## OVERVIEW

---

A state-of-the-art helm station equipped with bow and stern thrusters, active fin stabilizers and upgraded navigation electronics ensures secure, effortlessly smooth passage. The superstructure and hull received a complete Awlgrip repaint in 2014 and continue to shine as if new. White Lotus VIII has been meticulously cared for since launch by a dedicated full time crew, maintained to an immaculate, shipshape standard.

A superb choice for those seeking a tri deck motor yacht, luxury motor yacht, superyacht, flybridge yacht or blue water cruiser—graceful, capable and utterly refined.

# DETAILED DESCRIPTION

---

## Hull and superstructure

---

Sculpted in CCP 953WN099 gelcoat in a pure white tone and laid up entirely by hand, the hull presents a modified V bottom that blends poise with performance, its single skin bottom stitched in multi axial reinforcement and skinned with vinylester resin to deliver superior blister resistance while hull topsides employ foam sandwich construction with ATC Corecell PVC foam vacuum bagged for both strength and lightness, and transverse and longitudinal stringers are glassed into the bottom as the interior of the hull bottom is finished in gelcoat to a flawless standard; the deck is a foam core composite and hull and deck are both bolted and laminated together in fiberglass to form a single rigid structure beneath a teak deck surface that sets the tone underfoot, with below water protection ensured by International Epoxy osmosis protect primer, a black standard anti fouling bottom paint specified for the President 107' Triple Deck Mega Yacht, and a matching black standard hull boot stripe that completes the polished exterior presentation.

## Electrical equipment

---

Shore power arrives with authority via two Glendinning CM-8/24V (100AMP) Cablemaster shore power cable winders and two 90 foot yellow vinyl jacketed shore power cables, supported by two Charles ISOBOOST 100AMP transformers and one 50A unit, all feeding comprehensive AC and DC circuit control breakers and a combo AC/DC meter with two current sensors, while navigation and signaling are assured with five Aqua Signal navigation lights and a Kahlenberg D-1 dual horn driven by the KA-500 air compressor; power storage is both abundant and organized with eight 255AH sealed maintenance free batteries in FRP battery boxes serving 24V service, two

105AH sealed maintenance free batteries in FRP battery boxes supporting 12V service, four 210AH sealed maintenance free batteries in FRP boxes for engine starting, and two 105AH sealed maintenance free batteries in FRP boxes dedicated to the generator, and safety and autonomy are heightened by five automatic 24VDC bilge pumps with automatic float switches, indicator lights and alarm system plus a full bonding system with zinc anodes on the transom; charging and conversion are handled by DOLPHIN #299716 24VDC/80A and DOLPHIN #299715 12VDC/20A battery chargers complemented by two Trace SW4024MC2 inverter/chargers with 50 foot interface cable, while comfort and communication are built in with four intercom stations, stereo wiring for fourteen speakers and two Ritchie SS5000 flush mount compasses all wired through a clean, color coded system; practical controls include on/off switches for engines and generator and an emergency parallel switch linking engines and the service battery bank, and the vessel is equipped with three Exalto wipers, six 24VDC engine room lights, six 120AC fluorescent lights, an ACR RCL-100 remote control searchlight and a trio of Par 45900-0001 floodlights mounted in the aft deck overhead, CCTV coverage for the aft deck, swim platform and engine room viewable on navigation displays at both flybridge and pilothouse, four engine room blowers, two 30 US. Gals water heaters with heat exchangers, and a fully fitted helm integrating FURUNO NAVnet System MU-17c, Radar FR-8062, GPS GP-3500, SIMRAD Auto pilots AP-24, FURUNO MULTI Display RD-30, NAVE Tex Receiver NX800, Satellite Compass SC-50, Facsimile PP510, VHF Radio FM-8800D and a SANSHIN remote control searchlight HRX-150.

