OVERVIEW

Bel-Ami II, a stunning 34m Codecasa, epitomizes modern elegance. Launched in 1988, this exquisite yacht underwent a significant refit in 2008, enhancing its systems and aesthetics, followed by an extensive overhaul in 2019 that further elevated its charm and functionality.

During the latest refurbishment, the hull was meticulously cleaned, antifouled, and inspected for integrity using ultrasound technology. A comprehensive evaluation of the yacht's systems was conducted, with necessary repairs and replacements made to the generator and fuel pump components, ensuring all maintenance was thoroughly addressed. The outcome is a motor yacht in pristine, turnkey condition, ready for a discerning new owner to relish, featuring freshly varnished woodwork, a new nameplate, and a gleaming hull.

Bel Ami II's refined style, seaworthy design, and elegantly simple interior, complete with a semi-raised bridge and classic comforts, truly make her a gentleman's yacht. This vessel can easily be customized to reflect the personal tastes of her next owner.

The interior decor showcases original paneling paired with soft textiles, creating a spacious and welcoming atmosphere. Accommodating up to 10 guests, the master or VIP suite is conveniently located on the main deck, while separate quarters are available for a crew of six.

On the exterior, you'll find a diving and bathing platform that also serves as a sunbathing area for loungers. The main deck features a generous dining table at the aft, along with a cozy breakfast nook sheltered by the saloon bulwark. Additionally, Bel Ami II boasts an exterior bar with a comfortable sitting and dining area on the bimini-covered flybridge.

The tender is stored on the top deck, positioned at the aft, and can be easily deployed and retrieved using a crane.

With a cruising speed of 12 knots and an impressive range of 6,700 nautical miles, Bel Ami II is an exceptional yacht for sale, located in the current boat location. This is a remarkable opportunity for those looking to buy a yacht that combines luxury, style, and performance. Explore yacht sales in the current boat location and make this elegant vessel your own.

DETAILED DESCRIPTION

Galley & Laundry Equipment

The yacht is equipped with a comprehensive array of galley and laundry equipment, ensuring both convenience and luxury on board. The galley features five refrigerators, providing ample space for storing fresh produce and beverages. A Miele Jubilee SC dishwasher is included, offering efficient and high-quality cleaning for all your dining needs. For frozen goods, there is a dedicated freezer, while two icemakers ensure a constant supply of ice for drinks and entertaining.

Cooking is a pleasure with the Siemens oven, complemented by a Siemens FD-8711 vitroceramic cooktop, boasting an impressive 8,250 watts of power for precise and versatile cooking. The galley also includes a Whirlpool microwave, perfect for quick meal preparations or reheating.

Laundry needs are met with a Miele WKB 120 washing machine, known for its reliability and performance, paired with Miele FD-8707 dryers to ensure your clothes are perfectly dried. For wine enthusiasts, a Liebherr Vinidor wine cooler is available, maintaining your collection at the ideal temperature and ready for any occasion. This suite of equipment ensures that all culinary and laundry requirements are met with the highest standards of quality and efficiency.

Communications, navigation & entertainment equipment

The yacht is equipped with state-of-the-art communications, navigation, and entertainment systems, ensuring a seamless and enjoyable experience on the water. While specific details are not provided, you can expect the latest technology to be integrated into the yacht's design, offering reliable

communication channels for both safety and convenience. Navigation equipment is likely to include advanced GPS systems, radar, and sonar, providing precise and accurate guidance for smooth sailing.

Entertainment options on board are designed to cater to all tastes, with high-quality audio and visual systems that transform the yacht into a floating entertainment hub. Whether you are hosting a party or enjoying a quiet evening, the yacht's entertainment setup promises to deliver an exceptional experience. With a focus on both functionality and luxury, the yacht's communications, navigation, and entertainment equipment are sure to meet the highest standards of performance and sophistication.

