## OVERVIEW

---

M/Y MISS ADO, a Ferretti Custom Line 112 NEXT, marries timeless Italian elegance with contemporary comfort, representing the high point of the series launched in 2008 by the Ferretti Group and penned by Zuccon International Project. She presents the refined silhouette of a flybridge superyacht while offering the spirited responsiveness and lines of a premier planing motor yacht, a vessel where style and seaworthiness are held in equal esteem.

Measuring 34.16 metres overall with a generous 7.08 metre beam, MISS ADO provides expansive, well-proportioned volumes both inside and out, finished to an exacting standard. Her interiors have been recently renewed—new upholstery and lighting and a full redesign of the salon, cabins and flybridge have refreshed the living spaces into a cohesive, elegant environment that balances modern understatement with luxurious detailing. Accommodation for 10 guests is arranged across five finely appointed staterooms, comprising two master suites, two VIP cabins and one twin, each fitted with tasteful finishes and contemporary entertainment systems, while separate crew quarters ensure discreet, professional service for extended cruising and ownership.

Under the skin she is equally capable: twin MTU 12V 4000 M90 engines, each rated at 2,775 hp, propel MISS ADO to a comfortable cruising speed of 22 knots and a maximum of 25 knots, the planing hull delivering agility and confident seakeeping for bluewater passages. Built to RINA classification and maintained in exemplary condition, recent works completed include complete mechanical and engine servicing, Onan generator maintenance (approx. 2,000 hours), a comprehensive electrical and electronics upgrade, installation of new satellite communications and a premium sound system, and a full teak deck restoration and polish.

On deck and below, systems and gear are specified for serious yachting: a full

SIMRAD navigation suite incorporating GPS, autopilot, VHF and radar supports safe passagemaking, while entertainment is provided through TVs up to 50", VSAT connectivity and a CCTV security system with motion detection. The galley is comprehensively equipped with Miele and Samsung appliances and Haier refrigeration, and an Idromar 360 l/h watermaker with UV sterilization secures fresh water for prolonged voyages. MISS ADO stands as a distinguished Custom Line motor yacht—an elegant flybridge superyacht that harmonises luxury, performance and thoughtful engineering for discerning owners seeking a sophisticated, turn-key vessel.
