DETAILED DESCRIPTION

Structure

The yacht showcases a breathtaking white gel coat finish, exuding a sleek and contemporary allure. Its construction exemplifies cutting-edge marine engineering, with a seamless hull and superstructure crafted through SCRIMP™ technology. This pioneering approach, paired with Horizon's exclusive 6D infusion, integrates both longitudinal and transverse stringers, delivering remarkable strength and reduced weight. The hull, deck, and superstructure are all constructed using the licensed SCRIMP™ process, enhancing durability while maintaining a lightweight design.

The hull's hybrid bottom design employs sandwich construction with solid fiberglass, while the hull sides, decks, and superstructure are reinforced with high-density Divinycell or similar foam cores. The stringers are also strengthened with high-density foam coring, and all interior structural elements are meticulously bonded to the hull, ensuring a robust and cohesive framework. For added safety, the yacht features a strong collision bulkhead structure.

To guard against marine growth and osmosis, the yacht is treated with international anti-fouling bottom paint and anti-osmosis treatment. The underwater components are coated with PropSpeed/PropGold metal paint, ensuring optimal performance and longevity. The design includes tunnels to minimize draft, and the High Performance Piercing Bow (HPPB) is equipped with stainless steel protection plates for enhanced durability.

The upper deck boasts a bump-out design on both the port and starboard sides, while the asymmetrical skylounge design allows for a wider beam on the starboard side, maximizing space and comfort. The yacht holds BV Certificates for stability and structure, ensuring adherence to international safety

standards. Additionally, it is equipped with two 10-person life rafts, offering peace of mind for everyone on board.

Forward & aft decks

The yacht's forward and aft decks exemplify a blend of opulence and practicality, crafted to elevate your seafaring adventures. The aft deck is adorned with teak, exuding a cozy and welcoming ambiance. It is equipped with two sturdy STUHLINK 12.5mm 165M anchor chains and two 130kg stainless steel anchors, ensuring steadfast mooring. The Maxwell VWC 6000 windlass with a band brake provides dependable anchoring performance.

The frameless windows, made from slightly tinted tempered laminated Low-E glass for the windshield and tinted tempered laminated glass for the side windows, offer a sleek and contemporary look while shielding you from the elements. Access to the foredeck is easily achieved via the starboard staircase or the walk-around on the main deck. Here, U-shaped seating with sliding tables awaits, ideal for social gatherings, along with a Jacuzzi featuring a sun pad, drink holders, and storage for ultimate relaxation. Sunshades are thoughtfully provided for the bow seating, ensuring comfort in any weather.

The yacht is fitted with a freshwater and seawater anchor chain washdown system, ensuring cleanliness and efficiency. On the aft deck, two Maxwell VC3500 electrical rope capstans and two chain counters in the pilothouse offer precise control and ease of use. Boarding is made simple with bulwark side doors near the aft deck and a MarQuipt 8-step carbon fiber side boarding sea stair, complete with teak planks on the steps and two removable handrails. Additionally, a hydraulic gangway (Besenzoni PI883, 6.33M) ensures smooth access to and from the yacht.

The aft deck also features fixed seating with an entrance to the beach club, creating a seamless flow between relaxation and entertainment spaces. A round dining table with seating for ten invites you to enjoy alfresco dining with

family and friends, making every meal a memorable experience.

Skylounge & pilothouse

The yacht's skylounge and pilothouse are crafted to blend opulence with practicality, offering a welcoming environment for both leisure and navigation. The enclosed skylounge boasts an L-shaped sofa paired with a coffee table, creating a snug area for socializing or relaxing. A dayhead enhances convenience, while a round table for four provides a cozy dining setting. The wet bar, complete with a wine cooler, fridge/freezer, and sink, ensures that refreshments are always within reach.

