OVERVIEW

This 119 foot Italian motor yacht, completed in 2021, marries Mediterranean elegance with exhilarating performance. Built in Italy and launched as a contemporary Superyacht, she presents the clean silhouette of a modern planing motor yacht while offering the refinement and comfort of a true performance vessel, comfortably cruising at 23 knots with maximum speeds reaching 27 knots.

Her 119 foot overall length and generous 25 foot beam create abundant interior volume and broad, inviting decks that encourage seamless indoor outdoor living. Constructed using advanced composite techniques in fiberglass/GRP, the hull is a lightweight yet robust platform engineered for speed, economy and a hushed ride at sea; the GRP decks feel substantial beneath bare feet and stay pleasantly cool in full sun. A shallow 7.38 foot draft broadens the cruising map — from Amalfi's secret coves to Bahamian sandbars — granting access to anchorages that deeper keeled Superyachts must admire from a distance.

The main deck is composed for understated sophistication: conversational lounge groupings bathe in natural light through wide panoramic glazing, and a fluid arrangement leads naturally to an expansive aft terrace ideal for dining al fresco. Forward sunpads provide a secluded retreat when at anchor, while the transom and swim platform are designed for water level living — launching tenders and toys, taking refreshing swims or stepping aboard after a long lunch ashore are effortless pleasures. Sightlines and surfaces are conceived with entertaining in mind, finished with the finesse expected of an Italian motor yacht.

Below decks, accommodations are oriented toward calm and privacy. Effective acoustic insulation and the composite hull construction preserve serenity whether slicing through the waves or mooring under the stars. The interior

layout suits families and friends on extended cruises, with service delivered by a professional crew housed in five crew cabins so that hospitality remains discreet and attentive from morning cappuccinos to late night snacks.

Propulsion is provided by twin MTU diesel inboards, offering reliable power, smooth acceleration and surefooted handling in tight marinas. Substantial tankage — approximately 3,619 gallons of fuel and 1,109 gallons of freshwater — supports ambitious itineraries, and efficient systems with thoughtful engineering simplify operation for captain and crew. The result is a yacht equally at ease sprinting between ports or settling for a long weekend on a tranquil hook.

Elegant yet inviting, powerful yet refined, this 2021 Italian built motor yacht occupies the sweet spot between Superyacht presence and sport yacht agility. Lying in Italy and offered turnkey, she promises cruising where every arrival feels grand and every departure hints at further discoveries.

DETAILED DESCRIPTION

Detailed description

This sophisticated Sanlorenzo 118 showcases the exceptional design and build quality for which Sanlorenzo is renowned, conceived through a close collaboration between a dedicated owner's team and a Northern European project manager, and stands among the finest and best-equipped SL118s ever constructed. With a planing GRP hull, the yacht marries speed and efficiency with voluminous, luxurious living spaces, while Visionnaire has composed an expansive, opulent interior in warm, neutral tones accentuated by onyx and marble details. The main salon opens onto a magnificent balcony that floods the room with natural light and creates a seamless indoor-outdoor connection, and the main living room balcony harmoniously blends interior comfort with the sea air to amplify the sense of space. Accommodation is arranged for up to ten guests across five en-suite cabins, including a full-beam owner's suite with port and starboard balconies that impart the sensation of a yacht over 40m and greatly elevate the suite's sense of luxury, two VIP cabins, a twin cabin and a convertible children's room or media room, while discreet, separate crew quarters accommodate a crew of five. Outdoor living is equally compelling, with a generous aft deck designed for al fresco dining, a spacious foredeck sunbathing area complemented by a customized forward seating arrangement unique to this SL118 and a bespoke flybridge layout featuring a wet bar and an additional dining area that together create optimized flow and comfortable social spaces. Twin MTU engines propel the SL118 to a top speed of 27 knots and a comfortable cruising speed of 23 knots, and a zero-speed stabilization system enhances comfort at anchor, while subtle refinements such as grey teak caulking refine the deck's sophisticated aesthetic. Maintained exclusively for private use, this SL118 is offered for sale in impeccable condition and

presents a turnkey opportunity for discerning buyers; its timeless Sanlorenzo lines, luxurious Visionnaire interior, accommodation for ten guests in five cabins and custom flybridge with optimized layout and spacing—complete with bar, dining and lounge areas for relaxed social gatherings—underscore its pedigree. Impeccably preserved for private enjoyment, it awaits your inspection; contact us now for tours to La Spezia.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
