DETAILED DESCRIPTION

Sanlorenzo SL118 #628

Offered for sale, Sanlorenzo SL118 #628 is a 2016 build that balances Italian elegance with purposeful engineering, driven by twin 16V 2000 M96 engines delivering a total of 5.274 horsepower. Her generous layout welcomes ten guests across five cabins, complemented by dedicated crew accommodations to ensure seamless service and absolute privacy at sea. The onboard electrical architecture is designed for effortless autonomy and shore-side convenience, featuring a Glendinning CM8 cablemaster for 100/125A shore sockets, while a refined domotic system harmonizes daily comfort by orchestrating air conditioning, lighting and electric curtains in the Owner's cabin and main salon and managing exterior lights for perfect ambiance from dusk to dawn. In the engine room, reliability and cleanliness are paramount: fuel is polished by the MIB30 Alfa Laval system and the Tecnicomar Ecomar16 treats black and grey water with discretion and compliance, while an Air Treatment Unit (UTA) serves the guest cabins on the lower deck to maintain ideal air quality and temperature underway or at anchor. Close-quarters control is assured by an electric stern thruster that lends poise to every approach and departure, while vigilance is enhanced by a CCTV system with Raymarine cameras and an additional twelve-inch touch screen monitor for the ship monitoring system in the crew dinette; for ultimate command flexibility an MTU portable control station places maneuvering right where you want it. Entertainment and connectivity are world-class courtesy of two Seatel TV SAT 100TV antennas and a Sailor 500 FB antenna for reliable voice and data, ensuring guests remain as connected—or as blissfully unplugged—as they desire. Topside, teak graces the flybridge and continues forward with a teak floor in the bow area including the port and starboard steps, a custom Jacuzzi mini pool on the flybridge is fed

by boilers and the fresh water tank with a mixer tap, and twelve underwater LED lights at 7000 lumen create a luminous wake at anchor; natural airflow and open-water romance are encouraged by an openable side window in the Owner's cabin and openable electric windows in the main deck salon to port, joined by two electric doors to starboard and the cockpit, while a hardtop with a custom roof opening system and a bespoke flybridge helm station elevate piloting to an art. Inside, thoughtful versatility meets modern Italian taste with four Pullman berths in the VIP and guest cabins to adapt sleeping arrangements effortlessly, a galley with an electrically openable window, loose Paola Lenti furniture dressing the main deck cockpit for an elegant lounge-like alfresco setting, teak throughout the salon for a warm contemporary atmosphere and two electric skylights with electric curtains in the wheelhouse that bring natural light and sky views to the command center; altogether, SL118 #628 is a statement of poise, performance and exquisitely detailed living at sea.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