As you move forward, the enclosed pilothouse is meticulously arranged with two helm chairs and a leaning post, delivering comfort and support for the captain and crew. A sofa and deck area provide extra seating and a vantage point for observation. The custom helm is outfitted with comprehensive engine gauges, a monitoring system for critical equipment, fuel and water indicators, and a Ritchie magnetic compass. A surveillance camera system, bilge pump panel, and navigational lights ensure safety and operational ease.

The walk-around bridge design facilitates easy access, with the port side bridge leading forward to the bow deck. A hi-lo glass screen and pocket door offer the flexibility to separate the skylounge from the pilothouse, providing privacy and adaptability. Electric Roman blinds add a touch of sophistication and allow for seamless control of natural light, enhancing the atmosphere of this elegant space.

Boat deck

The yacht's boat deck is crafted to balance functionality with opulence, featuring a nonslip surface to ensure secure footing and easy navigation. Central to the deck is a robust hydraulic Steelhead davit CT3000, capable of

hoisting up to 3000 pounds, reinforced for enhanced durability and dependability. The deck is illuminated by four strategically positioned floodlights for the mast and boat deck, complemented by two Tokai Sanshin LED searchlights to boost visibility.

Efficient drainage is achieved with oversized drains equipped with strainers at each corner, channeling water to internal overboard drains to prevent pooling. The deck serves as a center for entertainment and leisure, featuring a wet bar complete with a refrigerator, ice maker, and four barstools, ideal for socializing. A spacious U-shaped sofa with an ottoman offers generous seating, while a hi-lo 43-inch TV on the starboard side provides entertainment options. For those who enjoy cooking, a hi/lo 24-inch propane BBQ is housed in a fiberglass-reinforced plastic (FRP) cabinet, ready for alfresco dining. Additional storage and cooling are provided by a 48-inch FRIGID-RIGID freezer with FRP storage. Safety is a top priority, with two Zodiac 10-person life rafts securely mounted on custom brackets. The boat deck is encircled by removable stainless steel rails, providing both safety and adaptability, making it a versatile and welcoming area for everyone on board.

Open flybridge (tri-deck)

The open flybridge on this tri-deck yacht seamlessly combines practicality with relaxation, crafted to elevate your cruising adventures. The deck is designed with a non-slip surface, ensuring secure footing and stability as you navigate. A radar arch with an antenna bracket supports vital communication and navigation functions, while the windshield, framed in stainless steel and complemented by stainless steel rails, shields you from the elements.

Accessing the flybridge is straightforward, thanks to a staircase ascending from the boat deck. For added ease, a handheld remote plug-in receptacle is strategically placed according to the layout, allowing for effortless control of various systems. At the front, an oversized sunpad beckons you to unwind and

bask in the sun, while a spacious L-shaped sofa with a coffee table offers a cozy spot for socializing.

Towards the rear, a sunbed with upright cushion backs and side tables provides an ideal lounging area. The wet bar, equipped with a sink, refrigerator, ice maker, and storage, ensures that refreshments are always at hand, making the open flybridge a perfect venue for entertaining guests or savoring a peaceful moment at sea.

Beach club

The beach club on this yacht serves as a lavish haven crafted for both relaxation and entertainment, seamlessly blending with the surrounding ocean views. This area boasts a teak beach club and swim platform, with teak steps leading to the boat deck and swim platform, creating a warm and welcoming ambiance. A hydraulic door with a pantograph mechanism in the center adds a modern engineering touch, while a rain shower beneath the door provides a refreshing rinse after swimming.

The hydraulic Hi-Lo swim platform, capable of lifting 1,360 kg (3,000 lbs), features two removable corner rails, enhancing safety and adaptability. Within the beach club, L-shaped seating and a custom bar with three stools offer an ideal space for socializing. The bar is fully equipped with a conventional microwave, refrigerator/freezer, burner, sink, and a 32-inch TV, ensuring all your entertainment and refreshment needs are catered to.

Moreover, the utility room is thoughtfully arranged with a dayhead, wet locker, wet storage room, diving tank storage, and a washer/dryer combo, providing all the conveniences necessary for extended stays and aquatic activities. This beach club is more than just a space; it's an experience, offering everything you need to fully embrace life on the water.

