OVERVIEW

CRESCENT LADY unfolds an array of flexible interior and exterior environments conceived for elegant entertaining, leisurely lounging, and unforgettable dining, all carried with the composure of a luxury motor yacht that reads as a true superyacht. The lines are contemporary and streamlined, the profile of a raised-pilothouse performance yacht imagined by renowned naval architect Gregory C. Marshall. Her presence is purposeful yet refined, a vessel whose styling and construction are intended to remain fashionable for years to come. Natural light pours through sweeping windows to illuminate crisp, modern lines, meticulous joinery, and a tasteful palette of oak, stone, and premium textiles. An open-plan salon transitions fluidly into a formal dining area while a warm, country-style galley welcomes informal gatherings. Accommodation is arranged for up to 10 guests in five exquisitely finished staterooms: a full-beam master suite with a king bed, ample wardrobe space, and an ensuite that includes a Jacuzzi tub; two king VIP staterooms; and two twin cabins, each with its own ensuite. Crew quarters are thoughtfully designed to sleep five across three cabins, ensuring attentive, unobtrusive service throughout the yacht.

Ideal for Bahamas cruising with a shallow draft of 6.50' (1.98m), CRESCENT LADY pairs comfortable accommodations with lively capability, reaching up to 26 knots and cruising efficiently around 18 knots. ABT-Trac stabilizers deliver a composed ride both underway and at anchor. The raised pilothouse adds extra guest seating and wing stations for confident maneuvering, while the generous sundeck cultivates open-air living with a Jacuzzi spa, abundant lounges, a BBQ and dedicated space for tender stowage. Elegant, versatile and comprehensively equipped, CRESCENT LADY is a compelling planing motor yacht for owners who desire the union of luxury, performance and effortless indoor-outdoor living.

DETAILED DESCRIPTION

Construction

A robust fiberglass hull and superstructure are crowned by hand-laid teak decks, delivering quiet strength, long-lived resilience, and the warm, tactile elegance only fine teak can provide—an ideal foundation for confident passagemaking and refined onboard living.

Dimensions

General proportions are purposeful and capacious: length overall (L.O.A.) is 117.00 feet (35.66 meters), beam molded is 24.00 feet (7.32 meters), and loaded draft is 6.50 feet (1.98 meters), with tonnage at 232 gross. Capacities are thoughtfully specified for independence at sea, with fuel capacity of 4,500 US gallons (17,035 liters), fresh water capacity of 1,300 US gallons (4,921 liters), holding tank capacity of 1,546 US gallons (5,851 liters), grey water capacity of 120 US gallons (454 liters), and watermakers listed at 75 US gallons (454 liters). Performance is equally compelling, with a maximum speed of 26.0 knots, a comfortable cruising speed of 18.0 knots, and an economical speed of 10.0 knots. Range scales elegantly with speed, offering up to 860 nm at maximum, approximately 1,720 nm at cruising, and about 3,440 nm at economical pace.

Machinery

Power is delivered by two MTU 12V 4000 M90 main engines rated at 2,735 Hp each, turning through a 2.50:1 ratio (Model: DD6984A). The installation is finished to yacht standards with polished Cypriot nickel bronze exhaust piping and polished chrome MTU/DDC rocker covers for enduring reliability and a meticulously presented machinery space. Electrical generation and conversion

are equally robust, with two Northern Lights 55 kW generators (Port 323 / Starboard 326), shore power via two ASEA Model AC25Q-3 units and two 480V three-phase inputs, and a comprehensive charging suite that includes two Victron Energy Centaur 24V 60 Amp chargers and a Victron Energy SKYLLA-TG 24V 100 Amp charger, supported throughout by Discover Dry Cell Traction valve-regulated batteries. Lighting is modern and harmonized, featuring a controlled lighting system fully integrated into the vessel's entertainment ecosystem, four 350-watt underwater lights, and a Crestron Green Light system for elegant, efficient ambience. Climate control is assured by three Aqua Air 50-ton chillers with Dometic CruiserAir reverse-cycle heating and A/C controls and a dedicated air compressor, delivering serene comfort in every season. Essential auxiliaries underscore bluewater intent: two Sea Recovery 1800 GPD watermakers, ABT TRAC Zero Speed stabilizers, BCS trim tab controls, a 50 Hp hydraulic bow thruster and a 38 Hp hydraulic stern thruster for precise low-speed handling, and fuel polishing and filtration by RCI Technologies and Racor. Blackwater is managed by a Headhunter RF 200B system complemented by a Sting Ray Headhunter saltwater pump, while freshwater delivery is ensured by two Headhunter Mach5 pumps, a Shelco Micro Guardian water filter (4FOS2), and a Sanitron Ultra Violet purifier, with the freshwater production also supported by the two Sea Recovery 1800 GPD units.

