OVERVIEW

Step aboard a sublime expression of luxury and capability: a 2027 superyacht now offered for sale in the heart of Italy. This extraordinary vessel, the result of PALUMBO SUPERYACHTS craftsmanship, stretches 127 feet and presents a refined monohull silhouette engineered for both beauty and seaworthiness. Built from a careful combination of fiberglass and plastic with a deck finished in premium GRP, she promises durability and a sleek, effortless passage through the waves.

The yacht's spaces were conceived by designer Fulvio De Simoni, whose signature touch transforms interior volume into a haven of sophisticated comfort. Rich materials and considered detailing create an atmosphere of restrained opulence, while the layout includes three crew cabins configured to accommodate up to five crew members, ensuring attentive service and smooth operation on every voyage.

Under her lines lie three MAN inboard engines that deliver commanding performance: a cruising speed of 26 knots and a top speed of 35 knots, blending long-range efficiency with thrilling capability when desired. Long passages are well supported by a fuel capacity of 5,283.44 gallons and a fresh water capacity of 924.6 gallons, allowing extended exploration without compromise. With a shallow draft of just over 4 feet, this yacht affords access to secluded coves and hidden harbors that deeper-draft vessels must forgo.

More than a vessel, she is a lifestyle platform—ideal as a private sanctuary or a stage for elegant entertaining—harmonizing performance, comfort, and unmistakable style. Available now in Italy, this 2027 superyacht represents an exceptional opportunity to claim a modern classic of yachting excellence. Embrace the prospect of ownership and set a course for extraordinary adventures.

DETAILED DESCRIPTION

Isa Viper 130

The ISA Viper 130 is a stunning example of modern yacht design, combining performance, elegance, and luxury in a vessel that stretches 38.72 meters in length. Constructed with a composite hull and superstructure reinforced with carbon fiber, this yacht is a testament to ISA Yachts' over twenty years of expertise in crafting GRP sports boats renowned worldwide. The exterior and interior design have been masterfully developed by Fulvio De Simoni Studio, while naval engineering has been expertly handled by ISA Yachts, resulting in a displacement vessel propelled by three MAN engines, each producing up to 2200 horsepower, enabling a maximum speed of 35 knots and a comfortable cruising speed of 26 knots.

The yacht's layout is thoughtfully divided into distinct zones, with the cockpit as the most representative area and the stern beach club at sea level featuring a multifunctional transformer that serves both as a bathing step ladder and a gangway. Ascending two side steps leads to a large sun pad facing aft, complemented by a lounge area furnished with sofas and a coffee table, while two opening side balconies enhance the liveability of this space and an outdoor dining zone seats up to eight people. The aft galley and bar, separated by an up/down tinted glass partition, deliver versatility for both formal and informal occasions, from show cooking to cocktail parties, with a staircase to the left of the bar rising to the sun deck. To maximize interior flow, ISA Yachts has provided a single port-side walkway to the bow; amidships near the lounge an additional opening balcony reveals breathtaking views from the indoor sofas, and at the bow a circular swimming pool surrounded by sun loungers and sofas offers a serene spot for relaxation.

Inside, a second combined galley and bar leads to a bright lounge framed by

floor-to-ceiling windows that open to panoramic views, furnished with semi-circular sofas and armchairs and anchored by a second 10-seater circular table. The command bridge is positioned on the main deck forward, with a staircase to its left descending to the lower deck, where four double cabins with private bathrooms and the owner's suite with a double bathroom are located. The sun deck, sheltered by a carbon hard top and featuring a second helm station, provides a private and versatile guest area with two large sun pads aft, a lounge with sofas, an L-shaped bar and a 12-seater table. Crew accommodations for a crew of four plus the captain are arranged in three cabins with private bathrooms, with discreet access via a staircase located in the galley, and a garage on the starboard side houses a 5-meter tender, ensuring every detail of luxury and functionality is seamlessly integrated into the ISA Viper 130.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