## Mechanical

---

Engineering confidence comes standard with two Racor 75/1000 MAX dual fuel filters for the engines and two Racor 75/900MAX dual fuel filters for the generator as specified for the President 107' Triple Deck Mega Yacht, the

underwater exhaust system with idle bypass mufflers keeps operation refined while hydraulic power steering ensures fingertip control and a single manual bilge pump adds redundancy to an extensive pumping suite complemented by bronze sea water strainers and bronze thru hull fittings paired with stainless steel struts for longevity below the waterline; onboard services are robust with a hot and cold water pressure system, three stainless steel 316 fresh water tanks with gauges, aluminum fuel tanks painted with anti rusting paint, and the Headhunter fresh water pressure system employing two AC pumps and one DC pump to feed two fiberglass holding tanks with lever indicators discharged by two macerator pumps or treated by the Hamman waster treatment system super mini 24V, shore convenience arrives via dual shore water connections and four bilge water level detectors monitor vigilantly, propulsion finesse is delivered by Glendenning EEC-3 electric engine controls, each head benefits from its own blower and a Y valve supported by three sump tanks with pumps, and safety is built in with an engine room fire detector, a Reverso GP705 oil change system for main engines and generators and a Fireboy MA2-2500-FM200 fire extinguishing system with both manual and automatic discharge, all mounted on stainless steel engine footings.

## Fly bridge

---

On the fly bridge a fiberglass radar arch crowns the space with three 24VDC lights while the teak deck surface creates a timeless scene for entertaining at the double counter wet bar with stainless steel sink and ice maker/refrigerator, relaxing behind a tinted venture windshield with grab rail and commanding from a molded instrument console with complete instrumentation, Glendinning EEC-3 electric engine controls and a stainless steel steering wheel; seating is arranged with one Pompanette single hi lo pilot chair plus generous bench seats with vinyl cushions and storage beneath alongside a fiberglass table, sound carries crisply through two

waterproof speakers and one intercom and a 120VAC receptacle is specified for the President 107' Triple Deck Mega Yacht, while eight courtesy lights warm evening ambiance and a fresh water washdown faucet stands ready, the space is prepped for outdoor cuisine with cabinet and wiring for B.B.Q. and a refrigerator with ice maker, security and utility are assured with stainless steel stanchions and railing, a hydraulic davit rated to 600 KG and a radio with CD player that provides the soundtrack to open air cruising.

## Pilothouse

---

From the pilothouse a stainless steel access door opens aft to its private deck while the main station features complete instrumentation, a wooden and stainless steel steering wheel and two Pompanette single high pilot chairs, with side doors on port and starboard connecting directly to the exterior side aisles for swift deck access and an inviting L settee with table, generous lockers and cabinets and a refrigerator with ice maker making this command space equally suited to passage making or respite; illumination is elegant with 120VAC recess lights and four 120VAC outlets, swivel steps lead gracefully to the main deck and climate is precisely managed by 24,000btu air conditioning dedicated to the pilothouse.

## Master stateroom - upper deck

---

A stainless steel automatic access door connects the suite to the pilothouse rear deck and a walk around king size berth with ample storage below welcomes owners with a bench in front, night tables with two drawers on both sides of the berth framing the space alongside a large hanging locker and a private door to the head; lighting blends function and mood with four 24VDC lights and ten AC lights while four AC receptacles add practical convenience, a storage counter spans the starboard side dressed with Hunterdouglas style

blind shape curtains for the windows and a matching curtain for the access door, and entertainment rises on cue with a 42" LCD TV on a concealed hi lo electric lifter within the counter paired with a DVD player as personalized climate control completes the comfort with dedicated air conditioning.

## Master head - upper deck

---

The private master head features a medicine cabinet with mirror, one Headhunter super bowl toilet and a marble cabinsole underfoot, with illumination from six 24VDC lights and two AC receptacles to serve grooming essentials while a granite countertop with basin and single lever faucet anchors the vanity and a stall glass shower with granite floor adds a spa like finish.

## Aft pilothouse deck

---

Aft of the pilothouse the deck is outfitted with one flag pole socket and one six foot teak ensign flag set atop a teak deck floor where guests can entertain around a teak hi lo table of four foot diameter with four teak chairs before flowing seamlessly between levels via fiberglass stairs leading down to the aft deck and up to the aft fly bridge deck beneath an extended hard top carried elegantly by stainless steel pipe supports  $\psi 5\frac{1}{2}$ ".

