## OVERVIEW

---

This 125-foot Mulder-conceived performance motor yacht, freshly reimagined in 2024, marries classic Dutch naval elegance with a comprehensive contemporary renewal and is presently located in the United States. Originally launched in 1994 and fully updated to modern standards, her Mulder lines remain unmistakable—sleek and purposeful above the waterline, with interiors that continue that architectural discipline in calm, well-proportioned rooms.

Propelled by twin inboard Caterpillar diesel engines, she delivers the thrilling assurance of a true performance yacht, comfortably cruising at 25 knots and capable of reaching roughly 30 knots when called upon. Her advanced planing hull and generous 23-foot beam combine to produce a confident, stable motion and substantial interior volume, while fiberglass composite construction and low-maintenance decking materials emphasize durability and simplified ownership.

Inside, the ambiance is refined and inviting, assembled from premium materials, exacting joinery, and a tranquil, contemporary color scheme. Natural light floods the main salon through expansive glazing, illuminating a lounge conceived for easy conversation and a formal dining space that turns every meal into an occasion. The overall effect is crisp and luxurious, equally appropriate for a black-tie evening or a sunlit family getaway.

Accommodations are arranged to host up to four guests, cultivating an intimate private-yacht experience with exceptional personal space. Staterooms are elegantly finished with designer touches and plentiful wardrobe storage, supported by five baths including a convenient day head—an uncommon convenience on a yacht of this scale. Crew quarters consist of four dedicated cabins with sleeping berths for five, fully segregated from guest areas to maintain privacy and a five-star level of service.

On deck, expansive lounging zones and alfresco dining areas invite every style of entertainment, from sunrise breakfasts to starlit cocktails. Wide side decks and well-placed handholds make moving about secure and effortless, while ample storage provides room for tenders and water toys. Substantial fuel capacity of approximately 10,000 gallons and roughly 1,500 gallons of freshwater enable extended passages with confidence.

Every space reflects the 2024 enhancements: updated systems, contemporary textures, and a unified design language that whispers restrained sophistication. For buyers seeking Superyacht presence, planing performance, and Mulder pedigree—powered by Caterpillar inboard diesels and built in fiberglass—this 125-footer represents a rare United States opportunity in the Luxury Yacht and Performance Motor Yacht arenas.

## DETAILED DESCRIPTION

---

### Brand new cats with warranty 10 years available

---

Explore the interior in a 3D virtual tour at [my.matterport.com/show/?m=G74yJuqw2zn](https://my.matterport.com/show/?m=G74yJuqw2zn). Originally delivered in 1995 by Norship in Norway and comprehensively refitted in 2024, this yacht now benefits from brand new Caterpillar C-32 engines with a warranty available for up to ten years, structured as a standard three year warranty with optional two and five year extensions. The 2024 refit, estimated at \$3,000,000, encompassed an all new A/C plant, renewed teak, a fully refreshed interior, repowered main propulsion, new running gear, and rebuilt generators with a two year warranty, among numerous additional upgrades that return the vessel to modern, turnkey condition. Her performance is both thrilling and efficient, delivering a top speed of thirty knots and a comfortable cruise at fifteen knots at 1200 rpm with a consumption of 23 gal/hrs./M, while achieving a 4500 range at displacement speed. Handling is refined and intuitive thanks to wireless remote control Dockmate and joystick maneuvering, making close quarters simple and confidence inspiring. Perfectly suited for Bahamas charters, she draws a super shallow six feet six inches thanks to new Veem props recessed in tunnels and the preferred straight shaft, prop, and rudder arrangement, while an Opacmare transformer platform streamlines toy launch and effortless water access. Storage and fun are paramount, with three garages designed to carry two jet skis and two inflatable tenders, and the flybridge celebrates outdoor living with a jacuzzi anchoring a convertible sunbathing deck and an elegant al fresco dining table. The Master suite indulges with its own jacuzzi, his and hers amenities, and an extra large walk in closet with a dedicated dressing room. A huge commercial grade galley features an onyx prep island and Sub Zero drawers, and the full beam

saloon flows seamlessly to an extra long aft deck with a welcoming bar area. Easy to show and even more impressive in person, she is turnkey, modern, and engineered for memorable cruising.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
