OVERVIEW

A dynamic and sporty essence, an exquisitely chic aesthetic, generous spaces, sophisticated and customizable interiors, along with cutting-edge technology: a planing maxi yacht like the Custom Line 108' embodies all these attributes. Most importantly, it showcases a modern and innovative approach to life at sea. The 108' inherits the legacy of one of the most celebrated vessels ever crafted by Custom Line—a brand renowned for its expertise in creating fiberglass yachts ranging from 28 to 38 meters, available in both planing and semi-displacement categories. This yacht seamlessly merges unparalleled elegance, style, and a distinctly athletic spirit. The Custom Line 108'—a remarkable collaboration between the Ferretti Group's Engineering Department and Studio Zuccon International Project—immediately draws the eye with its sleek, elongated, and perfectly proportioned lines. Its silhouette is defined by the striking design of the superstructure and expansive glazing, which is further accentuated by the glass surface at the elevated helm station. The hull windows of the four VIP cabins are particularly noteworthy, featuring a unique rectangular design; each window spans approximately 1.70 square meters, devoid of a fiberglass frame, and is finished with a flush-glued double porthole. Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that exemplifies luxury and performance. This yacht for sale is a testament to the art of yachting, perfect for those seeking an extraordinary maritime experience.
