wakeboard and one junior wakeboard, two inflatable paddle boards, one three-person towable tube, one floating island, fishing equipment, snorkeling sets, beach umbrellas and chairs, and an assortment of beach toys. Underway, performance and comfort are assured by twin MTU engines delivering approximately 2,400 HP in concert with ABT TRAC stabilizers for poise both underway and at anchor, while navigation and monitoring are equally advanced with Raymarine displays, radar, autopilot, AIS, and Cantalupi vessel monitoring. In 2023, an impressive two million dollars in upgrades were completed, including Starlink internet for reliable connectivity at sea, seamless integration with Boning monitoring systems for real-time vessel insights, the full refresh of interior and exterior soft goods, a comprehensive AV system upgrade, and the removal of domes to refine both capability and profile.
