DETAILED DESCRIPTION

Introduction

For owners who prize generous volumes, refined lines and effortless enjoyment, the Heysea Asteria 108 presents a highly attractive proposition. Launched in 2021 by Heysea—an acclaimed Asian yard that has quickly been making its mark across Europe—she offers exceptional value when compared with European-built yachts of comparable size and internal volume. Her contemporary silhouette, assured seakeeping and a well resolved interior plan make her perfect for relaxed family cruising or for entertaining up to eight guests in four ensuite cabins, which comprise a master suite with an adjoining private office, one double and two twin cabins, all supported by five heads. Measuring 35.83 metres overall with a 7.10 metre beam and a 3.7 metre draft, her proportions create an open and inviting atmosphere while a GRP fiberglass hull ensures comfort and efficiency underway. Propulsion comes from twin Caterpillar engines, each rated at 1,900 bhp, yielding a comfortable 15 knot cruise and a 22 knot top speed for swift passages and easy coastal hops. Practicality is equally considered with twin Kohler 50 kW generators providing dependable electrical supply, a fuel capacity of 9,000 liters and 2,000 liters of fresh water for extended autonomy, and a Raymarine electronics suite for confident navigation. Please contact us to request further information or to arrange a private viewing, either remotely or aboard in person.

Interiors

The interior of the Heysea Asteria 108 presents a light-filled, airy and contemporary environment, where expansive windows draw in abundant daylight and reinforce an uninterrupted relationship with the sea. Social spaces on board are arranged with an open, inviting flow that suits relaxed

family living as readily as formal entertaining, while a practical layout featuring four cabins and five heads, together with carefully considered guest and crew quarters, ensures comfort for extended cruising.

On the main deck guests may relax in a gracious salon or dine indoors at a sleek rectangular dining table, while a second forward lounge crowned by a glass ceiling provides an elevated retreat. A conveniently located dayhead sits adjacent to the pilot station. Below, the lower deck sleeps up to eight guests across four cabins: a full-beam master aft complete with a private office, two twin cabins amidships to port and starboard, and a forward double cabin, each cabin benefitting from its own ensuite bathroom. The overall effect is modern and refined, with generous volume and an intelligent layout that make life aboard effortless and thoroughly enjoyable.

Exteriors

Outside, the Asteria 108 reveals a refined, well-proportioned silhouette defined by crisp lines and a contemporary flybridge architecture that lends the yacht a commanding presence on the water. Her exterior decks are spacious and flexible, offering abundant room for dining, lounging and socialising across a succession of distinct areas. Forward on the main deck a U-shaped seating arrangement flows naturally toward the sun pads positioned on the bridge-deck level, creating an elegant progression between sheltered and sunlit zones. The flybridge and open deck spaces are perfectly suited to alfresco living whether at anchor or underway, enhancing the yacht's sense of openness and onboard comfort. When combined with her performance and balanced proportions, the exterior presents a confident, stylish statement that will attract owners who desire both refined aesthetics and practical functionality.

Mechanics & technology

Driven by twin Caterpillar diesels rated at 1,900 bhp apiece, the Heysea Asteria 108 delivers assured performance, cruising comfortably at 15 knots with a maximum speed of 22 knots. Onboard power is provided by a pair of Kohler generators, each producing 50 kW, 3-phase at 50 Hz, while generous tanks—9,000 litres of fuel and 2,000 litres of fresh water—give the yacht extended autonomy for long-range voyages.

The navigation package is anchored by Raymarine electronics and a dedicated user control station, offering contemporary systems that promote confident handling and situational awareness. Built on a GRP fiberglass hull with a 7.10 m beam and a 3.7 m draft, the yacht combines a stable platform and excellent seakeeping; the engine room's considered layout facilitates straightforward maintenance and daily operation. In sum, Asteria 108 is a technically sound yacht assembled from proven components for dependable long-distance cruising. For further information, please contact us or allow us to arrange a video call should an in-person visit not be possible.

About the shipyard

Founded in 2004, Heysea Yachts has grown into one of China's most esteemed builders of luxury vessels, beginning its journey by creating bespoke floating residences for the Hong Kong market and, by 2007, evolving into the construction of large motor yachts. From its contemporary facilities in Jiangmen, Guangdong Province, the shipyard focuses on mid-size to large yachts in excess of 80 feet, offering a diverse range that includes the Asteria, Heysea, Seaview, Vista and Zoom lines. Frequently cited as China's leading yacht manufacturer, Heysea's dedication to superior materials, meticulous craftsmanship and modern aesthetics was recognised with the Best Asia-Pacific Superyacht Builder award in 2018. In recent years the brand has

extended its reach into Europe, establishing a dealer presence on the French Riviera and delivering its first explorer yacht commissioned by a European owner for cruising in the Mediterranean.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