Communication, navigation & entertainment systems

Clear communications begin with a new 2025 Icom (IC-M510) VHF. Navigation is anchored by radar from a Garman 1226 XHD2 array complemented by a new Garmin MR-18HD3, three 22-inch Garmin SPS touchscreens, and two multi-function Garmin mini displays, while the Garmin autopilot, depth sounder, GPS, chart plotter, and wind instruments provide a cohesive, intuitive

helm suite. Entertainment is immersive and discreet: in the main salon, a 65-inch Sony TV rises on a lift and disappears beneath a 2" white quartz counter, all orchestrated by a Crestron iPad controller; the master stateroom enjoys a 56-inch Samsung TV with surround sound speakers; guest staterooms are each appointed with two 24-inch Insignia TVs; the VIP stateroom features one 32-inch Insignia TV; and the country kitchen dining area and the aft deck each include one TV. Audio throughout is unified by a Crestron entertainment and lighting system for seamless source selection and mood control.

Galley & laundry equipment

The main galley is outfitted for serious culinary craft, featuring two Thermadore (MEDS301WS/01) stainless-steel-and-glass smart ovens with WiFi and steam capabilities, a Thermadore (MB30WS/01) stainless-steel-and-glass microwave, and a Thermadore (CIT365TB/01) five-burner Schott Ceran induction cooktop beneath an expanding stainless-steel range. Cold storage is capably handled by Subzero (ID-24F) dual freezer drawers, and the suite is completed by a dishwasher. The crew galley/mess is equally practical, with a GE stainless steel microwave, a U-line refrigerator, and two Asko Classic Series stacked front-load units. On the upper deck, additional cooking is a pleasure with a Napoleon built-in grill featuring burners and an infrared mode, while refreshments are served from a full-size wet bar with stainless steel sink, refrigerator, and ice maker; the aft deck adds a full-size wet bar with stainless steel sink, a new Electactic 4.5 cu. ft. refrigerator, and a new Kndko 100 lbs high-capacity ice maker. Laundry is effortless with a main 24" front-load washer and dryer set, complemented by the crew's two Asko Classic Series stacked front-load washer and dryer units.

Deck equipment

Deck gear is configured for effortless seamanship: a matched pair of Maxwell VWC 4500 anchor windlasses stands ready forward, assisted aft by Maxwell 3500 warping capstans, and the ground tackle comprises stainless steel "Pool" type anchors of about 300 lbs. Boat handling and tender operations are streamlined by a Steelhead Marine CT2500 davit rated to a maximum of 2,500 lbs, with two port and starboard side entry doors enhancing boarding flexibility. The Euro transom is elegantly appointed with chandeler stairs, port and starboard shore power connections, and removable stainless steel staple rails, while a new swim platform awning with poles and new aft deck sun shades extend comfort at anchor. For indulgent relaxation, a Balboa Coast Spas four-person Jacuzzi awaits on deck.

Accommodations

CRESCENT LADY offers expansive interior and exterior volumes purpose-built for entertaining, lounging, and dining in elevated style. Conceived by renowned naval architect Gregory C. Marshall, the CRESCENT 117 harmonizes a sleek, contemporary profile with an interior whose elegance is timeless. Sunlight pours through large panoramic windows, illuminating clean modern lines and refined craftsmanship, where high-quality joinery, luxurious fabrics, and tastefully curated soft furnishings create an atmosphere that is both inviting and sophisticated. Accommodations for up to 10 guests are arranged across five beautifully appointed staterooms for exceptional comfort. The full-beam master stateroom centers on a walk-around king berth with bedside USB charging and Crestron lighting, complemented by a 56" Samsung TV with surround sound, a quartz desk, a cozy seating area, and a generous cedar-lined walk-in wardrobe; the ensuite is finished with dual Grohe faucets, Kohler sinks set in quartz, a Headhunter toilet, and a Grohe Smart Thermostat

shower with rainfall head, glass door, and a seating area. The forward VIP stateroom features a queen berth with bedside tables and LED reading lights, a 32" Samsung TV, Dometic climate control, and a cedar-lined walk-in closet; its ensuite includes a Grohe faucet, a Kohler sink on a quartz counter, a Headhunter Royal Flush toilet, and a Grohe shower with a glass door and seating. The lower deck VIP offers a queen berth with bedside tables and LED reading lights, a 24" Insignia TV, a desk with storage, and a cedar-lined closet, with an ensuite fitted with Grohe fixtures, a Kohler sink on quartz, a Headhunter toilet, and a glass-enclosed shower with a seating area. The port mid guest stateroom presents twin berths with reading lights, a 24" Insignia TV, Hunter Douglas blinds, and Dometic climate control; its ensuite combines Grohe and Kohler fixtures with a quartz counter, a Headhunter toilet, and a shower with a glass door and seating. The starboard mid guest stateroom mirrors this thoughtful comfort with twin berths, a bedside table and USB ports, a 24" Insignia TV, Hunter Douglas blinds, and Dometic controls, and an ensuite with Grohe and Kohler fixtures, a quartz counter, a Headhunter toilet, and a shower with seating—every space designed for restorative privacy and effortless indulgence.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.

For more information and to view available yachts, you can visit the company's official website: <https://shestakovyachtsales.com>