Engine & propulsion details

The yacht's engine and propulsion system are crafted for exceptional performance and dependability, powered by twin CAT C32B engines, each producing a remarkable 2,400 horsepower. To guarantee smooth navigation, the yacht is outfitted with NAIAD zero speed stabilizers (Model 525) and NAIAD hydraulic bow and stern thrusters, with specifications of 16LHT/710kg and 16SHT/580kg, respectively. The Humphree Interceptor system, consisting of HE1150*2 and HE1100*2, further enhances stability and control.

Engine load is effectively managed through flexible mountings on a stainless steel engine bed, bonded to the FRP hull girder, which reduces vibrations and noise. The engine alarm system meets standard specifications, ensuring peace of mind during journeys. Steering is controlled by a Jastram digital electric system, complemented by an emergency manual hydraulic steering system for added security.

The yacht is equipped with high-performance S-class 5-blade propellers and bronze struts with backing plates, ensuring optimal propulsion. Shaft and rudder packing glands feature Tides Marine dripless seals, minimizing maintenance and enhancing durability. A tethered engine remote handheld controller, with plugs located on the tri-deck, boat deck, aft deck, and pilothouse, provides convenient control.

The underwater exhaust system, complete with bypass mufflers, reduces noise and emissions, while the engine room is designed with a lightweight honeycomb floor for easy maintenance. A heavy-duty insulated engine room door and stainless steel overhead grab rails on each side of the engine enhance safety and accessibility. The exhaust system benefits from anti-noise treatment, and Delta-T engine room demisters ensure a clean and efficient environment. An air compressor is also included, contributing to the comprehensive suite of features that make this yacht's engine and propulsion

system truly outstanding.

Mechanical systems

The yacht's mechanical systems are expertly crafted to guarantee efficiency, safety, and comfort throughout your journeys. The fuel system comprises two tanks with a combined capacity of 5,500 US gallons (20,800 liters), featuring sight and electrical gauges for accurate monitoring. Each generator is safeguarded by a Racor 500 MA fuel filter, supported by two electric fuel transfer pumps and a fuel polishing system capable of processing 210 gallons per hour.

For freshwater supply, the yacht is fitted with an 800 US gallon (3,025 liters) tank, complemented by three 40-gallon water heaters. A high-capacity AC freshwater pressure pump, along with a backup DC pump, ensures a consistent water supply. The Spot Zero SeaXchange XTC II 1800 and Spot Zero ZTC II 2000 watermakers deliver dependable freshwater production, while charcoal filters are integrated into the freshwater line for the shore water inlet and galley. A hot water circulation pump maintains uniform water temperature throughout the vessel.

The climate control system includes a Marine Air chilled water conditioning system with variable frequency drive (VFD) for optimal comfort. The yacht is equipped with a Headhunter toilet system and a Headhunter sanitary treatment system (TW-HMX 6001LP) for efficient waste management. A Bauer Junior II dive compressor is available for diving enthusiasts, and pre-wiring for the Electrosea (CL-2000-X2.0) system is in place for future enhancements.

Humidity is controlled by a Honeywell dehumidification system, consisting of five units (Honeywell DR65A3000), ensuring a comfortable atmosphere.

Wastewater is managed by a 200-gallon holding tank with a deck fitting for dockside pump-out, and a 200-gallon sump tank with a pump for each shower and water drainage area. Electric level indicators provide real-time monitoring

of both tanks.

Safety is a top priority, with an electric Rule bilge pump, high water level bilge alarm, and bilge exhaust ventilation fans. The engine room is protected by fire insulation and fire-resistant treatment for pipe penetrations, along with an automatic fire damper system. The yacht is equipped with eight portable fire extinguishers and an integrated fire alarm system in the pilothouse, featuring heat and smoke detectors in each cabin. An auto shutdown system and a fire pump with outlets and hydrants further enhance safety measures, ensuring peace of mind while at sea.

