# DETAILED DESCRIPTION

---

## Section name

---

This yacht represents a pinnacle of contemporary design and opulence, crafted to deliver an unmatched experience on the water. Outfitted with cutting-edge stabilizers, it promises a smooth and comfortable ride even through turbulent waters. The Garmin electronic suite, complete with radar, boosts navigational prowess, ensuring each journey is both safe and efficient. The refreshed teak deck adds a layer of sophistication and resilience to the yacht's exterior.

On the flybridge, ice makers are available, ideal for serving chilled drinks to guests while they take in the sweeping views. The salon is equipped with a wet bar, providing a welcoming venue for social gatherings. The yacht features a comprehensive JL Audio system with 18 speakers, offering an immersive auditory experience throughout the vessel. Entertainment options are abundant with the Sat TV HD7, which offers a variety of channels, complemented by Samsung flat-screen TVs in every area.

The interior has been meticulously updated with new carpeting in the salon, enhancing both the aesthetic and comfort. Furthermore, a new Samsung sound bar has been installed in the salon and master suite, delivering exceptional audio quality. For added security, a robust system of security cameras is installed, ensuring enhanced safety. This yacht flawlessly integrates luxury, technology, and practicality, making it a standout choice for those with discerning tastes.

## Accommodations

---

This yacht provides opulent accommodations for both owners and guests, comfortably hosting up to nine people across four beautifully designed

staterooms situated on the lower deck. These staterooms are easily accessible via a staircase that descends from the main foyer located amidships on the starboard side. The yacht includes a total of four bathrooms for owners and guests, along with a day head on the deck and two additional bathrooms for the crew. The master suite serves as a haven of tranquility, featuring a Jacuzzi and a separate marble shower, while the other bathrooms are equipped with stall showers. Each bathroom is outfitted with ceramic sinks, Microphor heads, mirrors, cabinets, and accessories, ensuring both practicality and elegance. Natural light streams through portholes, and exhaust fans help maintain a fresh environment. The luxury of marble enhances all floors and countertops, while lacquered wood or laminate embellishes the ceilings and walls, creating an atmosphere of sophisticated elegance throughout the yacht.

## Salon

---

The salon of this yacht is a sanctuary of opulence and relaxation, accessible via an electrically controlled glass door from the aft deck. Inside, two large, symmetrically designed plush sofas beckon guests to unwind and engage in conversation. A gracefully curved bar is situated amidships forward, adorned with a magnificent marble top that exudes sophistication. This wet bar is fully outfitted with an icemaker, a circular stainless steel sink, and generous storage to meet all your entertaining requirements. Positioned above and behind the bar, a 42-inch Samsung Plasma TV serves as the entertainment centerpiece. The salon's entertainment suite is extensive, featuring DVD and CD players, a satellite TV receiver, and a full BOSE surround sound system, delivering a captivating audio-visual experience. As you move forward from the salon, two electric glass doors provide entry to various sections of the yacht. The starboard door leads to the main foyer, which houses a day head, the staircase to the cabins, and a side exit door. Conversely, the port door opens into the formal dining room, ideal for hosting sophisticated dinners.

## Dining

---

The dining room aboard this yacht is crafted to blend sophistication with practicality, featuring a spacious table that comfortably seats guests. It is outfitted with cabinets and drawers tailored for cutlery storage, and it includes a full set of china and glassware for twelve, ensuring readiness for any formal dining event. The dining area is strategically linked to other sections of the yacht, with a sliding door at the front opening to the galley's companionway and an electric glass door at the rear leading to the salon, facilitating smooth transitions between areas. To enhance the atmosphere, the dining room is equipped with a Sony AM/FM stereo radio and CD player, offering the ideal soundtrack for your dining experiences.

## Galley

---

The galley on this yacht is a superbly equipped culinary area situated forward of the wheelhouse, offering easy access to the dining room, side deck door, and crew quarters. It features a 4-burner electric Gaggenau ceramic cooktop and a Miele convection oven, ideal for crafting gourmet dishes. A Whirlpool microwave and a double door Sub-zero refrigerator/freezer enhance the galley's practicality, while a Gaggenau dishwasher simplifies cleanup. The space is elegantly finished with granite countertops and includes two stainless steel sinks, along with generous cabinetry for storage.

