OVERVIEW

Crafted in Italy under the direction of Centro Stile The Italian Sea Group, this 120-foot aluminium motor yacht marries contemporary Italian refinement with purposeful naval engineering. Presented as a 2026 model yet launched in 2022, she offers the rare combination of a fresh, forward-looking specification and the reassurance of an already proven build, an enticing proposition for owners seeking immediate enjoyment without compromise.

Her slender aluminium monohull and a generous 26-foot beam create an internal volume approaching 300 gross tons, producing a sense of spacious calm more often found on much larger vessels. Wide glazing pours light into the main living spaces, revealing a material palette that prizes tactile surfaces and crisp, architectural lines. The aesthetic is resolutely Italian: muted yet sculptural, modern yet warmly inviting.

Twin MTU inboard diesel engines provide composed propulsion, delivering a comfortable 17-knot cruising speed and a stimulating 19-knot top end, all while maintaining a dignified, low-vibration presence. A remarkably shallow draft of just under five feet opens up secluded coves and intimate harbors, making effortless island-hopping and Mediterranean exploration part of the yacht's everyday promise.

On deck, expansive exterior lounges and well-considered social areas flow from sunlit daytime relaxation to intimate alfresco evenings with graceful ease. The wide beam imparts the feeling of a private seaside terrace, while thoughtful deck arrangements encourage conviviality and quiet retreat in equal measure. Inside, Centro Stile's interior design provides a refined sanctuary: flowing salon spaces for entertaining, a dining area fashioned to invite conversation, and tranquil private cabins accompanied by four exquisitely appointed bathrooms.

Practicality is woven discreetly into the layout with a dedicated service

arrangement and three crew cabins that ensure attentive, unobtrusive care for guests. Endurance is assured by substantial tankage, with nearly 4,000 gallons of fuel and over 900 gallons of fresh water allowing extended coastal cruising with minimal interruption. The alloy hull and deck offer long-lasting durability, efficient performance and a timeless, satin-sheen finish that will reward connoisseurs of fine shipbuilding.

This vessel is conceived for those who value Italian artistry, understated power and gracious hospitality, a sophisticated platform for exploring storied coastlines and composing unhurried moments that remain long after the anchor is raised.

DETAILED DESCRIPTION

Diesel generators

Twin diesel generators, rated at 2 x 50 kW, deliver steadfast onboard power at 400 V, 50 Hz, three phase, ensuring hotel services, navigation systems, and comfort amenities operate in quiet, confident harmony. Engineered for redundancy and efficiency, this power plant underpins seamless autonomy at anchor and smooth cruising in every condition.

Bow thruster

A powerful electric bow thruster, rated at 30 kW and operating on 400 V at approximately 50 Hz, lends precise control and poised agility for effortless docking and close quarters maneuvers. Smooth, responsive thrust translates into confident handling and whisper quiet authority at the helm.

Detailed description

As part of the Company's strategic development, Tecnomar is delighted to present a singular opportunity: the Tecnomar EVO 120, hull No. 5 of the series, is under construction with delivery in just 18 months and a choice of two interior layouts—the standard configuration or an alternative featuring an open Beach Area. This accelerated build schedule, paired with the flexibility of design, invites an owner to shape a yacht that blends contemporary allure with the brand's celebrated performance and craft.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
