DETAILED DESCRIPTION

Soyaslan custom

This 39.95 m passenger yacht project stands exactly as shown: an unfinished yet impeccably engineered platform that invites a discerning owner to define the final vision. Conceived to host twelve guests in six cabins, she delivers generous living volumes and a remarkably adaptable layout that can be finished to suit a bespoke programme, and is offered for purchase as-is or progressed to full completion to your specifications. Certified under Bureau Veritas (HULL • MACH CHARTER YACHT – motor – S Unrestricted Navigation) and flying the flag of Palau, the vessel bears the project name 40 M SOYASLAN N130 and is designated as a Passenger Yacht. Her dimensions underscore purposeful capability: Length Overall 39.95 m; Waterline Length 39.81 m; Beam 9.00 m; Draft 2.30 m; Depth 4.03 m; Gross Tonnage 390 GT; Displacement 316 tonnes. Performance projections indicate a maximum speed of 14 knots and an economical cruising speed of 12 knots, supported by a crew capacity for 13 to ensure safe, comfortable operations at all times. Propulsion and machinery have been specified for reliable endurance: the main plant comprises two Doosan 4V222TIH engines rated at 588 kW at 1800 RPM, coupled to two Doosan reduction gears (3.02:1, with trolling valve) driving two 1275 mm, four blade ERC propellers, while maneuvering is assisted by a 55 kW ERC bow thruster. Electrical generation is provided by two Doosan AD136 units (93 kW each), and onboard wastewater is treated by an ACO Clarimar MF3 system with vacuum interface. Electrical and safety critical systems are already advanced, with Bureau Veritas certified wiring and distribution panels installed, navigation lights fitted, and bilge and fire systems equipped with electrically controlled valves to underpin operational readiness. Deck and outfitting details are equally robust: anchoring is provided by two 360 kg HHP anchors with 275

m of BV certified chain, operated by DATA anchor windlasses and capstans with a steel bell, while steering gear and rudders are also DATA. A ten ton·m hydraulic fore crane with electro hydraulic power pack supports tender and equipment handling, climate comfort is delivered through a 360,000 BTU chilled water system with fresh air makeup units, watertight doors have been designed and tested in house, diving capability is supported by one Coltri LP 300 and two Coltri MCH16 Mark 3 scuba compressors, and corrosion protection is achieved with fifty six aluminum anodes on a five year replacement cycle.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