Electrical systems

The yacht's electrical systems are meticulously crafted to deliver robust and dependable power management, ensuring safety and ease throughout your voyage. Every AC outlet on the exterior, in the heads, galley, and engine room is equipped with GFI protection, guarding against electrical malfunctions. An electrolysis bonding system and cathodic protection with zinc anodes for shafts and struts are implemented to prevent corrosion, thereby extending the vessel's lifespan.

The yacht is illuminated by an energy-efficient LED lighting system, both inside and out, with six underwater lights adding a sophisticated touch to the exterior. Power is generated by two Kohler generators, each delivering 55kW at 60Hz, and equipped with sound shields to reduce noise. The yacht controller, featuring the Supremo model with a speed button and joystick, ensures precise handling.

A Maretron monitoring and control system offers comprehensive oversight of the yacht's systems, while the Magnus air-cooled frequency converter (model SP150 80kVA) guarantees stable power conversion. Shore power is managed by two Glendinning Cablemasters, each with a 100Amp capacity and 75-foot power cable, and shore power connections are equipped with 100Amp ISO

boost transformers wired as polarization transformers.

For improved visibility, the yacht is equipped with two LED searchlights, and it is pre-wired for an LED boat name on the stern and both port and starboard sides of the flybridge. Entertainment is enhanced with a Sonos stereo system integrated with a Control4 system, delivering high-quality audio throughout the vessel. These electrical systems work together to create a seamless and pleasurable experience on the water.

Interior décor & equipment

The yacht's interior décor and equipment are carefully crafted to provide both luxury and comfort, ensuring a remarkable experience for every guest on board. The guest accommodations are thoughtfully laid out, featuring an on-deck master suite, a mirrored VIP suite, a starboard midship VIP, and port guest staterooms, each with ensuite facilities to guarantee privacy and convenience.

The yacht boasts a well-equipped laundry room, complete with a washer and dryer, linen locker, storage, ironing board, and sink, making laundry tasks effortless. The forward crew area comprises three crew cabins, each with ensuite facilities, and a crew mess with access to the starboard side galley, offering a comfortable and practical space for the crew.

A bespoke interior package enhances the yacht's décor and lighting, creating a warm and sophisticated ambiance. Dining is elevated with a complete set of Wedgwood (GIO) tableware for ten, including dish holders, pots, pans, dishes, plates, knives, forks, and glasses, ensuring every meal is a refined affair. Additionally, an extra set of bed sheets is available for all guest cabins, including those for the crew, ensuring comfort and convenience for longer stays.

This meticulous attention to detail in the interior décor and equipment

ensures that every aspect of life on board is addressed, providing a luxurious and seamless experience for both guests and crew.

Salon

The salon of this yacht seamlessly combines elegance with practicality, offering a luxurious and comfortable environment for both relaxation and entertainment. Upon entering through the locally crafted stainless steel electric sliding door, you are welcomed by a meticulously arranged interior. The salon includes a convenient dayhead, ensuring guests' comfort and accessibility.

Central to the salon is a U-shaped sofa paired with a coffee table, creating a warm and inviting ambiance. A custom area rug adds a layer of sophistication to the room. On the starboard side, a coffee table with two swivel chairs provides additional seating, perfect for intimate conversations or enjoying a peaceful moment.

Behind the sofa on the port side, a buffet cabinet offers ample storage, blending style with functionality. The custom formal dining table, accommodating ten, is perfect for hosting elegant dinners and gatherings. Entertainment is enhanced with a 65-inch TV, allowing guests to enjoy their favorite shows and movies in style.

This salon exemplifies the yacht's dedication to luxury and meticulous attention to detail, providing an ideal setting for both relaxation and socializing.

Galley

The galley on this yacht exemplifies exceptional design and functionality, providing a professional-grade cooking space that meets both casual and gourmet culinary demands. The enclosed galley layout includes a hi-lo privacy

screen and pocket or hinged doors, offering flexibility between openness and privacy as needed. Central to the galley is a multifunctional island, featuring a trash compactor, microwave, instant hot water, and a cleverly concealed chair, ensuring both convenience and efficiency.

