OVERVIEW

The 37-metre KANDO120 is a purpose-built long-range explorer motor yacht engineered for extended bluewater passages, combining a resilient steel hull with a weight-conscious aluminium superstructure to deliver both strength and efficiency. With a gross tonnage of 390 GT and an endurance exceeding 6,500 nautical miles, she is designed for owners who wish to venture far with confidence, comfort and peace of mind. Arranged over four decks, KANDO120 welcomes up to 12 guests across six double staterooms, anchored by an elegant 27 sqm full-beam owner's suite positioned forward on the main deck. Floor-to-ceiling glazing suffuses the suite with natural light, enhancing a sense of space and framing sweeping outlooks to the horizon.

Generous entertaining areas continue the theme of openness: a 55 sqm main-deck salon and a 50 sqm upper-deck lounge both benefit from tall glazing and refined automatic sliding doors in polished stainless steel, creating luminous, seamless transitions between interior and exterior and promoting effortless circulation throughout the living spaces. Conceived and realised by AvA Yachts' in-house team, the interior composition blends warm, carefully selected materials with a restrained contemporary language and a timeless atmosphere. High-gloss American walnut and wenge contrast with deep leather seating, while a layered palette of satin timber floors, carpets and pale upholstery establishes a calm, sophisticated environment throughout the yacht.

Power is supplied by Cummins marine diesel engines, and the technical package is comprehensive, including Furuno navigation electronics, Sleipner bow and stern thrusters, fin stabilisation and Kohler generators to ensure capable, comfortable passages. Life on deck has been designed for carefree alfresco living, with a flybridge jacuzzi, a transformer swim platform and expansive deck areas tailored for entertaining, relaxation and sun worship.