Next to the galley, on the starboard side, is the crew's dining area, complete with a table and seating for four, providing a cozy spot for meals. This area is also fitted with a flat-screen TV with a satellite receiver, a radio/CD player, and a closed-circuit TV monitor, ensuring both entertainment and security. The galley is designed with a pantograph door that grants access to the port side deck, improving the flow and accessibility throughout the yacht.

## Master stateroom

---

The master stateroom serves as a lavish haven located amidships, featuring a king-size bed that ensures peaceful nights. It is tastefully appointed with two nightstands, a chest of drawers, a writing desk, and a vanity, offering plenty of space for personal belongings and relaxation. The room is equipped with a safe for valuables and includes a spring mattress with pillows and a bedspread for maximum comfort. The atmosphere is enriched by halogen ceiling lights and accent lighting along the sides and base of the bed. Entertainment is readily available with a 55-inch Samsung flatscreen TV, complete with a satellite receiver, a multi-system VHS, and a radio/stereo with a CD player.

The stateroom also features a walk-in closet, directly accessible from the cabin, which includes a wardrobe, drawers, and shelving for organized storage. The en-suite bathroom is a luxurious masterpiece, fully adorned with marble and featuring a Jacuzzi bath for ultimate relaxation. It is fitted with two ceramic washbasins, a toilet, cabinets, a mirror, an electrical exhaust fan, and a stall shower, along with various accessories to enhance your experience. This master stateroom is crafted to be a sanctuary of comfort and elegance, ensuring a sumptuous experience on the water.

## Vip stateroom

---

The VIP stateroom is an opulent and welcoming area situated at the front of the yacht, crafted to provide guests with a top-tier experience. It boasts a king-size bed with a spring mattress and plush pillows, all elegantly adorned with a bedspread. The room is thoughtfully furnished with two nightstands, wardrobes, and a chest of drawers, offering ample storage for personal items. The atmosphere is enhanced by halogen ceiling lights and accent lighting, creating a cozy and inviting environment. For entertainment, the stateroom is equipped with a TV featuring a satellite receiver, a multi-system VHS, and a

stereo with a CD player, ensuring guests have a wide range of media options. The en-suite bathroom is both practical and stylish, featuring cabinets, a mirror, a ceramic wash basin, and a toilet. An electrical exhaust fan maintains a fresh environment, while various accessories and a stall shower add to the convenience and comfort of the space. This VIP stateroom is designed to offer a tranquil and luxurious retreat for guests, ensuring their stay on the yacht is both comfortable and unforgettable.

## Guest stateroom 1

---

Guest Stateroom 1 is situated on the port side of the yacht, offering a comfortable and adaptable sleeping setup with two twin beds and an additional Pullman berth. The room is thoughtfully arranged with object holders on the wall beside the beds, providing convenient storage for personal items. It is furnished with a nightstand, a wardrobe, and drawers, ensuring ample space for belongings. The beds come with mattresses, pillows, and bedspreads, creating a cozy and inviting atmosphere. The stateroom is illuminated by halogen ceiling lights and accent lighting, creating a warm and welcoming environment. For entertainment, guests can enjoy a TV with a satellite receiver, a multi-system VHS, and a radio/stereo with a CD player. The adjacent bathroom is both practical and stylish, featuring cabinets, a mirror, a ceramic washbasin, and a toilet. An electrical exhaust fan maintains a fresh atmosphere, while various accessories and a stall shower add to the convenience and comfort of the space. Guest Stateroom 1 is designed to provide a pleasant and relaxing retreat for guests, ensuring a memorable stay on the yacht.

## Guest stateroom 2

---

Guest Stateroom 2 is situated on the starboard side of the yacht, offering a

comfortable full-size berth ideal for a peaceful night's rest. The room is thoughtfully arranged with object holders on the wall beside the bed, providing convenient storage for personal items. It is furnished with a nightstand, a wardrobe, and drawers, ensuring ample space for belongings. The bed comes with a mattress, pillows, and a bedspread, creating a cozy and inviting atmosphere. The stateroom is illuminated by halogen ceiling lights and accent lighting, enhancing the warm and welcoming environment. For entertainment, guests can enjoy a TV with a satellite receiver, a multi-system VHS, and a radio/stereo with a CD player.