Storage and refrigeration are plentiful, with a full-height refrigerator and freezer, along with additional under-counter units, keeping all provisions fresh and within easy reach. The galley is further enhanced by a Scotsman ice maker and a wine cooler, ideal for serving guests chilled drinks. A coffee maker is also included, ensuring a fresh brew is always available.

Natural light and ventilation are provided by an opening porthole, contributing to the galley's welcoming atmosphere. This carefully designed space ensures that every culinary requirement is met with elegance and precision, making it a central hub for both meal preparation and social gatherings on board.

Master stateroom

The master stateroom on this yacht is a haven of opulence and comfort, thoughtfully crafted to offer a tranquil escape for its residents. Central to the stateroom is a king-sized bed, equipped with drawers beneath for easy storage, flanked by nightstands and a secure safe for valuables. On the starboard side, a comfortable love seat invites relaxation, while the port side hosts a versatile vanity or desk, ideal for work or personal grooming. Generous storage is provided by hanging lockers on both the port and starboard sides.

The ensuite head is a design marvel, featuring a sink, a luxurious rain shower, and a his-and-hers head with an additional sink, toilet, and storage, ensuring privacy and convenience. Electric blinds allow effortless control of natural light, enhancing the room's ambiance. Four opening portholes offer fresh air and a connection to the sea, while a 55-inch TV and a home entertainment system provide endless entertainment options.

For added safety, an escape hatch with a ladder is discreetly integrated into the master stateroom. Extra wireless chargers are available, ensuring all your devices remain powered and ready for use. This master stateroom perfectly combines elegance and functionality, offering a private sanctuary for relaxation and enjoyment.

Mirror queen staterooms (2)

The yacht boasts two beautifully crafted mirror queen staterooms, each offering a perfect blend of comfort and elegance. These staterooms are furnished with a queen-sized bed, complete with storage drawers and a nightstand, providing ample space for personal items. Spacious hanging lockers offer additional storage, ensuring guests have plenty of room to organize their clothing.

Each stateroom features an ensuite head, thoughtfully designed with a sink, mirrored cabinets, a shower with a luxurious rain shower head, and a toilet, providing all the comforts of home. The staterooms are prewired for electric Roman shades, allowing guests to easily control natural light and privacy.

For added safety, the port stateroom includes an escape hatch, offering peace of mind to its occupants. Entertainment is well-provided with a 43-inch LED TV and a home entertainment system, ensuring guests can unwind and enjoy their favorite shows and movies in comfort. These mirror queen staterooms exemplify the yacht's dedication to luxury and attention to detail, offering a tranquil and welcoming retreat for all guests.

Midship guest stateroom

The midship guest stateroom on this yacht seamlessly combines comfort with practicality, crafted to offer guests a luxurious escape. At the heart of the stateroom is a queen-sized bed, complete with storage drawers and a

nightstand, providing ample space for personal items. Hanging lockers offer additional storage, ensuring guests have plenty of room to organize their clothing.

The ensuite head is elegantly designed with a sink, mirrored cabinets, a shower featuring a rain shower head, and a toilet, providing all the amenities needed for a comfortable stay. The stateroom is prewired for electric Roman shades, allowing guests to easily control natural light and privacy.

Entertainment is well-provided with a 43-inch LED TV and a home entertainment system, ensuring guests can unwind and enjoy their favorite shows and movies in comfort. This midship guest stateroom exemplifies the yacht's dedication to luxury and attention to detail, offering a tranquil and welcoming space for all who stay.

Twin port guest stateroom

The twin port guest stateroom on this yacht is carefully crafted to provide both flexibility and comfort for its guests. It includes twin beds, with one bed designed to slide, allowing for adaptable sleeping arrangements to meet the guests' preferences. A hanging locker offers generous storage space for clothing and personal belongings, ensuring a neat and organized setting.