## Sideecks and foredeck

---

Forward, twin stainless steel navy anchors of one hundred sixty pounds each nest on twin stem head rollers with automatic anchor launch facility, each rove with two runs of 1/2" HT chain at three hundred feet, while two mooring bollards forward with rope fairleads, a rub rail with stainless steel trim and six stainless steel hawse pipes with spring cleats make handling effortless; one

chain locker with fiberglass hatch keeps gear tidy, fiberglass window frames with seamless tempered glasses deliver clarity, washdowns are convenient with one fresh water faucet and one raw water faucet and flags fly proudly from one flag pole socket with one three foot teak ensign flag, the teak deck is edged by 316 stainless steel stanchions and handrails atop the bulwark and ground tackle is powered by two Maxwell VWC - 4500HYD windlasses with hand held controls and chain counters, while storage lockers swallow fenders and ropes and a forward U shape cushion seat with a hi lo table converts to an indulgent sun bathing cushion.

## Aft deck

---

A sweeping teak deck floor extends beneath an enlarged hard top carried on stainless steel pipe supports  $\psi 5\frac{1}{2}$ " where handling aft lines is easy with two stainless steel mooring cleats and two stainless steel hawse pipes with rollers assisted by two Maxwell VC2200 vertical electric winches and an automatic stainless steel frame sliding door opens to the salon while on deck both one fresh water and one raw water washdown faucet and a transom shower with hot and cold water stand ready; two stainless steel swivel doors on both sides lead down to the aft body swim platform with fiberglass stairs descending from the aft deck to the swim platform and ascending to the aft pilothouse deck, utilities include one 120VAC GFCI waterproof receptacle, ten hard top lights and six 24VDC courtesy lights plus two fiberglass bulwark side doors and 316 stainless steel stanchions and handrails atop the bulwark, comfort comes via a fiberglass bench with vinyl cushions aft, an access door to the crew quarter and engine room from the port forward aft deck, a wet bar with covered sink and refrigerator/ice maker and an oval teak table on two stainless steel fixed stands, and at the water's edge five sets of 316 stainless steel stanchions and handrails frame the swim platform.

## Interior

---

The atmosphere within is serene and refined: every berth is dressed with a mattress, bottom sheet, top sheet and bedspread set against walnut wood interior wall coverings with satin finishing while underfoot a varnished marine plywood cabinsole is layered with standard carpeting throughout except in the galley, crew quarter, pilothouse and heads where practicality reigns; the crew quarter enjoys a teak cabinsole, ceilings are upholstered in clean vinyl and privacy is assured with Hunterdouglas style blind shape curtains.

## Forward dinette

---

At the forward dinette storage lockers and cabinets frame an art wall ahead of the seating where a U shape dinette with fabric cushions embraces two tables beneath elegant 120VAC recess lighting and power is close at hand with two 120VAC receptacles specified for the President 107' Triple Deck Mega Yacht as movement to the side decks is effortless through two pantograph side doors.

## Galley

---

The galley is a chef's ally with an electric cooktop, built in electric single oven and microwave, a side by side refrigerator and a dishwasher while cleanup is simple with a trash compactor and disposal and vintages rest perfectly in the wine cooler; a stainless steel double sink with single lever kitchen faucet crowns the granite countertop with task lighting from 120VAC lights and power from three 120VAC receptacles, drawers organize essentials and dedicated air conditioning keeps the workspace perfectly tempered.

## Day head

---

The day head presents a medicine cabinet with mirror, a Headhunter super bowl toilet and a granite cabinsole where art corner shelves add flair and lighting can be 24VDC or 120VAC while power comes via one 120VAC receptacle and a granite countertop with basin and faucet completes this polished space.

## Salon and dining

---

The salon invites relaxation with a carpeting salon cabinsole, a fifty inch Plasma TV on a remote lifter and a stereo and DVD player, all set beneath 24VDC or 120VAC lights with four 120VAC receptacles for convenience while seating includes one L shape settee with a lamp counter and table plus one arm chair and the dining area hosts a dinette table with eight chairs, display and storage unite in an art cabinet on the forward side with storage beneath and refreshments are always at hand at the double granite counter wet bar with ice maker/refrigerator as an automatic stainless steel frame sliding door opens to the aft deck and climate is unwavering with 32,000 BTU air conditioning specified for the President 107' Triple Deck Mega Yacht.

## Vip stateroom forward

---

Forward, the VIP stateroom features a berth with storage beneath, two hanging lockers, two stainless steel frame opening portlights and a private door to the head with lighting selectable between 24VDC or 120VAC, two 120VAC receptacles and ample drawers while comfort is assured by 12,000 BTU air conditioning and entertainment comes via a 26" LCD TV in a teak fixed frame.

