanities and mirrors, marble tops with lavatory bowls, a Headhunter toilet, a shower, and an efficient exhaust fan system for optimal ventilation.

## **Captain's cabin**

---

The captain's cabin is a private retreat centered around a generous double bed, flanked by built-in nightstands and a dresser, with smartly designed drawer space built in beneath the bed to keep the room impeccably organized. A fixed portlight introduces natural light, while recessed ceiling lighting sets a refined ambiance. Productivity comes easily at the built-in desk, and relaxation is elevated by an integrated entertainment center featuring a 22-inch LCD TV. Cedar-lined closets with lights preserve wardrobe essentials in perfect condition.

Custom vanities with mirrors are topped with Corian countertops and an integrated lavatory bowl, complemented by a premium Headhunter toilet. The ensuite showcases an oversized stall shower and a dedicated exhaust fan system for optimal comfort. Climate is precisely managed by an air-conditioning and heating system with digital controls, and every surface is finished with carefully selected floor and wall coverings.

## **Crew quarters**

---

Thoughtfully appointed, the crew quarters provide one stateroom

accommodating two crew members, complemented by cedar-lined closets with integrated lighting and a Headhunter toilet for reliable, yacht-grade sanitation.

## **Crew galley**

---

Thoughtfully equipped for daily duties at sea, the crew galley incorporates a dedicated soaking sink for effortless prep and cleanup, paired with a washer and dryer to handle onboard laundry and keep the crew ready for every passage.

## **Crew lounge**

---

The crew lounge features a built-in settee and a built-in entertainment center with a 22-inch LCD TV, creating a comfortable and practical retreat for relaxation between duties.

## **Aft main deck**

---

The aft main deck invites effortless entertaining with custom built-in seating arranged around well-proportioned tables and complemented by loose chairs supplied by the owner. Just aft, a custom built-in bar elevates the experience with a dedicated soaking sink, a refrigerator, and an ice machine, ensuring refreshments are always at hand for every occasion.

## **Main salon**

---

Loose furniture supplied by the owner sets a bespoke tone, while a built-in entertainment center anchors the space with a 43-inch LCD TV. Recessed ceiling lighting casts a refined glow over thoughtfully selected floor and wall coverings. Comfort is ensured by an air-conditioning and heating system with

digital controls, providing effortless climate management throughout the salon.

## **Formal dining**

---

This dedicated dining space is anchored by a dining table and chairs supplied by the owner, inviting a personalized touch to every gathering. Fore and aft china cabinets offer generous, elegantly integrated storage for fine tableware, while recessed lighting in the ceiling sets a refined ambiance. Year-round comfort is ensured by an air-conditioning and heating system with digital controls, and thoughtfully selected floor and wall coverings bring a polished, cohesive finish to the room.

## **Main lobby & powder room**

---

A discreet coat locker welcomes guests into the main lobby, leading to a powder room where a vanity with mirror is complemented by granite countertops with a lavatory bowl. A Head Hunter toilet and an efficient exhaust fan system provide reliable performance and fresh airflow, while thoughtfully finished floor and wall coverings complete the space with refined elegance.

## **Galley**

---

The galley is appointed with custom mica cabinetry topped by Corian countertops and centered around a refrigerator/freezer with integrated ice and water dispenser. Culinary capability is elevated by two self-cleaning ovens, a microwave oven, and a surface range with exhaust hood, while a double stainless-steel sink with disposal, a dishwasher, a trash compactor, and an integrated food lift streamline preparation and service. Thoughtful storage is provided by two pantries, and task-ready illumination comes from

undercounter and overhead lighting. Climate comfort is ensured by an air conditioning and heating system with digital controls, and the space is refined with coordinated floor and wall coverings.

## **Pilothouse**

---

Command is effortless from a custom padded control console with an elevated helm station, complemented by a separate navigation center and full instrumentation. A Recaro helm chair delivers superb support, while a custom elevated settee and table keep guests comfortably engaged with the view. Visibility remains pristine in all conditions thanks to five windshield wipers and washers, and charts stow neatly in built-in drawers. After dark, recessed white and red lighting in the ceiling preserves night vision and refines the ambiance, while an air-conditioning and heat system with digital controls maintains perfect climate control. Thoughtfully finished floor and wall coverings elevate the space, as a custom Safety Panel and Monitoring System keeps vital information front and center.

## **Boat deck**

---

Designed for seamless tender operations, the boat deck provides chocks to secure owner-furnished nineteen- and twelve-foot tenders, complemented by one 3,000 lb hydraulic crane that delivers confident, effortless launching and retrieval.

## **Flybridge**

---

The flybridge is crowned by a custom canopy and mast, setting the stage for effortless open-air living. A fully appointed custom bar, complete with six stools, a refrigerator/freezer, and a stainless grill, anchors the social heart of

the space for refined entertaining at sea. Thoughtfully designed custom seating with plush cushions is paired with a convenient buffet, creating a seamless alfresco setting for lounging, dining, and taking in panoramic views.

## **Teak decks**

---

The swim platform, main deck, and decks one and two are meticulously covered with Burma teak, creating a seamless, warm surface underfoot that blends enduring durability with timeless nautical elegance.

## **Tenders**

---

Purpose-built chocks accommodate owner-furnished tenders measuring nineteen and twelve feet, securing them firmly for passage, while one 3,000 lb hydraulic crane delivers smooth, effortless launching and recovery.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
