OVERVIEW

Aldebaran III, hull number five of the renowned Pershing 108 series, is a 33.2 m GRP planing superyacht born of Italian craftsmanship and delivered in late 2018. Under single ownership and showing scant engine hours after careful wintering, she presents in virtually new condition. Her performance is defined by triple Arneson surface propulsors driven by MTU engines, producing a 42 kn flat out top speed and a relaxed 37 kn cruise, a performance that ranks her among the fastest 5% of superyachts worldwide. EU VAT is settled, and with RINA commercial class potential she offers immediate, turn key Mediterranean sport yacht cruising for private use or luxury charter.

DETAILED DESCRIPTION

Detailed description

A sleek high performance Italian thoroughbred, Aldebaran III is a Pershing 108 series, 33.2 m GRP motor yacht built by Pershing in Italy and delivered in late 2018. With just one owner, low engine hours and meticulous annual winter servicing she presents in like new condition, having been drained, overhauled and polished each year in a purpose built hall. With EU VAT paid status and charter class potential under RINA, she is turnkey ready for Mediterranean cruising and immediately available to a discerning owner or charter operator. Her propulsion package of triple surface drives paired with MTU powerplants produces exhilarating performance: a top speed of 42 kn and an effortless cruising speed of 37 kn, placing her among the top five percent globally for speed in her class. This configuration delivers an impressive range while maintaining notably low noise levels, and a shallow draught of approximately 1.8 m unlocks secluded bays and anchorages that define the most coveted Mediterranean cruising grounds.

The exterior is unmistakably Pershing, the elegant lines by Fulvio De Simoni translating into a sporty open yacht silhouette over a planing deep V hull, with teak decking and a lightweight GRP hull and superstructure that maximise performance. Expansive sunpads crown both the bow and the flybridge, the cockpit lounge is served by a wet bar, and a concealed hatch leads to a garage housing a Williams tender and two Sea Doo's. The metallic Anniversary Silver paintwork enhances her striking presence with a refined, modern sheen.

Inside, contemporary elegance defines every cabin and the full beam, open plan main salon is framed by vast windows that flood the interior with natural light and panoramic views. Neutral tones, premium materials and contemporary furnishings create a sophisticated ambiance across

accommodation for up to eight guests in four well appointed cabins: a full beam master suite, a luxury VIP suite, a double and a twin cabin. The port side guest cabin has been converted into a gym, with the original furnishings carefully stored for effortless reconfiguration; each suite features an en suite bathroom, an entertainment centre and a television. The galley is fully equipped with modern appliances and the dining area comfortably seats all guests, while the open plan saloon spans the full beam with L shaped leather sofas to port facing a large Samsung television and surround sound system, complemented by custom built furniture, rich wood veneers and polished metal accents. Accommodation for up to five crew ensures discreet, attentive service and preserves guest privacy, making Aldebaran III a harmonious blend of style, comfort and functionality — a luxurious retreat at sea.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