The ensuite head is well-equipped, featuring a sink, mirrored cabinet, rain shower head, and toilet, providing all the essential amenities for a comfortable stay. The stateroom is prewired for electric Roman shades, giving guests the ease of adjusting natural light and privacy to their liking.

Entertainment is a key feature in this stateroom, with a 32-inch LED TV and a home entertainment system, enabling guests to relax and enjoy their favorite shows and movies in comfort. This twin port guest stateroom highlights the yacht's commitment to luxury and meticulous attention to detail, offering a welcoming and versatile space for all guests.

Crew quarters forward

The forward crew quarters on this yacht are meticulously designed to offer a comfortable and efficient living environment for the crew, ensuring they have all the essentials to perform their duties effectively. The captain's cabin is well-equipped, featuring two hanging lockers for ample storage, a 32-inch LED TV for entertainment, and an ensuite head for privacy and convenience.

Alongside the captain's cabin, there are two crew bunk cabins, each fitted with a hanging locker and an ensuite head, providing a private and comfortable space for crew members. The crew mess serves as a central hub for relaxation and dining, complete with a 32-inch TV, a dining area, a sink, a convection microwave, a cooktop, and a fridge/freezer, ensuring the crew can enjoy meals and leisure time in comfort.

Additional amenities include pantry storage and a washer/dryer, offering all the conveniences necessary for extended stays at sea. The crew quarters are thoughtfully connected to the galley via a dedicated staircase, allowing for easy access and efficient service. These forward crew quarters highlight the yacht's dedication to providing a supportive and well-equipped environment for its crew.

Electronics

The electronics suite on this yacht is crafted to deliver seamless connectivity and cutting-edge technological features, ensuring a modern and convenient onboard experience. Positioned atop the radar arch, a TV antenna is strategically placed to optimize reception, while the SAT TV KVH TracVision UHD7, paired with a dummy dome, provides high-definition satellite television capabilities. The yacht is pre-wired for a SAT phone, allowing for future communication enhancements.

A 4G cellular routing system with Wi-Fi ensures dependable internet access,

keeping you connected no matter where your journey leads. The Control4 system integrates various electronic functions, offering centralized control for user-friendly operation. Communication is supported by five Panasonic PBX telephones with an intercom feature, and an exterior connector is available for shore phone and cable TV, ensuring comprehensive communication options. For security and safety, the yacht is equipped with a surveillance camera system, and a motion-detecting light is installed in the guest foyer near the staircase, enhancing visibility and security. The yacht is also pre-wired for FLIR night vision, offering the potential for improved nighttime navigation and safety. This comprehensive electronics package ensures that all your connectivity and security needs are met with sophistication and reliability.

Pilothouse navigation

The pilothouse navigation system on this yacht is outfitted with cutting-edge technology, guaranteeing precise and dependable navigation for every voyage. At the heart of this system is the comprehensive Garmin navigation suite, which includes a Garmin GPS with a satellite compass for accurate positioning. The radar capabilities are impressive, featuring both a 48-inch and a 72-inch 12kW 96nm open array radar system, offering extensive range and clarity.

The pilothouse is equipped with four Garmin GPSMAP 9224 24-inch multifunction displays, providing a wealth of navigational data at your fingertips. The MBB300C module allows for seamless integration of Maretron information into the Garmin displays, enhancing situational awareness. Additionally, the system includes the latest GARMIN GRID 20 remote input device, facilitating intuitive control and operation.

For comprehensive environmental data, the Garmin Fishfinder, along with wind, speed, and temperature transducers, provides real-time insights into the surrounding conditions. The SIMRAD AP70 MK2 Autopilot System ensures smooth and efficient course management, while the Garmin AIS enhances

safety by providing vessel tracking information. Communication is supported by two Garmin VHF radios, ensuring clear and reliable contact at all times.

This advanced pilothouse navigation system exemplifies the yacht's dedication to safety, precision, and ease of use, making every journey a seamless and enjoyable experience.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