Communications equipment

The yacht is outfitted with a robust suite of communications equipment, ensuring reliable connectivity and safety at sea. Central to this setup is the Sailor SSB system, which includes the R-1119 Receiver, S-1304 Exciter, and T1135 Transmitter, providing comprehensive long-range communication capabilities. For more localized communication, the yacht features an Icom IC-M603 VHF radio, which is DSC and GMDSS compliant, ensuring adherence to international safety standards. Additionally, the Icom IC-M73EURO handheld VHF offers portable communication options, allowing for flexibility and convenience whether on deck or exploring ashore. This combination of equipment ensures that the yacht is well-prepared for any communication needs, enhancing both safety and operational efficiency on the water.

Navigation equipment

The yacht is equipped with an advanced suite of navigation equipment, ensuring precise and reliable guidance on the open seas. At the heart of this system is the Simrad AP 50 autopilot, which provides seamless control and

steering, allowing for effortless navigation. Complementing this is the Furuno FI50 wind instruments, offering accurate wind data to optimize sailing performance.

The Furuno NavNet plotter and radar systems are integral to the yacht's navigation capabilities, delivering detailed chart plotting and radar imaging for enhanced situational awareness. The Furuno Navtex NX-700 weatherfax ensures that you are always informed of the latest weather conditions, while the Furuno GP32 GPS provides precise positioning data.

For additional navigational accuracy, the yacht is equipped with a Simrad gyrocompass and traditional compasses, ensuring reliable heading information. The Furuno satnav system further enhances navigational precision, while the rudder indicator provides real-time feedback on steering angles.

Depth measurement is handled by the Furuno NavNet depthsounder, ensuring safe passage through varying water depths. The Furuno AIS system enhances safety by providing vessel tracking information, and the Furuno log records essential navigational data. This comprehensive array of navigation equipment ensures that the yacht is well-prepared for any voyage, offering both safety and efficiency on the water.

Entertainment equipment

The yacht boasts an impressive array of entertainment equipment, ensuring that every moment on board is filled with enjoyment and relaxation. Central to the entertainment experience are the Sony TVs, strategically placed in the master suite, VIP cabin, saloon, crew mess, and captain's cabin, providing high-quality viewing options throughout the vessel. Complementing the visual experience, a Sony music system delivers exceptional audio quality, creating the perfect ambiance for any occasion.

For movie enthusiasts, Sony DVD players are available in the master suite, VIP cabin, saloon, and crew mess, offering a wide range of entertainment options for guests and crew alike. To ensure seamless connectivity and access to a world of content, the yacht is equipped with Tracvision broadband, providing reliable internet access for streaming and communication needs. This comprehensive entertainment setup ensures that all guests can enjoy a luxurious and engaging experience while on board.

Tenders & watersports equipment

The yacht is equipped with an impressive selection of tenders and watersports equipment, ensuring endless fun and adventure on the water. At the heart of this collection is the Grand C330A tender, complete with an outboard engine, providing reliable and efficient transport to and from the yacht. Additionally, the GRAND G500 tender, powered by a robust 115hp Yamaha outboard engine, offers enhanced performance and speed, perfect for exploring nearby coves and beaches.

For those who enjoy more active pursuits, the yacht includes two paddle surf boards, purchased in 2019, allowing guests to glide across the water and enjoy the serene surroundings. Water skiing enthusiasts will appreciate the inclusion of water skis, also acquired in 2019, providing the opportunity for exhilarating rides and skillful maneuvers. This comprehensive array of tenders and watersports equipment ensures that every guest can enjoy a dynamic and engaging experience on the water, making each voyage memorable.

Air conditioning

The yacht is equipped with a powerful and efficient air conditioning system, ensuring optimal comfort in all climates. At the core of this system are four Marine Air System units, each boasting an impressive capacity of 48,000 BTU.

This robust setup guarantees that every area of the yacht remains cool and comfortable, even in the most challenging weather conditions. Whether you are cruising through tropical waters or enjoying a warm summer day, the air conditioning system provides a refreshing escape, enhancing the overall onboard experience for all guests.

Generators

The yacht is equipped with a robust power generation system, featuring three Kohler generators that ensure a reliable and continuous power supply for all onboard systems. Two of these generators are rated at 80 kW each, providing ample power for the yacht's primary operations, while an additional 11 kW generator serves as an emergency backup, ensuring peace of mind in all situations. As of February 2018, the port generator has logged 5,276 hours, the starboard generator 5,031 hours, and the emergency generator a mere 54 hours, reflecting their usage and readiness. This setup guarantees that the yacht's electrical needs are met efficiently, supporting a seamless and comfortable experience for all guests and crew.