The adjacent bathroom is both practical and stylish, featuring cabinets, a mirror, a ceramic washbasin, and a toilet. An electrical exhaust fan maintains a fresh atmosphere, while various accessories and a stall shower add to the convenience and comfort of the space. Guest Stateroom 2 is designed to provide a pleasant and relaxing retreat for guests, ensuring a memorable stay on the yacht.

## Pilothouse

---

The pilothouse of this yacht serves as a sophisticated command center, expertly crafted to ensure smooth navigation and control. The flooring, made from teak and holly, exudes a classic maritime charm. The area is well-illuminated with five courtesy lights on the steps leading to the bridge and six on the steps to the companionway, complemented by six recessed overhead lights. For ventilation and visibility, there are opening wing windows on both the port and starboard sides.

Safety and security are prioritized, with a Carne Security CS/Fire panel monitoring ten smoke alarm zones and two additional zones. The pilothouse is equipped with advanced navigation and communication systems, including a Furuno FCV-582L fish finder, Garmin radar, and a Link speed readout. Communication is facilitated by a Stephens Engineering Associates SEA 235

SSB radio and a Sony CDX-C5850R AM/FM radio with an MD compact disc changer control. A Panasonic KX-T7880 wireless telephone and charger ensure connectivity.

The control panel is comprehensive, featuring switches for the steering pump, horn, battery parallel, autopilot, and windlass. An ACR RCL-100 point pad searchlight control and a DELL computer navigation system, updated in 2008, enhance operational efficiency. Two MTU electronic displays provide critical engine data, while alarms for generator fuel filters, low fuel, and aft hatch open status ensure safety.

Navigation is precise with a Robertson R135 rudder angle indicator and a White Star compass, all controlled by a teak steering wheel. Engine audible alarms for both port and starboard sides, along with deepwell chart storage aft, add to the functionality. The pilothouse is equipped with a Barigo barometer, clock, thermometer, and hygrometer, providing essential environmental data.

The electrical panel board, located aft, offers readouts for generator volts and amps, shoreline volts and amps, and battery charge status, complete with indicator lights and breakers. A vessel schematic with seven alarm indicator lights ensures comprehensive monitoring. Access to the bridge is via five steps aft, while five steps port aft lead to the companionway, both equipped with overhead lights and smoke sensors.

The pilothouse features a vinyl overhead and Sony Xplod speakers on both port and starboard sides. Chart tables with lights are available on both sides, and communication is supported by a Panasonic KX-T7030 telephone/intercom. The Koopnautic fin stabilizer control panel offers precise control over roll and list compensation, with alarms for oil filter, oil level, and temperature.

A closed-circuit television monitor with a camera control panel enhances security, while a Link depth readout and Seahail loud hailer provide additional

navigational support. The DeltaNav intercom system and Marine Air air conditioning control panel ensure comfort and communication. The control panel includes switches for instrument lights, forward lights, trim tabs, and anchor, with trim position indicators for precision.

The MTU panel, located on both port and starboard sides, includes switches for safety system override, lamp test, dimming, alarm acknowledgment, emergency stop, engine start and stop, and operational readiness. A Dell computer auxiliary navigation system and a panel with alarms for the aft hatch and fuel levels provide additional safety measures. Four windshield wiper controls with washers, a Robertson AP20 autopilot, MTU electronic clutch/throttle controls, and a BCS bow thruster control ensure precise maneuverability.

Shelved storage alcoves on both port and starboard sides offer additional space, while a Barigo clock, thermometer, and hygrometer provide essential time and environmental data. The vessel schematic with navigation light indicator lights and a CS/Fire, Smoke Alarm panel complete the comprehensive suite of features in this expertly designed pilothouse.

## Fly bridge

---

The fly bridge of this yacht is a remarkable fusion of practicality and elegance, crafted to elevate your time on the water. It boasts a polished aluminum sun cover with full coverage and a movable sunroof, enhanced by LED lighting for a contemporary flair. The fiberglass deck features a nonslip surface, ensuring both safety and stability. The helm is shielded by windscreen and Isinglass enclosures, with a helm cover that includes an Isinglass panel for extra protection.

For navigation and control, the fly bridge is outfitted with trim position indicators on both port and starboard sides, along with a Multi Link readout. Safety is paramount, with two EV (Euro vinyl) 6-man offshore life rafts readily

accessible. The starboard side features cabinetry with a cover, containing a refrigerator, storage locker, bar top, sink, and two icemakers, making it ideal for entertaining.

