OVERVIEW

MCP Yachts and Vripack present their latest collaboration, a visionary undertaking that signals a new chapter in bespoke yacht building. This fully custom, all-aluminum luxury motor yacht has been conceived and crafted in close concert with the owner's aspirations, forming the ideal foundation for a multi-year design development partnership between MCP Yachts and the renowned Dutch studio.

The 40-meter Seaview is driven by twin Caterpillar C32 engines, each delivering 1,925 MHP. Combined with a meticulously engineered, efficiency-focused hull form, the yacht achieves a top speed of 19 knots and a bluewater cruising range of 3,500 nautical miles. For transoceanic passages, she offers remarkable economy and comfort at 10.8 knots, consuming just 100 liters per hour in total—an impressive testament to long-range superyacht engineering.

The MCP 40.7M is designed as a family-first tri-deck superyacht with exceptional interior volume and expansive open-air living. Seven staterooms include a forward-facing Owner's suite that opens onto a generous private terrace, creating a serene sanctuary at sea and a hallmark of modern luxury yacht design.

Two additional VIP staterooms are positioned on the lower deck, while the upper deck is thoughtfully reserved for family enjoyment, featuring a forward observation lounge and a distinctive asymmetrical balcony for intimate moments underway. The sky lounge incorporates graceful gullwing lookouts offering forward vistas and a seamless flow to the large, sheltered aft deck—perfect for alfresco dining and relaxed entertaining—while discreet crew separation ensures flawless service and complete guest privacy.

On deck, privacy has been elevated to an art form. Dedicated crew stairways and passageways provide unobtrusive access to all guest areas, underscoring a layout that prioritizes both seclusion and service. According to Vripack's

creative leadership, unlocking the full spatial potential of a 40-meter platform demanded inventive thinking; a dynamic co-creation between the Owner, MCP, and the design team produced a plan that is at once intuitive and refreshingly unconventional, maximizing every cubic meter aboard this custom superyacht. Inside, sweeping sea views are celebrated through expansive glazing, while a refined dialogue between classic craftsmanship and contemporary styling sets the tone for life aboard—equally at home on elegant passages, adventure-filled journeys to the far reaches of the globe, or effortless family cruising. Balancing bold character with understated grace, and comfort with performance, this exquisite 40.7-meter luxury superyacht embodies the strength of an extraordinary partnership and delivers a result that is, quite simply, exceptional.

DETAILED DESCRIPTION

Overview

Every passage is guided by a comprehensive electronics suite that includes a depthsounder, log-speedometer, wind speed and direction instrumentation, repeater displays, and a fully equipped navigation center with plotter, autopilot, compass, GPS, VHF, radar, and a radar detector. Entertainment and productivity are equally well served by a computer, TV set, VCR, DVD player, radio, CD player, and powerful cockpit speakers. Comfort and control underway are elevated by Seakeeper stabilization, bow and stern thrusters, electric and manual bilge pumps, a battery charger, and an air compressor, while climate and convenience are ensured through air conditioning, heating, and hot water. Extended cruising is supported by a fresh water maker and sea water pump, and a thoughtfully appointed galley featuring a dishwasher, washing machine, oven, microwave oven, refrigerator, and deep freezer. A versatile head arrangement includes a marine head, an electric head, and a chemical head. Power management is robust and reliable with a shore power inlet, generator, and inverter. On deck, craftsmanship and capability meet with a teak cockpit and teak sidedecks, complemented by both a gangway and a hydraulic gangway, a wind generator and a solar panel, inviting cockpit cushions and a cockpit table, and practical amenities such as a swimming ladder, cockpit shower, outboard engine brackets, and davits. Safety and readiness are further enhanced by a radar reflector, a tender, and a liferaft, while protective covers—including a bimini top, mainsail cover, and cockpit cover—keep everything shipshape between adventures.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
