OVERVIEW

Ferretti Custom Line 112 NEXT — M/Y MISS ADO

Melding timeless Italian flair with contemporary comfort, M/Y MISS ADO is the embodiment of the Custom Line 112 NEXT pedigree. Launched in 2008 by the Ferretti Group and penned by Zuccon International Project, she marries the sweeping elegance of a flybridge superyacht with the dynamic poise of a planing motor yacht, designed for owners who expect both presence and performance.

Her proportions—34.16 meters in length with a 7.08-meter beam—create generous volumes throughout, while exquisite workmanship is evident in every surface. The interiors have been thoughtfully refreshed, featuring new upholstery, updated lighting and a comprehensive redesign of salon, cabins and flybridge that together cultivate a refined, inviting atmosphere.

Accommodation is arranged for 10 guests across five staterooms: two master suites, two VIP cabins and one twin, each appointed with tasteful detailing and modern entertainment systems, while separate crew quarters guarantee discreet, professional service on every passage.

Miss Ado's engineering underscores her status as a serious bluewater cruiser: twin MTU 12V 4000 M90 engines producing 2,775 hp each propel her to a comfortable cruising speed of 22 knots and a peak of 25 knots. Built to RINA classification and maintained in exemplary condition, she has benefited from a recent program of works including complete mechanical and engine servicing, Onan generator maintenance (approx. 2,000 hours), a comprehensive electrical and electronics upgrade, the installation of new satellite communications and a premium sound system, plus a full teak deck restoration and polish—enhancements that preserve both reliability and refinement.

Onboard systems are arranged to support confident passagemaking and

relaxed entertainment: a full SIMRAD navigation suite incorporating GPS, autopilot, VHF and radar; VSAT connectivity; CCTV security with motion detection; and televisions up to 50" for guest enjoyment. The galley is equipped with high-quality appliances from Miele and Samsung, Haier refrigeration and an Idromar 360 l/h watermaker with UV sterilization, enabling extended cruising and island-hopping with ease.

M/Y MISS ADO stands as a distinguished example of Custom Line design—an elegant flybridge superyacht that fuses luxurious living, robust performance and meticulous attention to detail for discerning owners seeking a turnkey vessel.