The audio experience is enriched with a Clarion AM-FM system and new JL Audio speakers, delivering high-quality sound throughout the area. A stern light ensures visibility, while the Bimini top with boot, located forward at the radar arch, provides additional shade and protection. Access to the wheelhouse is made easy via a sliding door.

The fly bridge is equipped with TracVision HD7 for exceptional satellite TV reception, and the radar arch is adorned with six courtesy lights, enhancing the ambiance. Port and starboard switches allow for emergency stop, engine start and stop, and remote operation, ensuring ease of control. A comfortable bench seat on the port side, complete with cushions, storage, and a cover, is paired with a mounted table with a cover, creating an inviting aft sun lounge area. This fly bridge is designed to offer a luxurious and enjoyable experience, making every moment on the yacht unforgettable.

## Flybridge and helm station

---

The flybridge and helm station of this yacht are outfitted with cutting-edge technology to deliver an exceptional navigation experience. Central to the system are the latest Garmin devices, including the Garmin GPS map 741xs and the new Garmin radar, which offer precise and dependable navigation data. Complementing these is the Furuno radar repeater, equipped with a hard cover for added protection. The helm station features trim position indicators on both port and starboard sides, along with a Multi Link readout for comprehensive monitoring.

A VEI computer monitor is connected to the ship's computer and Nobletech Navigation software, providing advanced navigational capabilities. Safety features include an emergency stop for the fin stabilizers and a Robertson

R135 rudder angle indicator, ensuring precise control. The Robertson AP20 autopilot further simplifies navigation.

The Landucci Federigo panel includes switches for essential functions such as the horn, instrument lights, forward lights, autopilot, windlasses, trim tabs, battery parallel, and steering pump. MTU electronic clutch/throttle controls are available at both port and starboard steering stations, offering smooth and responsive handling. The helm and companion bench seats are designed for comfort, each equipped with cushions, covers, storage, and throw pillows.

Navigation is further supported by a White Star compass, and MTU engine switches on both port and starboard sides allow for safety system override. The MTU tachometer provides accurate engine data, while the ACR RCL-100 point pad searchlight control and BCS bow thruster control jog enhance maneuverability. Hinged controls and a teak steering wheel add to the classic maritime feel.

Additional features include windlass switches on both port and starboard sides and a battery parallel switch, ensuring comprehensive control over the yacht's systems. This flybridge and helm station are designed to provide a seamless and enjoyable experience, making every journey on the yacht exceptional.

## Foredeck

---

The foredeck of this yacht is an exquisitely designed area, balancing functionality with relaxation. It boasts a teak deck that adds elegance and resilience. For communication and signaling, an RCF hailer/horn is installed, ensuring clear communication when necessary. The deck includes a hose connection on the port side at the bow, offering convenience for maintenance and cleaning.

The foredeck is equipped with bow bullard type cleats on both port and starboard sides, providing secure mooring options. Two Lofrans Ercole anchor

windlasses are installed, ensuring reliable anchoring. A flagstaff at the bow is fitted with an anchor light, enhancing visibility and safety.

For relaxation, a teak grate bow seat is available, offering a comfortable spot to enjoy the view. The chain locker is equipped with a fire hose connection and chain wash, ensuring safety and cleanliness. The bow fairlead features two vertical and one horizontal roller, facilitating smooth line handling.

Access to the chain locker is through a hatch, and the deck is equipped with wildcats featuring horizontal capstans on top, enhancing anchoring operations. For entertainment, two new JL Audio speakers are installed on the forward sunpad, providing high-quality sound for an enjoyable experience on the foredeck. This area is thoughtfully designed to combine practicality with leisure, making it a perfect spot to enjoy the open sea.

## Aft deck

---

The aft deck of this yacht is a masterfully crafted area that seamlessly blends luxury with practicality, ideal for both relaxation and entertainment. The deck is elegantly finished with teak, offering a timeless and resilient surface. For an immersive audio experience, the space is outfitted with six JL recessed overhead speakers, with four positioned above and two on the port and starboard sides. Eight courtesy lights illuminate the stairwell leading to the bridge, enhancing both safety and ambiance.

A cozy bench seat with cushions and a cover is placed athwartship aft, complemented by a mounted teak table with a cover, creating an inviting setting for dining or socializing. The Pin-craft control panel for the passarelle ladder is conveniently located starboard aft, while a step light switch is positioned port aft for easy access.

