OVERVIEW

The Fabbro Yachts F115 Trideck is an exquisite 35-meter superyacht designed for those who seek a perfect blend of elegance, performance, and opulence. Scheduled for delivery in February 2026, this tri-deck masterpiece features expansive interior and exterior spaces, accommodating up to 12 guests in six luxurious en-suite staterooms, along with seven crew members to provide exceptional service. Built with a steel-reinforced bow and a steel-aluminum master suite, the F115 Trideck ensures durability and safety in all sea conditions. Powered by twin MAN engines delivering 1182 horsepower each, it cruises smoothly at 12 knots and can reach a top speed of 15 knots. With state-of-the-art stabilization, sophisticated navigation systems, and premium onboard facilities, this yacht sets a new standard for superyacht luxury, offering an unparalleled experience on the water.

Key Features:

Beach Club

Twin 1,182 hp MAN engines

DETAILED DESCRIPTION

Machinery

This yacht is equipped with two powerful MAN engines, each producing an impressive 882 kW or 1182 horsepower at 2100 rpm. These engines guarantee a seamless and robust performance, whether you're enjoying a leisurely cruise or pushing the yacht to its full potential. To boost fuel efficiency, a cutting-edge fuel-oil separator system is in place, enhancing the yacht's operational economy and reducing its environmental impact. In terms of speed, the vessel offers a pleasant cruising speed of 12 knots, perfect for a relaxed and enjoyable voyage. For those seeking a bit more excitement, the yacht can accelerate to a top speed of 15 knots, delivering an exhilarating experience on the open sea.

Generators & auxiliary systems

This yacht features a pair of Kohler generators, each delivering 55 kW with automatic synchronization, guaranteeing a dependable and efficient power source for all onboard systems. The electrical setup is crafted to accommodate a variety of power requirements, incorporating a 24V DC configuration along with 380V and 220V AC options. For effortless dockside connectivity, the yacht is equipped with a 380V AC shore power system that includes automatic reclaim functionality, facilitating a seamless transition between onboard and shore power. Furthermore, battery chargers are installed to ensure optimal battery health, allowing all electrical systems to function smoothly and efficiently throughout your journey.

Ancillary systems

The yacht's auxiliary systems are meticulously crafted to offer unparalleled comfort and convenience for everyone on board. The climate control system boasts comprehensive air conditioning with a central chiller and fresh-air integration, enabling personalized temperature settings in each cabin to match individual preferences. Equally remarkable are the water systems, which include a desalinator or watermaker to guarantee a steady supply of fresh water. A dual pump system provides hot and cold water under pressure, complemented by a shore connection for added ease. For those who appreciate a refreshing rinse after a swim, a hot and cold shower is conveniently located at the stern. Furthermore, a sewage treatment system is in place, ensuring waste is managed efficiently and in an eco-friendly manner.

Safety & security equipment

The yacht is outfitted with an extensive range of safety and security systems to provide complete peace of mind for everyone on board. Central to its safety measures is an automatic fire suppression system, employing FM200 technology specifically tailored for the engine room, ensuring swift and effective fire control. This is complemented by the installation of automatic bilge pumps, essential for maintaining safety by efficiently handling any unexpected water ingress. For heightened security and surveillance, cameras are strategically positioned, with their feeds accessible in both the wheelhouse and the crew mess, enabling thorough monitoring of the yacht's critical areas. Together, these systems ensure that safety and security are top priorities, allowing you to relax and enjoy your time on the water with assurance.

Communication equipment

The yacht is fitted with crucial communication systems to guarantee uninterrupted connectivity and safety during your maritime journeys. At the core of this setup is a VHF radio, an essential device for ensuring clear and dependable communication with other ships, marinas, and coastal stations. This ensures you remain connected, whether managing docking operations or keeping up-to-date with weather forecasts and navigational information. The VHF radio is a vital part of the yacht's communication suite, offering reassurance and boosting the overall safety of your sea adventures.

Navigation equipment

The yacht is equipped with an extensive array of navigation tools crafted to guarantee accuracy and safety throughout your travels. Central to this system are electronic displays for depth and speed, delivering real-time information to guide you confidently. The autopilot feature simplifies control, enabling leisurely cruising while keeping a consistent course. To boost situational awareness, the yacht includes two radars and a plotter, providing comprehensive insights into your environment and assisting in secure navigation under various conditions. For communication and safety, the yacht is fitted with GMDSS (Global Maritime Distress and Safety System) and NAVTEX, ensuring you remain updated with essential maritime safety alerts and weather forecasts. This robust navigation suite ensures that each voyage is as secure and efficient as possible.

Deck equipment

The yacht's deck equipment seamlessly blends style with practicality, offering a luxurious yet functional onboard experience. The extensive teak decking

exudes sophistication and resilience, adorning the bathing platform, steps, side decks, foredeck, flybridge stairway, and the flybridge itself. This not only elevates the visual appeal but also provides a slip-resistant surface, ensuring safety as you navigate the yacht. To manage tenders and other gear, the yacht is fitted with a Pasa-Crane, featuring an impressive lifting capacity of 1000 kg. This crane is an essential tool for handling tenders, allowing for effortless launching and retrieval. Collectively, these elements ensure the deck is both an elegant and highly efficient space, enhancing your overall yachting experience.

Audio / visual entertainment

The yacht boasts a cutting-edge audio and visual entertainment system that reaches every cabin, ensuring each guest can indulge in a tailored entertainment experience. This sophisticated AV/IT setup offers effortless access to a diverse array of media options, enabling you to enjoy your preferred music, films, and shows in the comfort of your personal space. Whether you're unwinding in your cabin or entertaining in one of the yacht's shared areas, the entertainment system is crafted to provide exceptional sound and visuals, elevating your onboard experience with the latest advancements in entertainment technology.

Galley & domestic equipment

The yacht's galley and domestic amenities are meticulously crafted to offer the full spectrum of home comforts while at sea. The galley is comprehensively outfitted with a dishwasher, sink, stove, and oven, simplifying both cooking and cleaning. A refrigerator and freezer provide generous storage for fresh produce and frozen items, ensuring your culinary choices remain diverse throughout your journey. Numerous cabinets supply ample space for all your kitchen necessities and supplies. Furthermore, a washing machine is available,

making it easy to keep your wardrobe fresh during your travels. This well-rounded setup guarantees that all your domestic requirements are fulfilled, allowing you to enjoy a smooth and comfortable onboard experience.

Accommodations

The yacht provides opulent accommodations crafted to deliver both comfort and seclusion for all guests. It can accommodate up to 12 guests in six elegantly designed en-suite staterooms, ensuring each person on board has a private sanctuary. The master cabin stands out with its generous layout, featuring a private bathroom and a cozy seating area, ideal for unwinding. Beyond guest accommodations, the yacht can house a crew of up to seven, guaranteeing that every need is attended to with exceptional service. To ensure a pleasant atmosphere throughout the yacht, it is fitted with a climate control system that includes air conditioning and an air compressor, allowing guests to enjoy their stay in absolute comfort, no matter the weather conditions outside.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
