OVERVIEW

Amer F 126 – 2025 – New

The Amer F 126 unites design flair, sportiness, and refined comfort. Conceived to optimize volume inside and out, it presents taut, athletic lines and a graceful profile, with exterior styling by Antonio Luxardo. This luxury motor yacht offers 5 guest cabins: a generous owner's suite on the main deck and 4 double staterooms, each with its own ensuite. Forward lies a dedicated crew area.

Powered by four 1,000 hp Volvo Penta IPS units and enhanced by forward-thinking technology, this performance luxury superyacht delivers outstanding seakeeping, handling, and notably low fuel consumption.

DETAILED DESCRIPTION

Sporty lines and a streamlined silhouette

Flagship of the Amer Yachts series, the F 126 is a concept created by the shipyard to maximize the potential of interior and exterior spaces and is designed for intensive use, making it equally suitable for charter. It presents itself with sporty lines and a streamlined silhouette and ensures low consumption.

The yacht adopts a hybridization of materials, integrating aluminum with a traditional composite base, and introduces a new composite that is recyclable at the end of its life, achieving a reduction in fiberglass use of 30 to 50 percent. Propulsion is provided by multiple Volvo Penta engines with IPS, supported by innovative technological choices.
