OVERVIEW

BLADE I is an exceptional 34 metre Sunseeker motor yacht, presented for sale in superb condition after an extensive 2026 refit. Launched in 2009 and comprehensively renewed for her next owner, she marries Sunseeker's renowned performance and elegant profile with a fully modernised, contemporary interior throughout.

At the heart of the 2026 programme was a complete interior overhaul and the addition of a further VIP suite, expanding her accommodation to five exquisitely finished staterooms capable of sleeping up to 10 guests. A generous main saloon, a refined dining area and expansive picture windows create a calm, sophisticated atmosphere, while the full beam owner's suite provides exceptional volume and privacy, complemented by meticulous detailing throughout.

Externally, BLADE I offers volume rare for a vessel of her size, featuring a sweeping flybridge appointed with a bar, alfresco dining and large sunpads, a sheltered aft terrace and inviting waterside lounging spaces. Driven by twin MTU V12 2000 M93 engines, she combines an effortless 18 knot cruise with top speeds approaching 26 knots. Fresh from her 2026 refit and presented in turnkey condition, BLADE I is a rare opportunity to acquire an upgraded Sunseeker 34M without the time, risk or expense of a major refit.

DETAILED DESCRIPTION

Blade I

Few yachts manage to marry the athletic silhouette and performance lineage of a Sunseeker with the advantages of a recent, comprehensive overhaul as effectively as BLADE I. Stretching 34 metres, she has emerged from an extensive 2026 refit with a wholly reimagined interior, reconfigured guest accommodation and the insertion of an additional VIP cabin, delivering to her next owner a vessel that is genuinely turnkey.

Launched in 2009, BLADE I retains the dynamic character that defines the Sunseeker name. Her low, purposeful profile belies the speed and handling beneath the hull, while expansive exterior decks and an unexpectedly generous interior volume give her the versatility normally associated with larger yachts.

The 2026 programme went well beyond surface refreshment, centring on a complete interior redesign that gives the yacht a more contemporary yet inviting personality. Gloss timber joinery is counterbalanced by lighter upholstery, neutral textiles and meticulously considered lighting, and the large windows along the main saloon draw daylight deep into the interior. The result is an elegant but relaxed living environment designed for long Mediterranean days and refined evening entertaining, with a main saloon arranged for generous lounge seating that flows into the dining area and opens naturally onto the aft deck.

A significant outcome of the refit is the creation of a new VIP cabin, bringing guest accommodation to five cabins for up to ten guests. At the heart of the layout sits an unusually spacious full beam owner's suite for a yacht of this length, appointed with an emperor size bed, a private lounge and separate his and hers bathrooms. The remaining cabins offer a flexible mix of double

and twin berths, the newly added VIP enhancing the yacht's appeal for extended family cruising and frequent socialising.

Deck life is quintessentially Sunseeker: an expansive flybridge serves as the principal social arena with abundant seating, dining space, a bar and extensive sunbathing areas, transitioning effortlessly from quiet mornings at anchor to leisurely lunches and evening gatherings. Forward, a generous sunpad offers a more private retreat while underway or at anchor, the aft deck provides sheltered alfresco dining directly outside the main saloon, and the bathing platform at water level gives direct access to the sea and a perfect base for swimming and watersports. The variety of outdoor living areas creates multiple distinct zones for relaxation and entertaining, reminiscent of larger yachts.

Performance remains a core attribute. Twin MTU V12 2000 M93 engines propel BLADE I to a cruising speed of approximately 18 knots with a top speed in the region of 26 knots—figures that make island hopping and same day repositioning across the Mediterranean both practical and comfortable, without compromising the standards of accommodation and onboard amenities expected from a 34 metre motor yacht.

On the brokerage market, where many pre-owned yachts cluster in the 30–35 metre range, BLADE I distinguishes herself by pairing the recognisable Sunseeker 34M pedigree and sporting performance with a full 2026 interior refit, five cabin accommodation, expansive exterior living and speeds up to 26 knots, while sparing a new owner the time and expense of a major interior overhaul. Presented in exceptional condition after her refit, she offers a ready-to-cruise Sunseeker experience and a refined platform for the next chapter of ownership.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.