---

## Vip head forward

---

The VIP head offers one medicine cabinet with mirror, a Headhunter super bowl toilet and a granite cabinsole with selectable 24VDC or 120VAC lighting, power at one 120VAC receptacle and a granite countertop with basin and faucet plus a stall shower with a granite floor.

---

## Starboard guest stateroom

---

To starboard the guest stateroom provides twin berths with storage under, one hanging locker, two stainless steel frame opening portlights and a private door to the head with a night table between the twin berths, selectable 24VDC or 120VAC lighting, two 120VAC receptacles and 12,000 BTU air conditioning cultivating comfort while a 26" LCD TV in a teak fixed frame adds entertainment.

---

## Port guest stateroom

---

To port the guest stateroom features a double berth with storage under, one hanging locker, two stainless steel frame opening portlights and a private door to the head with night tables on both sides of the berth, selectable 24VDC or 120VAC lighting and two 120VAC receptacles specified for the President 107' Triple Deck Mega Yacht while 12,000 BTU air conditioning and a 26" LCD TV with teak fixed frame seal the experience.

---

## Port and starboard guest head

---

Both guest heads are appointed with one medicine cabinet with mirror, a Headhunter super bowl toilet, a granite cabinsole and one stainless steel frame opening portlight with lighting 24VDC or 120VAC, one 120VAC receptacle

and a granite countertop where a basin with faucet serves the vanity and each includes a stall shower with a granite floor.

## Lower foyer

---

The lower foyer is practical and polished with a washer and dryer, 24VDC or 120VAC lights and an art wall with two painting lights and a pull out shelf making everyday tasks effortless and elegant.

## Master stateroom

---

The full beam master stateroom centers on a walk around king berth with storage beneath flanked by night tables with two drawers on both sides and one walk in hanging locker, while two private doors to the head and four stainless steel frame opening portlights enrich livability; lighting is selectable between 24VDC or 120VAC, three 120VAC receptacles and plentiful drawers provide utility, and along starboard a side counter with two seats and a fixed table invites quiet moments with curtains dressing both side port holes for privacy.

## Master head

---

The master head is richly appointed with a medicine cabinet, mirror and two Headhunter super bowl toilets, a granite cabinsole and two stainless steel opening portlights with lighting 24VDC or 120VAC and two 120VAC receptacles enhancing utility, a granite countertop supports twin basins with faucets and the suite culminates in a stall shower with a granite floor and a Jacuzzi tub.

## Crew cabin

---

The crew cabin optimizes space with upper and lower berths, one hanging

locker and drawer storage under the lower berth plus a private door to the head, one stainless steel frame opening portlight, selectable 24VDC or 120VAC lighting, one 120VAC outlet and 8,000 BTU air conditioning that ensure comfort off watch.

## Crew head

---

The crew head features one medicine cabinet with mirror, Headhunter royal flush toilets and a stall shower with a fiberglass non skid floor where lighting is 24VDC or 120VAC, power arrives via one 120VAC receptacle and a granite countertop with basin and faucet completes the space.

## Captain cabin

---

The captain's cabin provides a double berth with storage under, a counter with drawers and shelves and one hanging locker plus a private door to the head, one stainless steel frame opening portlight, selectable 24VDC or 120VAC lighting, one 120VAC outlet and 8,000 BTU air conditioning to ensure the skipper's comfort.

## Captain head

---

The captain's head mirrors the crew's with one medicine cabinet with mirror, Headhunter royal flush toilets and a stall shower with a fiberglass non skid floor where lighting may be 24VDC or 120VAC, one 120VAC receptacle is provided and a granite countertop with basin and faucet completes the arrangement.

## Crew galley

---

The crew galley is warmly finished in teak veneer wall coverings and a teak

floor with one stainless steel frame opening portlight and two 120VAC receptacles, a granite countertop hosting a stainless steel sink with faucet, lockers for storage and a dinette seat with cushion and a fixed teak table for welcome breaks, a pantograph access door leads to the swim platform and an S/S frame watertight engine room access door is adjacent while climate is ensured by 8,000 BTU air conditioning and appliances include a refrigerator, cooktop and microwave.

## Utility room

---

In the utility room teak stairs rise to the aft deck above a teak floor with a washer/dryer set to port and an electric panel locker for ship's services, two 120VAC receptacles stand by and a lower counter locker keeps essentials neatly stowed.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