The aft deck features horizontal lockers on both port and starboard outboard aft, each equipped with a stern cleat, Lofrans warping winch, capstan, and

water fill, ensuring all necessary equipment is readily available. A wet bar on the port side includes a stainless steel sink with hot and cold water faucets and two storage lockers below, perfect for serving refreshments.

Access to the engine room is provided via a Panagraph door on the port side. The deck is well-lit with eleven recessed overhead lights and includes a recessed overhead hailer horn for communication. An eight-step stairwell to the bridge is located starboard, and an automatic sliding door provides seamless entry to the salon.

For safety, a fire hose connection is available starboard at the bench seat, and an awning control panel is located port aft for the overhead recessed awning. Stainless steel gates at the entrance to the transom steps on both port and starboard aft ensure secure access. Vertical lockers on both sides include foot switches to the warping winch, and two storage lockers on the starboard side, one with an electrical outlet, offer additional storage solutions.

The aft deck also features a swim platform with a swim ladder and hot and cold shower, perfect for enjoying the water. Two video cameras provide added security, and a Clarion AM/FM/BLUETOOTH CMS4 system ensures high-quality audio entertainment. This aft deck is designed to offer a luxurious and practical space for enjoying life on the water.

## Deck equipment

---

The deck equipment on this yacht is carefully crafted to combine functionality with elegance, offering everything necessary for a flawless maritime journey. Central to the anchoring system are two Lofrans Ercole 24V windlasses, each delivering 3500 watts of power, paired with two 105kg Posidonia anchors, ensuring secure mooring in diverse conditions. The deck is fitted with a foldable Bimini top, providing shade and protection from the elements. Constructed from AISI 316 stainless steel, the yacht includes six fairleads and

six cleats, offering strong and dependable mooring options. The stainless steel handrail and teak cap rail add a touch of sophistication, while the fiberglass and teak hatch to the chain locker ensures easy access and durability. The deck is further enhanced by three heavy-duty airplane-type doors, providing secure and convenient access throughout the vessel.

For easy boarding, a hydraulic passarelle with stanchions and remote control is available, along with a hydraulic door on the transom leading to the lazarette. Two boat hooks and an air horn are included for added convenience and safety. The wheelhouse is equipped with a stainless steel and laminated glass windshield, while the portholes and windows are made from stainless steel and tempered glass, ensuring both durability and style.

The deck also features two 110V/2000 watt recessed Sanguineti capstans and two galvanized zinc-plated anchor chains, each 415 feet long, providing reliable anchoring capabilities. A 600 kg capacity hydraulic crane is available for handling equipment and tenders. The fiberglass and stainless steel rub rail, along with the teak deck, enhances the yacht's aesthetic appeal.

For relaxation, forward sunbathing cushions with fasteners are provided, and two bulwark doors with rail gates offer easy access to the sides. The fiberglass swim platform with a teak cover provides an ideal spot for enjoying the water. Ten polyethylene fenders and mooring lines ensure secure docking, while two 8-person inflatable life rafts offer safety in emergencies.

A video camera with a monitor is installed in the wheelhouse and crew mess, enhancing security and monitoring. The deck equipment of this yacht is designed to provide a luxurious and efficient experience, ensuring every journey is both safe and enjoyable.

## Crew quarters

---

The crew quarters on this yacht are meticulously crafted to ensure both

comfort and practicality for the crew, providing a pleasant living space. This area consists of three distinct rooms, including a dedicated captain's cabin. The captain's cabin features an ensuite bathroom, a single bed, a closet, a dresser, a safe, a night table, and a reading lamp, creating a private and cozy retreat for rest and relaxation.

Beyond the captain's cabin, there is a crew cabin with two beds, a closet, drawers, and reading lamps, offering ample space for crew members to relax. The third cabin is equipped with a double bed, providing additional sleeping arrangements. These two cabins share a spacious bathroom, well-equipped with a cabinet, mirror, washbasin, toilet, electrical exhaust fan, and a stall shower, ensuring convenience and comfort.

