OVERVIEW

All Ocean Yachts is broadening its range of composite-crafted Explorer Yachts. The All Ocean Yachts Overing 105' RPH Explorer is set to be constructed by the acclaimed NISI Shipyard Group, adhering to Class and MCA standards.

The President of All Ocean Yachts expressed his enthusiasm about partnering with these exceptional teams to introduce the inaugural model of this new series to the yachting community.

With All Ocean Yachts' extensive experience in crafting Explorer yachts, combined with the design prowess and hull efficiency innovations from Overing Yacht Design, and the award-winning creativity of the NISI Shipyard Group, this presents a remarkable opportunity for those looking to buy a yacht of superior quality.

The new 105' Explorer boasts numerous advanced features that genuinely enhance the owner's experience during long voyages, unlike the mere novelties often found on yachts today. The boat deck is spacious enough to hold a large tender for fishing or diving, along with various other recreational equipment. It also includes a lower service deck and an impressive layout of four guest staterooms.

The yacht's specifications are comprehensive, with equipment selected from leading international suppliers renowned for their dependability and customer service. If you're considering yacht sales in the current boat location, this vessel is a prime choice.