Electricity & batteries

The yacht is equipped with a sophisticated electrical system designed to ensure efficient power management and reliability. Central to this system is a power converter that seamlessly transitions from 380 volts to 220 volts, accommodating various electrical needs on board. The shore power connection provides a robust 380 amps per hour at 63 amps, ensuring that the yacht can draw sufficient power when docked.

The onboard battery system comprises four batteries, each with a capacity of 210 amps per hour and operating at 12 volts, installed in 2014. This setup provides a reliable power reserve for essential systems and equipment. To

maintain optimal battery performance, a Dolphin 24v 100A battery charger is included, ensuring that the batteries are efficiently charged and ready for use. This comprehensive electrical and battery system guarantees that the yacht's power needs are met with efficiency and reliability, enhancing the overall onboard experience for guests and crew.

Other machinery

The yacht is equipped with a range of advanced machinery designed to enhance performance, comfort, and efficiency. At the heart of its propulsion system are two robust propellers, each with a diameter of 1,650 mm and featuring four blades, ensuring smooth and powerful navigation through the water. Complementing this is an 80 hp bow thruster, which provides exceptional maneuverability, making docking and tight maneuvers effortless.

For onboard comfort, the yacht features a water heating system with a capacity of 250 liters, ensuring a steady supply of hot water for all needs. The watermaker system, consisting of two H.R.O. Horizon Seafari units, produces 250 liters per hour, providing ample fresh water for extended voyages.

Fuel management is optimized with an Alfa Laval fuel cleaning system and three fuel filters, ensuring clean and efficient engine operation. The yacht is also equipped with a comprehensive sanitary system and waste treatment facilities, maintaining hygiene and environmental standards. This array of machinery ensures that the yacht operates smoothly and efficiently, providing a luxurious and comfortable experience for all on board.

Machinery

The yacht is equipped with a comprehensive array of deck machinery, designed to enhance both functionality and comfort during your maritime adventures. At the forefront are two robust 145 kg Stokes anchors made of

stainless steel, ensuring secure mooring in various conditions. These anchors are complemented by two 140-meter chains, each with a diameter of 17-18 mm, providing reliable anchoring capabilities.

For ease of access and convenience, the yacht features an Opacmare passarelle, allowing for smooth boarding and disembarkation. The bathing platform and swimming ladder offer easy access to the water, enhancing the overall leisure experience. Additionally, the yacht is equipped with a windlass and a capstan, facilitating efficient anchor handling and mooring operations.

To further support onboard activities, there are two boat cranes, a sun awning for shade, and a deck shower for rinsing off after a swim. The inclusion of a winch, searchlight, and horn ensures that the yacht is well-prepared for various navigational and safety needs. This extensive range of deck equipment ensures that every aspect of your journey is catered to with precision and ease, providing a seamless and enjoyable experience on the water.

Safety & security equipment

The yacht is meticulously equipped with a comprehensive array of safety and security equipment, ensuring the utmost protection for all on board. Central to this setup are two liferafts, the RFD Surviva MK IV TO models, each capable of accommodating 12 people, providing reliable emergency evacuation options. An advanced alarm system is in place to alert the crew to any potential threats or emergencies, while the engine firefighting system offers critical protection against engine room fires.

For global emergency communication, the yacht is equipped with an EPIRB ACR Global Fix RLB-35, ensuring that distress signals can be sent from anywhere in the world. The vessel is also outfitted with 30 fire extinguishers strategically placed throughout, enhancing fire safety measures. A closed-circuit TV system provides continuous surveillance, adding an extra layer of security.

To manage water ingress, the yacht is equipped with two bilge pumps, ensuring that any excess water is efficiently removed. The inclusion of the "Pathfinder 3 SART" transponder further enhances the yacht's safety profile, ensuring that it can be easily located in an emergency. This extensive suite of safety and security equipment ensures that the yacht is prepared for any situation, providing peace of mind for all guests and crew.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
