OVERVIEW

The Majesty 112 achieves a rare synthesis of spaciousness, refinement, and seagoing capability. This commanding tri-deck motor yacht and superyacht is designed to flood its interiors with daylight while creating a seamless progression between open decks and elegant salons, encouraging owners and guests to relax with effortless grace. From her sleek, streamlined profile to the tailored, high-gloss finishes, every detail is crafted to elevate life aboard.

Planned to accommodate 12 guests across five exquisitely appointed staterooms, with separate quarters for six crew, the Majesty 112 is built for gracious entertaining and quiet retreat alike. Expansive exterior terraces provide a succession of alfresco lounges and dining spots ideal for convivial gatherings or peaceful repose, while the generous main salon, embraced by sweeping panoramic windows, offers dazzling vistas and a luminous atmosphere. Luxurious furnishings and rich materials convey a tone of timeless elegance throughout.

Underway, the yacht's semi-displacement hull and a substantial 4,702 US-gallon fuel capacity deliver composed efficiency and extended range. Whether making ocean passages or lying quietly in a sheltered cove, she melds indulgence with practicality in the true spirit of a long-range motor yacht and bluewater cruiser.

Conceived for the discerning owner, the Majesty 112 is more than a tri-deck superyacht: it is a testament to craftsmanship and contemporary design, equally at home in private ownership, as a premier charter yacht, or as an exceptional flybridge yacht for those pursuing elevated experiences on the water.

DETAILED DESCRIPTION

Factory installed options

Thoughtfully specified, this yacht arrives with a smart automation system that controls lighting, shades and the AV system in customizable variations, an intercom telephone system for seamless onboard communication, and an upgrade to three 24-inch multi-function GPS displays for enhanced navigation awareness. Nighttime presence is amplified by an array of sixteen additional underwater lights, while day-to-day comfort is elevated by a dishwasher located in the sky-lounge and an ice maker in the upper deck cockpit. Efficiency and capability are improved by an energy recovery system integrated with the chiller and a 50 kW shore power converter that increases autonomy at dock. On the upper deck a skylight equipped with a motorized Sky Screen bathes the space in controlled daylight, and close-quarters handling is assured by a stern thruster. Practical touches abound throughout the vessel, from a side-mount ladder and a portable shower at the swim platform to a privacy curtain in the main deck cockpit. Entertaining comes naturally with a dining table and eight chairs on the upper deck aft, and guest accommodation is flexible thanks to twin cabins that convert to double sliding beds. Shade is on demand with dedicated awnings on the foredeck, the upper deck aft and the sundeck. Compliance and readiness for commercial operation are underscored by a Sewage Treatment Plant and a Fresh Water Sterilizing System, both mandatory for commercial class, together with a Commercial Class Essential Package that delivers additional telecom, navigation and safety equipment as required by CISR.

Disclaimer

The details of this yacht are offered in good faith for informational purposes;

however no guarantee is made as to the accuracy of the information and no warranty is provided regarding the vessel's condition. The yacht is offered subject to prior sale, change of price or withdrawal from the market without notice.