Each of the three cabins is fitted with its own flat-screen TV with a satellite receiver and a radio/CD player, allowing crew members to enjoy entertainment in their personal quarters. The finish of the crew quarters aligns with the high standards of the rest of the yacht, ensuring a cohesive and luxurious aesthetic throughout. Additionally, a Miele washer and dryer are available, offering essential laundry facilities for the crew. These crew quarters are designed to provide a comfortable and efficient living environment, supporting the crew in their daily tasks and enhancing their overall experience on board.

## Electrical equipment

---

The electrical systems on this yacht are meticulously crafted to guarantee safety, efficiency, and smooth operation throughout your voyage. The setup includes warning lights and alarms for navigation lights, offering essential alerts to ensure safe passage. Battery charge and discharge are carefully monitored, ensuring the power supply remains optimal and long-lasting. Control switches and warning lights are installed for the anchor windlass, flybridge crane, and fire pump, allowing precise operation and immediate alerts if any issues occur. An emergency stop feature is available for the fuel

transfer pump and engine room fans and blowers, enhancing safety during critical situations.

The yacht is equipped with synoptic panels that monitor alarms for navigation lights, bilge water, sump tanks, and holding tanks, providing a comprehensive overview of the vessel's status. An automatic fuel shut-off system and a centralized bilge system further enhance safety and efficiency.

Communication is facilitated by an intercom and telephone system throughout the yacht, ensuring seamless connectivity. The control of the 220V supply is managed with a digital voltmeter and amp meter, along with start/stop and load control for both generators. The yacht is powered by two 32 KW KOHLER generators, with operational hours of 7289 and 6449, respectively.

Control switches and warning lights for automatic bilge pumps, as well as switches for various 220V and 24V users, are strategically placed for easy access. Circuit breakers are related to various areas, ensuring safety and reliability. The CO2 fire system and fire alarm provide essential fire safety measures, while the fresh water system ensures a reliable supply of water on board.

Additional features include a hailer for communication and alerts. This comprehensive electrical equipment setup is designed to provide a safe, efficient, and enjoyable experience on the water, ensuring that all systems operate smoothly and effectively.

## **Additional details**

---

The yacht boasts an array of luxurious features and amenities that elevate both comfort and functionality. In the salon, a wet bar complete with an ice maker offers a perfect spot for entertaining guests. Beneath the elevated pilot house, there is an additional freezer and refrigerator, providing ample storage for supplies during long journeys. The yacht also includes two washers and

dryers, ensuring essential laundry facilities for extended stays on board.

On the flybridge, a Gaggenau barbecue, refrigerator, sink, and ice maker create an ideal setting for alfresco dining and relaxation, allowing guests to savor meals with a view. The central vacuum system throughout the yacht ensures effortless maintenance and cleanliness, maintaining a pristine environment.

The yacht's interior is elegantly finished with furniture and bulkheads made from lacquered wood, available in both gloss and satin finishes. The floors and countertops in the galley and bathrooms are adorned with marble or granite, adding a touch of luxury and durability. These materials are also used on the tops of the bars and in high-traffic areas, ensuring both style and resilience. These additional details underscore the yacht's dedication to providing a sophisticated and comfortable experience for everyone on board.

## Engine room

---

The engine room of this yacht is strategically positioned in the aft section, housing the robust MTU main engines with V-drive gearboxes. These twin MTU 16V2000M90 engines deliver an impressive 1800 horsepower, ensuring strong performance and reliability. The engine room also contains two 32 KW KOHLER generators, with operational hours of 7289 and 6449, respectively, providing ample power for all onboard systems.

The main electrical switchboard, engine and service batteries, and all air conditioning machinery are also located in this area, ensuring efficient operation and maintenance. Access to the engine room is conveniently provided from the main deck through a waterproof door and ladder, ensuring safety and ease of entry.

Aft of the engine room is the lazarette, which can be accessed directly from the platform through a hydraulic door or from the engine room itself. This versatile

space can accommodate the cable master, emergency steering wheel, Atlas converter, and can even house a small jet ski, motorcycle, or be used as a gym. Currently, the garage contains the Atlas system, shore cords, an eight-step boarding stair, boarding ladder, and swim ladder.

The ZF transmissions, model BW255VP with a ratio of 2:536:1, complement the main engines, ensuring smooth and efficient power transfer. The engine room has recently undergone a 3000-hour service, ensuring that all systems are in optimal condition. This well-equipped engine room is designed to provide reliable and efficient performance, supporting the yacht's operations and enhancing the overall experience on board.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
