OVERVIEW

The Majesty 120 is a striking 37-metre tri-deck motor yacht that heralds a new era in superyachting, marrying bold, sweeping exterior lines with unusually generous internal volume and considered operational efficiency. Honoured with the “Eco Award” and “Best Naval Architecture” at the 2023 BOAT International Design & Innovation Awards, she brings together cutting-edge naval engineering and a refined, contemporary silhouette.

Crafted from advanced lightweight composites at Gulf Craft’s fully integrated facility, the Majesty 120 incorporates an innovative heat-recovery system that permits a smaller generator package, reduces fuel consumption and curbs emissions. With a shallow 2.1 m draft, this tri-deck design is tailored for effortless exploration of the Mediterranean, the Greek Islands and the Caribbean, granting access to secluded coves and near-shore anchorages that deeper vessels cannot reach.

Thoughtful interior planning gives the yacht exceptional charter appeal: the MLC-compliant class platform supports an uncommon six-stateroom layout accommodating 12 guests, alongside professional crew quarters for seven, making her equally suited to discreet private ownership or high-end charter service. Extensive R&D has expanded the outdoors by up to 30%, culminating in a 65-square-metre flybridge sundeck complete with Jacuzzi, a full bar and expansive lounging areas designed for long days at sea and elegant evenings under the stars.

The bridge-deck aft presents a shaded teak dining table for 10 paired with a comfortable seating salon, while the forward deck provides a panoramic, sun-drenched retreat. Full-length glazing and sculpted bulwark cut-outs on the main deck invite the horizon inside, where a shaded cockpit for 10, a commercial-spec chef’s galley, a dedicated serving pantry and a separate laundry ensure seamless service and entertaining. Interiors showcase

meticulous craftsmanship—hand-finished solid wood, sumptuous leathers and generous marble detailing combine to create a composed, gallery-like atmosphere of modern sophistication.

A versatile 30-square-metre hybrid beach club offers sublime water access and converts intelligently into a tender garage, with additional storage provision for two bow jet skis and an aft tender, all handled by two onboard cranes—completing a precisely engineered, blue-water-capable superyacht.
