## OVERVIEW

---

New photographs are now available.

Owned by a shipyard, GIORGIA1 underwent a comprehensive refit completed in Summer 2024 at Lusben, with the full works list ready to be provided on request. Available for private viewings in Varazze, she presents a refined evolution of the standard Benetti Classic 120: a graceful tri deck superyacht that pairs lavish cruising comfort with upgraded seaworthiness. The refit introduced enhanced connectivity and next generation entertainment systems, a broader complement of water toys, and upgraded stabilizers, alongside a series of fresh performance and comfort enhancements that together deliver peak performance and serene onboard living.

# DETAILED DESCRIPTION

---

## Description

---

New photos are now available and the yard owned Giorgia1 has just completed an extensive refit in summer 2024 at Lusben Yard, with a complete list of works available on request; she is currently offered for private viewings in Varazze. Compared with a standard Benetti Classic 120, Giorgia1 presents significantly enhanced connectivity and entertainment systems, a broader selection of water toys, upgraded stabilizers and meticulous recent refits that collectively raise both performance and onboard comfort to a refined standard.

## Refits

---

A thoughtful sequence of works underscores diligent ownership: in 2020 a major interior refit was completed at Nautech in La Ciotat; during 2021–2022 the yacht received a full Zytexx hull coating alongside varnish touch ups, carpet replacements and cabin deckhead repairs; and in 2024 she underwent hull cleaning, antifouling and additional maintenance at Lusben, each phase executed to prolong longevity and refresh both aesthetics and systems.

## Accommodation

---

Thoughtfully arranged for versatile family cruising, the yacht accommodates ten plus two guests in five cabins (one Master, two Double, two Twin with Pullman berths), with up to seven crew in four crew cabins to ensure seamless service. The main deck master suite enjoys a private study and a large ensuite, while the upper salon features a sit up bar and opens onto an upper deck alfresco dining area for ten. Above, the sundeck invites languid days with

generous lounging space and a Jacuzzi, and a well stocked toy locker completes the experience with a tender and water toys including Seabobs, jet skis and sea scooters.

## Navigation & communication equipment

---

An integrated navigation suite anchors confidence at sea, combining advanced Furuno radar with GPS, autopilot and an echosounder. New WiFi installed in 2017 and Starlink internet added in 2024 ensure robust connectivity throughout the yacht, while upgraded VHF and UHF radios further sharpen crew communication and operational efficiency.

## Entertainment system

---

Life on board is enriched by a Sonos AirPlay ecosystem and Bose speakers positioned in key living areas, creating a refined acoustic atmosphere. Discreet, retractable 43" Samsung TVs pair with an iPad controlled Y.E.S. entertainment system in the main salon, sky lounge and master suite, while guest cabins are fitted with 26" Samsung TVs and integrated sound for effortless indulgence.

## Mechanical & performance

---

Power comes from two Caterpillar C32 engines, each producing 1,550 hp and delivering a top speed of 16 knots. She settles into a comfortable 13 knot cruise, achieving a range of 3,500 nautical miles at that speed; with a fuel capacity of 42,000 liters and Naiad Zero Speed stabilizers, the yacht combines long leg capability with exceptional comfort both at anchor and underway.

## Onboard systems

---

A climate controlled haven is maintained by air conditioning rated at 432,000

BTU, while a high capacity watermaker produces 14,400 liters per day to support extended itineraries. Advanced sewage processing and vacuum toilet systems contribute to clean, quiet and reliable operations throughout the vessel.

## Deck & tender equipment

---

Leisure is effortless thanks to a hydraulic swim platform and an emergency crane on the sundeck, streamlining water access and tender handling. The Novurania Equator 540 tender, powered by a Volvo Penta engine, stands ready for swift transfers and exploration, while an extensive inventory of watersports gear includes jet skis, kayaks, paddleboards and snorkeling equipment to satisfy a wide range of onboard pursuits.

## Propulsion

---

Propulsion is by twin CAT C32 diesel engines, each rated at 1,550 hp, with approximately 5,542 engine hours recorded on both engines at the time of writing. Fuel throughout is diesel, delivering the reliability and service network owners expect from CAT.

## Specifications

---

The specification sheet records a cruising speed of 7.02 knots and a maximum speed of 8.64 knots, with a listed range of 1,889.85 nautical miles. Principal dimensions are noted as 1200.79 ft length overall, 738.19 ft minimum draft, and 259.19 ft beam. Gross tonnage is 299, with fiberglass construction and a displacement hull form. Fuel tank capacity is listed at 11,095.23 gallons, and seating capacity is 10. Accommodations in the specification include four guest cabins and four guest heads, along with three crew cabins.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
